COLLEGE OF LETTERS, ARTS, AND SOCIAL SCIENCES

<<http://www.class.csupomona.edu/>>

Barbara J. Way, Dean
Sharon Hilles, Associate Dean

The College of Letters, Arts, and Social Sciences advances knowledge and learning in established academic disciplines in the humanities, social sciences, and performing arts. It provides introductory and advanced course work in more than 20 degree and certificate programs.

The College also provides courses that substantially make up the General Education curriculum required of all students. These courses provide a foundation of knowledge of the cultural, social, political, ethical, and economic worlds. The College provides curricular support of the University's considerable teacher-education function. In all its programs, the College of Letters, Arts, and Social Sciences serves the goals of the University to provide for the intellectual, personal, and professional development of each person and for the enrichment of the communities it serves outside the University. In pursuit of these objectives, Bachelor's degree programs and minors are offered in the performing arts, humanities, behavioral and social sciences, and kinesiology. Master's degrees are offered in economics, English, history, psychology, public administration, and kinesiology. Through its curriculum, research activities, arts performances, and other humane activity, the College of Letters, Arts, and Social Sciences promotes activity integral to processes of inquiry, creativity, learning, and teaching.

In accord with the mission of a comprehensive polytechnic university "preparing students for life, leadership, and careers in a changing, multicultural world," the College of Letters, Arts, and Social Sciences seeks to equip students with lifelong learning skills enabling them more effectively to challenge problems of extraordinary social, technical, and human complexity. These skills include creative and critical thinking, methods of both quantitative and qualitative inquiry, the application of theory to practice, learning through performance-based activities in the humanities, arts and social sciences, and the integration of mind and body in health and wellness activity. In furthering its mission of promoting learning and teaching as broad-based, ongoing, and shared processes, the College of Letters, Arts, and Social Sciences supports initiatives that further the professional development of faculty and staff, that engage students and faculty in active collaboration in the pursuit and dissemination of knowledge, and that integrate the arts, sciences, and technologies. The College thus advances collegiality not only among the various segments of the University, but also with the local and global communities it serves. It promotes access of underrepresented student populations to its programs, resources, and services.

The College of Letters, Arts, and Social Sciences offers 11 Bachelor of Arts degrees, 6 Bachelor of Science degrees, 22 minors, 3 Certificates of Proficiency, 3 Master of Science degrees, two Master of Arts degrees, and a Master of Public Administration. The College offers a Digital Media Minor that enables students to learn and use multimedia technology to demonstrate their acquisition of knowledge in an array of courses in social sciences, humanities, and the arts. With other colleges in the University, the College of Letters, Arts, and Social Sciences participates in continuing education in support of the concept of lifelong learning. To promote increased multicultural understanding, the College encourages students to investigate opportunities for overseas study through the International Center. For further information about these programs, please contact the individual department.

College of Letters, Arts, and Social Sciences Related Coursework

CLS 200 Special Study for Lower Division Students (1-2)

Individual or group investigation, research, studies, or surveys of selected problems. Total credit limited to 4 units, with a maximum of 2 units per quarter.

CLS 201/201A Introduction to Digital Media for the Social Sciences, Humanities, and Performing Arts (3/1)

Digital media (video, audio, computers and various software applications, photography, web page, etc.) currently used in social sciences and humanities to enhance research, pedagogy, community collaboration, and communication with the public. Characteristics and

use of digital media in connection with the purposes, concepts, and approaches of disciplines in the social science and humanities. 3 hours lecture/discussion, 1 two-hour activity. Corequisites: CLS 201/201A

EGR/ENV/CLS 215 Introduction to Interdisciplinary GIS Studies (2)

Interdisciplinary overview of applications in geographic information system (GIS) applications. Diagnostic assessment of student skills and development of study plans. Linkage of GIS to various disciplines. 2 hours lecture/discussion.

CLS 301/301A Application, Design and Use of Media in Multimedia (3/1)

Media including audio, video, animation, and graphics in the production and distribution of digital multimedia. 3 hours lecture, 1 two-hour activity. Prerequisites: CLS 201/201A. Corequisites: CLS 301/301A.

CLS 362 International Field Studies (4)

Direct field investigation of an international destination with attention to the central issues confronting a complex society. These issues include relationship and influence of the international destination's history on the present dynamics of contemporary culture. Instructional materials, activities, and facilities charges. 4 lectures/problem-solving. (Also listed as BUS 362.)

CLS 400 Special Study for Upper Division Students (1-2)

Individual or group investigation, research, studies, or surveys of selected problems. Total credit limited to 4 units, with a maximum of 2 units per quarter.

CLS 401 Community Projects in Digital Media Seminar (4)

Capstone seminar providing service-learning practicum in community-based projects drawing from core and discipline specific DISSHPA courses. 4 hours seminar/discussion. Prerequisites: CLS 201/201A, CLS 301/301A.

CLS/ENV 430 Liberal Studies: Arts Integration I (4)

Exploration by experience of the fine and performing arts. Connections and relationships among the arts within their diverse historical and cultural contexts. Applications of the creative experience to classroom learning environments. 4 lecture/problem solving. 20 hours of directed fieldwork. Prerequisite: Completion of General Education Area C1.

CLS 432 The Use and Role of Technology in International Destinations (4)

Direct field investigation and academic study of productive processes and applications of technology within an international destination. 4 lectures/problem-solving. Instructional materials, activities, and facilities charges. (Also listed as BUS 432.)

CLS 452 Political Economy and Business Practices in an International Destination (4)

Direct field investigation and academic study of historical and current productive/political organization of an international destination. State ownership and the mixed economy; economic objectives and planning. Business organization; incentives and decision-making; and management. Cross-cultural comparison with Western enterprise. International trade. 4 lectures/problem-solving. Instructional materials, activities and facilities charges. Fulfills GE Area D4. Prerequisites: Completion of GE Area A and sub-areas D1, D2, and D3. (Also listed as BUS 452.)

CLS 482 International Destination and the United States: Cross-Cultural Analysis (4)

Examination of critical areas of U.S. and international cultures that provide insights and understanding of the comparative differences of these two civilizations; historical and contemporary differences. 4 lectures/problem-solving. Instructional materials, activities and facilities charges. Fulfills GE Area C4 or D4. Prerequisites: Completion of Area A and 2 lower division sub-areas in Area C or Area D. (Also listed as BUS 483.)

BUS/CLS 492 International Communications Consultancy Instruction (4)

Classroom instruction for institutional consultancy. Techniques for consulting with organizations/institutions. Integrates situation/content analysis, environmental scanning, representative speakers, content research, document preparation and writing, oral presentation of findings and recommendations. Organizations/institutions include: social, government, not-for-profit (art galleries, churches.) GE Synthesis course for Area D4. 4 lecture/discussion/problem solving. Prerequisite: Completion of GE requirements in Areas A and Sub-areas D1, D2 and D3 is required.

EGR/ENV/CLS 494/494A Interdisciplinary Project in Geographic Information Systems I (1/1)

Problem-solving skills using GIS technology in a Fall/Winter/Spring sequence. Students design, manage and develop GIS projects in an interdisciplinary setting. Issue related to ethics, decision making, interdisciplinary applications and the visual display of information are addressed. 1 lecture discussion, 2 hours activity. Corequisites: EGR/ENV/CLS 494/494A.

EGR/ENV/CLS 495/495A Interdisciplinary Project in Geographic Information Systems II (1/1)

Problem-solving skills using GIS technology in a Fall/Winter/Spring sequence. Students design, manage and develop GIS projects in an interdisciplinary setting. Issue related to ethics, decision making, interdisciplinary applications and the visual display of information are addressed. 1 lecture discussion, 2 hours activity. Prerequisite: EGR/ENV/CLS 494/A. Corequisites: EGR/ENV/CLS 495/495A.

EGR/ENV/CLS 496/496A Interdisciplinary Project in Geographic Information Systems III (1/1)

Problem-solving skills using GIS technology in a Fall/Winter/Spring sequence. Students design, manage and develop GIS projects in an interdisciplinary setting. Issue related to ethics, decision making, interdisciplinary applications and the visual display of information are addressed. 1 lecture discussion, 2 hours activity. Prerequisite: EGR/ENV/CLS 495/A. Corequisites: EGR/ENV/CLS 496/496A.

CLS 499/499A/499L Special Topics for Upper Division Students (1-4)

Group study of a selected topic, the title to be specified in advance. Total credit limited to 8 units, with a maximum of 4 units per quarter. Instruction is by lecture, laboratory, or a combination. Prerequisite: permission of instructor. Corequisites may be required.

ANTHROPOLOGY

<<http://www.class.csupomona.edu/ga>>

One of the three majors offered in the Department of Geography and Anthropology is Anthropology. For other programs in the department see Geography, and Social Sciences.

Richard S. Hyslop, Chair, Geography and Anthropology Department
 Mark W. Allen, Anthropology Coordinator

David G. Lord
 Harold F. Turnbull
 Dorothy D. Wills

Anthropology is the scientific study of the peoples of the world, past and present, in the broadest possible sense: their total cultural and biological heritage. The goal of anthropology is a complete understanding of the human species, from its origins several million years ago to the present, including all of its current cultural and biological diversity. Students majoring in Anthropology in the department of Geography and Anthropology enroll in one of three options: General Anthropology, Cultural Resource Management, or Computer-Based Anthropology. Through a common integrated core of courses selected from all four of the major anthropological subfields (Sociocultural Anthropology, Biological Anthropology, Archaeology, and Linguistics), each of the three options provides students with a broad-based understanding of the diverse subject matter of anthropology. Each option then diverges to provide additional training aimed toward better serving the individual needs of students with different specialty interests and career goals.

General Anthropology

The General Anthropology Option adds advanced coursework in each of the major subfields to the common core, providing students with a traditionally broad and generalized "four-field" anthropology degree. This option is particularly suitable for students intending to go on to graduate studies in anthropology or a related field at an institution which prefers or requires broad-based undergraduate training in anthropology, or for students who intend to pursue a career in social, governmental, or international service, primary or secondary education, or law.

Cultural Resource Management

Cultural Resource Management (CRM), an applied approach to anthropology, involves the identification, evaluation, and preservation of various kinds of cultural resources, as mandated by both Federal and State legislation and by scientific standards pertaining to the civil planning process. The main objective of the CRM Option is to produce professionals who are competent in the methods and techniques appropriate for filling positions in cultural resource management and related fields, and to provide the theoretical background required for designing research projects and collecting and analyzing resultant data.

The CRM Option provides its graduates with the training and experience necessary to (1) conduct analysis of sociocultural, ethnohistoric, and archaeological data to assist the public and private sectors in implementing environmental protection and historic preservation legislation; (2) assess the scientific importance of ethnohistoric and archaeological resources; (3) be familiar with existing cultural resource data-keeping facilities; and (4) be competent in appropriate anthropological techniques of field and laboratory analysis, as well as procedures employed in archival and museum collections preparation.

Training in anthropology provides a unique understanding of human beings and human issues that is highly appropriate for many different

kinds of careers. Employment opportunities open to anthropologists are almost as diverse as the subject matter of the discipline itself. Recent graduates with bachelor's degrees in anthropology have taken positions in areas as varied as advertising, journalism, radio and television, public relations, purchasing, sales, travel and tourism, government service, business management, personnel service, police work, military intelligence, science writing, community and international development, and marketing. With additional training beyond the bachelor's degree, anthropologists are qualified for and find employment in various health-assistance or legal-assistance occupations, primary or secondary teaching, and medical or dental technology.

Anthropologists who continue their education through graduate school, and receive a master's degree or doctorate in anthropology or a related field at another institution, qualify for professional careers in such areas as higher education, public administration, counseling, environmental health, public health, library science, museum science, city management, city planning, government service, business administration, international business, or social or environmental research. Some anthropology graduates move on to law school or medical or veterinary school, and pursue a career in one of these areas. Due to the broad-based training that a degree in anthropology provides, anthropology graduates typically find their degree to be an ideal launching platform for career opportunities in innumerable occupational areas.

Basic methods of archaeological reconstruction and interpretation. Survey of human cultural and technological development from the first appearance of humans to the beginning of the urban lifeways and the formation of world civilizations. 4 hours lecture/problem solving.

ANT 104 Introduction to Linguistic Anthropology (4)

Oral and written language; the biological basis for language, its origins and development. Overview of the structure of language: phonetics, phonology, syntax, semantics, and pragmatics. Variation in Language. Critical use of Language (reading and writing). 4 hours lecture/problem solving.

ANT 105/105A Computer Basics in Geography and Anthropology (2/2)

Introduction to computer applications in geography and anthropology. Survey of discipline specific software in current use within each field. Hands-on experience with selected applications. 2 hours lecture, 4 hours activity.

ANT 112 World Cultures via the Internet (4)

Introduction to anthropology and world cultures. Guided exploration of the peoples of the world through the medium of the internet. Emphasis on web sites demonstrating key anthropological principles. Cultural diversity, culture structure and function, cultural relativity, environmental adaptation. 4 hours lecture.

ANT 201 Human Nature/Human Affairs: A Biocultural View (4)

Integrated exploration of both cultural and biological factors affecting critical cultural/ethical issues such as intelligence, aggression and territoriality, sexism, racism, and altruism. Relationship of these issues to individual and cultural systems from a comparative perspective. 4 hours lecture/discussion. Meets GE requirement in Area E.

ANT 299/299A/299L Special Topics for Lower Division Students (1-4)

Group study of a selected topic, the title to be specified in advance. Total credit limited to 8 units, with a maximum of 4 units per quarter. Instruction is by lecture and activity or laboratory. Prerequisite: permission of instructor. Corequisites may be required.

ANT 320 Native Peoples of California (4)

Analysis of social, linguistic, ideological and technological diversity among indigenous peoples of California. Emphasis on a broad appreciation of native California lifestyles through a detailed study of representative societies, as well as historical transformations caused by European and Euro-American contact. 4 hours lecture/discussion. Prerequisites: All lower division GE courses in Area A and Sub-areas D1, D2, D3. This course fulfills GE Sub-area D4, Social Science.

ANT 321 Native Peoples of North America (4)

Survey of peoples and societies of North America; in-depth analysis of diverse ecological, economic, social, political, and ideological adaptations and distinct lifeways of selected Native American societies. Extensive student presentations and research. 4 hours seminar/discussion. Prerequisite: ANT 102 or 103, or ANT 112/112A, or permission of instructor.

ANT 322 North American Archaeology (4)

Presents a survey of prehistoric cultural development in North America by synthesizing data recovered through excavations with the ethnographic record. Emphasizes interdisciplinary application to archaeological method and theory. Extensive student presentations and research. 4 hours seminar/discussion. Prerequisites: ANT 102 or ANT 103 or ANT 112 or consent of instructor.

ANT 325 California Archeology (4)

Prehistoric and early historic cultural developments in California as documented by the archaeological and ethnographic record and early historic accounts. Extensive student research and presentations. 4 hours seminar/discussion. Prerequisites: ANT 102 or ANT 103 or consent of instructor.

ANT 330 Archaeological Theory and Methods (4)

Introduction to problem formulation and methods of analysis in archaeology, including quantitative and qualitative approaches. Review of theoretical trends in archaeology, from a current and historic perspective. Development and implementation of research designs and sampling strategies. 4 hours lecture discussion. Prerequisite: ANT 103 or permission of instructor.

ANT 340/340A Comparative Primatology (3/1)

Multimedia exploration of the Primates. Biosocial traits, distribution, range of variation, ecology, and evolutionary background of prosimians, new world monkeys, old world monkeys, apes, and humans. Humans in a comparative primate perspective. 3 hours lecture, 2 hours activity. Prerequisite: ANT 101/101A.

ANT 345/345L Human Evolution and Variation (3/1)

Investigation of the origins, evolution, and differentiation of the human species. Critical examination of the varying theories concerning the fossil record of human evolution and the origins and development of racial variation. Study of human and non-human primate fossil materials. 3 hours seminar/discussion, 2 hours lab. Prerequisites: ANT 101/101A or ANT 103, or permission of instructor.

ANT 350 Environment, Technology and Culture (4)

Technology as mediator between humans and natural environment. Evolution of tools and techniques in environmental manipulation. Developmental and acclimatory adjustments (biological) and regulatory (cultural) adjustments in human adaptation. 4 hours seminar-discussion. Prerequisite: One course from each of the following Sub-areas: A1, A2,

A3 and B1, B2, B3 and D1, D2, D3 (ANT 102). Interdisciplinary GE Synthesis Course for Sub-area B4 or D4.

ANT 352 Development Anthropology (4)

Economic anthropology; sociocultural change and the phenomenon of "modernization" throughout the non-Western world. Emphasis on processes and institutional adaptations relating to evolving economic activities in a variety of cultures. Dynamic nature of culture and cultural sub-systems as viewed from a developmental perspective. 4 hours seminar/discussion. Prerequisite: ANT 102 or ANT 112 or permission of instructor.

Seminar on human communication in sociocultural context. Topics explored include nonverbal communication, dialects and social variation in speech communities; pidgins and creoles, multilingualism, language planning, language and socialization of children, ethnographic semantics, social interaction and communicative ritual, inter-cultural communication. 4 hours seminar. Prerequisites: ANT 102 or ANT 112 or ENG 320 or permission of instructor.

ANT 354 Laws, Values, and Culture (4)

Cross-cultural comparison of legal systems past and present. Political, economic, and other underpinnings of various legal concepts. Symbolic and philosophical bases of social control. Examination of formal and informal means of conflict resolution, definition and treatment of deviancy and criminality. Interrelationship between morality, legality, and normative behavior. 4 hours lecture discussion. Prerequisite: ANT 102 or ANT 112 or permission of instructor.

ANT 355 Psychological Anthropology (4)

Examination of individual behavior and development in comparative sociocultural perspective. "National character," "normalcy," and "abnormalcy," child rearing, and other personality factors reviewed in a variety of global settings and from differing schools of theory. Prerequisite: ANT 102 or ANT 112 or permission of instructor. 4 hours lecture discussion.

ANT 357 Health Systems Past and Present (4)

Cross-cultural survey of health, disease, and medicine. Etiology, epidemiology, nutrition, life cycle problems, and health care programs in Western and non-Western cultures. Emphasis on cultural factors in prevention, diagnosis, and treatment of health problems. 4 hours lecture/presentation. Prerequisites: ANT 101/101A or ANT 102 or ANT 112 or permission of instructor.

ANT 358 Social Anthropology (4)

A comparative, functional approach to social organization and social structure in various societies; culture, society, and personality; family, kinship, and marriage; social role and social rank; law and politics; religious systems; social change. 4 hours lecture discussion. Prerequisite: ANT 102 or ANT 112 or permission of instructor.

ANT 359/359A Demographic Anthropology (3/1)

Demographic theory and methods applied to problems in cultural, archaeological, and biological (physical) anthropology. Human population patterns from prehistoric times to the present. Practice with computer models used in anthropological/demographic research. 3 hours lecture, 2 hours activity. Prerequisites: ANT 101/101A or ANT 102 or ANT 103 or ANT 112 or permission of instructor.

ANT 360 Magic, Shamanism, and Religion (4)

Cross-cultural comparison of religion at all levels of social organization. Student analysis of theories of origin and process including revitalization movements. Witchcraft, sorcery, and shamanism as social institutions. Involves student presentations and critiques. 4 hours lecture/problem solving. Prerequisite: ANT 102 or ANT 112 or permission of instructor.

ANT 379 Cultural Areas of the World (4)

Ethnographic and ethnohistorical survey of selected cultural areas depending on available faculty specialization. Analysis of contemporary as well as traditional societies through ethnographic documents and first-hand field data. 4 lecture discussions. May be repeated for a total of 12 units. Prerequisites: All lower division GE courses in Area A and Sub-areas D1 (HST 202), D2 (HST 103, HST 201, IA 101 or PLS 202) and D3 (ANT 102, EWS 140, SOC 201, GEO 102, or SSC 101). This course fulfills GE Sub-area D4, Social Science.

ANT 380 History of Anthropological Theory (4)

Chronological investigation by students of the major schools of thought within anthropology. Evolution of analytical theory and research methodology in each of the discipline's quadrants. Primary figures in anthropology, their lives and work, their impact on developments in the discipline. 4 hours seminar/discussion. Prerequisites: junior or senior standing.

BEHAVIORAL SCIENCES

<<http://www.class.csupomona.edu/bhs/mainhp.htm>>

One of the three majors offered in the Psychology and Sociology Department is Behavioral Science. For other programs in this department, see Psychology and Sociology. For information on the graduate program in psychology see the "Graduate Studies" section in this catalog.

The department offers courses leading to the degree of Bachelor of Arts in the Behavioral Sciences. The curriculum for this degree is primarily composed of courses in psychology and sociology.

Instruction in the major is intended to provide a background for understanding human behavior, in both individual and collective aspects, as well as from multicultural perspectives. The interdisciplinary orientation and offerings allow students to select a major curriculum in concert with faculty advisors that best supports their aspirations for post-college employment or advanced education. A minimum number of required courses has been established, so that greater flexibility can be achieved in personal curriculum planning, with electives selected through consultation with faculty advisors. The introductory courses in psychology and sociology are prerequisite to most of the upper division offerings.

Behavioral Science majors may minor in Criminal Justice or in any minor degree program offered by another department.

Students majoring in psychology or behavioral science who have a GPA of at least 3.0 overall have the opportunity to join Psi Chi, the National Honor Society in Psychology. Students majoring in sociology or behavioral science who have a GPA of at least 3.0 overall have the opportunity to join Alpha Kappa Delta (AKD), the National Honor Society in Sociology. For additional information contact the department office.

CRIMINAL JUSTICE MINOR

The Criminal Justice minor (also a certificate program) is a multidisciplinary grouping of courses that have been specifically selected to fulfill the needs of students presently working in or planning for careers in law enforcement or probation. Special advisement for students in any major who are interested in criminal justice may be obtained from the department's Criminal Justice coordinator. Detailed information is available from the department office.

Since Behavioral Science is an interdisciplinary major drawn from Psychology and Sociology, students may not double major in Behavioral Science and either of these other two majors.

PHYSIOLOGY MINOR

See "University Programs" section in this catalog.

QUANTITATIVE RESEARCH MINOR

See "University Programs" section in this catalog.

An increasingly complex society needs individuals to inform, interpret, and explain to the public the problems of that society. The communication major prepares students to fill positions in the mass media, business, government, and education.

Students select one of three options to complete the major—Journalism, Public Relations, and Communication Studies.

The Communication Studies Option should be chosen by students who wish to emphasize interpersonal and intercultural communication in preparation for careers in business/industry or in preparation for graduate or professional school.

The Journalism Option is designed for students planning careers in editorial and supervisory assignments with newspapers, magazines, industrial publications, and broadcast media.

The Public Relations Option should be chosen by students planning careers in public relations, advertising, and human resource management which require skills and knowledge in the use of written, oral, visual, and multimedia communication.

The Department offers minors in Journalism, Public Relations, and Communication Studies.

The Communication Department sponsors the weekly student newspaper, *The Poly Post*, the on-line *Digital Post*, and the Department magazine, *Impressions*. The Department also supports an annual special event, Com Day, which is a professional conference organized and produced by students.

The department serves students of all colleges and schools and develops professional proficiencies to meet the needs of the undergraduate economics majors. A curriculum leading to the master of science degree in economics is also offered in the department. Requirements for this degree may be found in the graduate listings.

The curriculum in economics, while offering a broad background of general education and traditional undergraduate courses, lends itself to considerable flexibility. Students consult with a faculty advisor to select courses suitable for a program relevant to personal goals. Seven possible areas of concentration in economics are: international, environmental and resource, quantitative, economic history, urban, business and government, and economics and finance.

The undergraduate major in economics has three objectives: first, to prepare economic analysts for positions in business, industry, agriculture, and government; second, to prepare students for research or management trainee positions in fields such as public administration, labor unions, industry, finance, and insurance; third, to furnish undergraduate preparation for students who may wish to pursue graduate work in the field of economics.

The minor in economics serves other departments of the university by providing their students with a well-defined and generally recognized set of courses. For many majors the minor will enhance their employability upon graduation. It will also provide a structure for those seeking basic understanding of economic theory and its application. For others it will facilitate their graduate work.

Quantitative Research Minor

The Quantitative Research Minor is an interdisciplinary program which can be taken by students majoring in any field other than Mathematics. Its purpose is to prepare students to conduct quantitative analysis in their chosen discipline. Students acquire practical experience using statistics, principles of experimental design, survey and data analysis techniques. This minor is particularly suited for students majoring in Economics. A full description of this minor is included in the "University Programs" section of this catalog.

The English and Foreign Languages Departments offers programs in English and Spanish. In the Bachelor of Arts in English program, students may choose from two options: Literature and Language or English Education. Students in all programs are encouraged not only to improve verbal skills, but also to develop a fuller understanding of themselves and their culture.

Graduates are prepared to enter advanced-degree work in English, American Studies, or related areas. Additional opportunities exist in law, business management, journalism, and other fields welcoming those with a liberal education and communication skills.

The Literature and Language option offers intensive study in the language and literature of both Britain and the United States. The curriculum for the Literature and Language option is patterned as follows: in the freshman year courses in composition and in the methods of reading literature; in the sophomore year a broad survey of English and American literature and world literature; in the junior year a study of linguistics and the principal genres; and in the senior year relatively intensive work in individual authors or small groups of authors.

The second option, English Education, also offers intensive study of language and literature with a choice of three tracks: Literature, Communication Studies, or Theatre Arts. In each case, students are given thorough preparation for entrance into a secondary credential program in English.

In addition, the department lists elementary and intermediate sequences in French, German, and Spanish language and culture, and elementary sequences in Latin and Mandarin Chinese language and culture. Courses in English composition and literature serve the general university community. These include study in English as a second language and in the literature-language aspects of African-American, Latino, and Native American Studies.

The major in Spanish and the minor in Spanish language and culture prepares students to communicate in Spanish, to appreciate more fully the cultural heritage of the Southwest, and to communicate more effectively with increasing Hispanic populations. Employment possibilities in students' major fields will be appropriately enhanced. The Department also offers a minor in French. These minors are open to all majors, including English.

In addition, the Department offers certificate programs in French, German, and Spanish. Certificate programs require completion of a minimum of 16 units of coursework at the 200-level or above. The graduate program in English is listed separately.

The Rho Xi Chapter of Sigma Tau Delta, the national English honor society, is open to upper division English majors if they have completed two or more English courses beyond freshman composition with a 3.0 average and if they rank in the upper one-third of their class overall.

Graduate students in English are admitted if they have completed 12 or more units of graduate English with a 3.5 or better GPA. For additional information, contact Dr. Anne Simpson, Professor in the Department of English and Foreign Languages.

A 2.0 cumulative GPA is required in core courses, including option courses, in order to receive a degree in the major.

Total units required in the Minor (32)

SPANISH MAJOR

The major provides a broad curricular base that encourages students to develop and enhance their communicative skills--both oral and written--in Spanish, the fourth most widely spoken language in the world and the second in the Southwest. By gaining insight into and appreciation of the cultures of the Spanish-speaking world, students will develop a fuller understanding of themselves and their own culture.

The Bachelor of Arts in Spanish prepares students to enter a wide variety of careers. The State of California's recent foreign language requirements for high school graduation and for admission into the CSU will increase the demand for teachers of Spanish in the public schools. The major will prepare students to enter teacher-preparation programs as well as advanced-degree graduate programs. In addition, the Spanish major would benefit careers in international business, management, the media, law enforcement, tourism, publishing, interpreting, translation, public relations, advertising, and social sciences. The federal government seeks out Spanish-speaking graduates for employment in civil service and diplomatic areas.

Preparation for the Spanish Major

One year of elementary college-level Spanish (SPN 151, 152 and 153) or the equivalent (two years of high school Spanish, etc.) is required for admission into the major. In addition, all majors must pass a written and oral proficiency test upon entrance to the program and another at the beginning of the junior year.

CORE COURSES FOR THE MAJOR

For Cal Poly Pomona students following curriculum year 2001-02 or 2002-03, the total units required for General Education is 68. Students following curriculum years 2003-04 or 2004-05, should consult the catalog website <<http://www.csupomona.edu/~academic/catalog/>> for current information regarding this unit requirement. A 2.0 cumulative GPA is required in core courses in order to receive a degree in this major.

One of the three majors offered in the Department of Geography and Anthropology is Geography. For other programs in the department see Anthropology, and Social Sciences.

Lin Wu, Geography Coordinator

Kristen Conway-Gomez Michael Reibel
Sara A. Garver Terence Young

The Geography degree program, which is housed in the Department of Geography and Anthropology, is designed to provide an understanding of humankind's cultural and physical environments by examining the dynamic systems (both natural and human) through which these diverse settings are changed or sustained. Students majoring or minoring in Geography analyze social and environmental change as they affect local areas and regions and compare solutions which have been attempted in various parts of the world. Attention is given to the relationships between population use of resources and environmental and social impacts in rural and urban settings.

Majors may choose any of three options: the traditional Geography Option, which blends physical, cultural and regional geography courses with field work; the Environmental Geography Option, which equips graduates for careers as environmental analysts, managers and policy makers, and the Geographic Information Systems (GIS) Option, which prepares students for careers in the rapidly expanding field of spatial data systems for land use management, local government and environmental protection. The GIS option emphasizes technical skills such as air photo interpretation, computer cartography and geographic information systems (GIS) software and techniques. Students completing this program receive a Bachelor of Science Degree.

Training in this major provides a broad and suitable background for careers requiring an understanding of peoples, groups, and their cultural and regional institutions. Careers specifically related to this program include government employment in various capacities, secondary school teaching, and positions in international or multicultural capacities in business and management. Preparation for graduate training in this discipline is also offered to majors.

CORE COURSES FOR MAJOR

Required of all students. A 2.0 cumulative GPA is required in core courses, including option courses, in order to receive a degree in the major.

Total units required for minor: (28)

NOTE: The Geography Minor may be taken by Social Sciences majors.

COURSE DESCRIPTIONS**GEO 101 Physical Geography (4)**

Basic principles of physical geography. Significance of earth-related distribution patterns with reference to their effect on human activities. 4 lecture discussions. Meets GE requirement in Area B2 for non-majors.

GEO 102 Human Geography (4)

Basic principles of cultural geography. Significance of people-related distribution patterns with reference to their effect on human activities. 4 lecture discussions. Meets GE requirement in Area D3 for non-majors.

GEO 103 Image and Map Interpretation (4)

Fundamental techniques of airphoto and satellite image interpretation and reading of general reference and thematic maps as they apply to understanding both physical and cultural features depicted in images and maps. Student analysis and presentation of their findings. 4 lectures/problem-solving.

GEO 105 Computer Basics in Geography and Anthropology (4)

Introduction to computer applications in geography and anthropology. Survey of discipline-specific software in current use within each field. Hands-on experience with selected applications. 4 hours lecture.

GEO 200 Special Study for Lower Division Students (1-2)

Individual or group investigation, research, studies, or surveys of selected problems. Total credit limited to 4 units, with a maximum of 2 units per quarter.

GEO 240/240A Introduction to Geographic Information Systems (3/1)

Concepts in the framework of geographic information systems. Basic techniques for the computer processing of geographical systems analysis and modeling. 3 hours lecture/problem-solving, 2 hours activity. Prerequisites: GEO 105/105A or permission of instructor.

GEO 299/299A/299L Special Topics for Lower Division Students (1-4)

Group study of a selected topic, the title to be specified in advance. Total credit limited to 8 units, with a maximum of 4 units per quarter. Prerequisite: permission of instructor. Instruction is by lecture and activity or laboratory. Corequisites may be required.

GEO 303 Climatology (4)

Introduction to the basic elements in the climatic systems. Determinants of climatic variation through time and space. Methods of inquiry, including both qualitative and quantitative methods and computer assisted simulation in climatology. Reciprocal impact of climate and society. 4 hours lecture/problem solving. Prerequisites: One course from each of the following Sub-areas: A1, A2, A3 and B1, B2, B3 or permission of instructor. GE Synthesis course for Sub-area B4.

GEO 305 Advanced Physical Geography I (4)

In depth investigation of landscapes and flowing water, emphasizing the formation and geographic distribution of mountains, volcanoes, valleys, and deserts, and their shaping by rivers, glaciers, and ocean waves. 4 hours lecture/problem solving. Prerequisite: GEO101 or permission of instructor.

GEO 307 Advanced Physical Geography II (4)

In depth investigation of the changing physical environment. Emphasizes the changing processes of ocean-atmosphere and its impact on soil systems and terrestrial biomes. The influence of human activity on the changing physical environment is also examined. 4 hours lecture/problem solving. Prerequisite: GEO101 or permission of instructor.

GEO 308 Biogeography (4)

The geography of organisms, biotic communities and ecosystems. Investigation of ecosystem types, their components, locations, and geographic scope. Particular emphasis on spatial and temporal principles governing the geographic patterns of current and past terrestrial plant and animal species and communities. Prerequisites: GEO 101 and either BIO 110 or BIO 115. 4 lecture/discussions.

GEO 309 Field Geography (4)

Extensive student participation in basic methods of geographic field analysis of small areas, including rural and urban types, and physical and cultural aspects. Theory and practice in field sampling. 4 lectures/problem-solving.

GEO 312 Economic Geography (4)

Introduction to the substance and issues of economic geography. Topics addressed include the distribution and control of resources, the diversity of political/economic systems and the international exchange of labor and goods. 4 lectures/problem-solving. Prerequisite: ENG 104.

GEO 313 Legal and Political Geography (4)

Spatial aspects of political systems and units. Territorial configurations and disputes at all levels, on all continents. 4 lectures/problem-solving. Prerequisite: ENG 104.

GEO 315 Urban Geography (4)

Student analysis and presentation of the problems in the origin and evolution of cities. Includes size, functions, distribution patterns, supporting and tributary areas, and roles within the whole political, social and economic structure of a region; includes suburbs and problems of metropolitan areas. 4 lectures/problem-solving.

GEO 320/320A Rural Geography (3/1)

Spatial analysis of rural environments, including the development and application of theoretical concepts and models to interpret rural communities, their characteristics, and their problems. 3 hours lecture, 2 hours activity.

GEO 330/330A Environmental Geography (4)

Explores geographic issues of natural resource availability, environmental consequences of patterns of population distribution, and pollution diffusion. Analysis of spatial patterns of human/environment impacts at regional and local scales. Prerequisite: GEO 101 or consent of instructor.

GEO 340/340A Business Geographics (3/1)

Introduces students to routing, marketing, customer prospecting, service-area assessment, and retail/service site selection analysis using geographic information systems (GIS). Students will learn the key points of location theory in the spatial economy and data availability/data quality control. 3 hours lecture discussion, two-hour activity.

GEO 345 Tourism in a Globalizing World (4)

The geography of tourism and recreation in selected regions of the world. Aspects of physical and cultural geography that directly affect the tourist industry. 4 seminars. (Also listed as HRT 345)

GEO 350 U.S. and Canada Geography (4)

Student analysis and presentations of topics and problems in the physical, cultural and regional patterns of the United States and Canada with emphasis on the economic geography. 4 lectures/problem-solving.

GEO 351 Geography of California (4)

Location and description of California's natural and human resources. The influence of physical features upon the economic activities and sequence of occupation of California, with particular attention to the relationship of current California problems to their geographical causes. 4 lecture discussions. Meets GE requirement in Area 5 for non-majors.

GEO 352 Geography of Latin America (4)

Physical, cultural, regional patterns of Mexico, Central America, South America, and the islands of the Caribbean. 4 lecture discussions.

GEO 357 Geography of Asia (4)

Non-Soviet Asia from the Middle East to Japan and southward to Indonesia. Emphasis on environmental, cultural and political patterns and their relevance to current problems. 4 lecture discussions.

GEO 358 Geography of Africa (4)

Physical, cultural, and regional patterns of the nations of Africa. Emphasis within regions on development patterns of the new countries in Africa. 4 lecture discussions.

GEO 359 Europe: Land and People (4)

Student analysis and presentations of issues in the natural environment and the cultural landscape of Europe. Major current trends in social, cultural, economic and political developments in Western and Eastern Europe; relationship between historical and geographical diversity. 4 lectures/problem-solving.

GEO 400 Special Study for Upper Division Students (1-4)

Individual or group investigation, research, studies, or surveys of selected problems. Total credit limited to 8 units, with a maximum of 4 units per quarter.

GEO 405/405A Geo-Demographics Using GIS (3/1)

Application of Geographic Information Systems (GIS) techniques for the analysis of spatial and locational patterns of human population, population characteristics and population change. Housing, migration and commuting patterns. Market analysis and site location decision support. Neighborhood segregation and transitions. 3 hours lecture, 2 hours activity. Co-requisites: GEO 405/405A. Prerequisite: GEO 240/240A or equivalent.

GEO 409 Advanced Field Techniques (4)

Guidance and critiquing of student work in the analysis and evaluation of the geographical characteristics of the natural environment and its human use. Includes field mapping, systematic and random sampling of spatial phenomena, and environmental impact reporting. 4 lectures/problem-solving. Prerequisite: GEO 309 or permission of instructor.

GEO 410 Photographic Remote Sensing (4)

Student interpretation of spatial and spectral information from imagery produced in the photo-sensitive region of the electromagnetic spectrum. Experimentation with multispectral photography of the environment. Radial-line maps and mosaics from air photos and satellite photos. 4 lectures/problem-solving. Prerequisite: GEO 103 or permission of instructor.

GEO 413 Environmental Law (4)

Assessment and evaluation of the interplay between the American system of law and the natural system of the environment. Analysis, discussion, and case studies of specific legal issues relating to resources, environmental quality, policy, and regulation, including air, water, and land pollution laws and their application and practice. 4 hours lecture/discussion

GEO 420 Digital Image Processing (4)

Principles and techniques of remote sensing and using remotely sensed data to examine physical and cultural geographic scenes. Remote sensing applications in urban planning, agriculture, ecosystem management, atmosphere and earth sciences, and geographic information systems. 4 lectures/problem-solving. Prerequisites: GEO 410 and completion of GE requirements in area 2A, 2B, and 2C, or permission of instructor.

GEO 421/421L Computer Cartography (3/1)

Extensive student presentations on the utilization of computers to draw maps. Use of digitizers, scanners, and other computer mapping input devices; computer mapping software using line printers and plotters as output devices. Application of geographic information systems. 3 lectures/problem-solving, 1 three-hour laboratory. Prerequisites: GEO 105/105A or CS 101 or CIS 101, or permission of instructor. Corequisites: GEO 421/421L.

GEO 422/422A Multimedia Mapping (3/1)

Concepts and techniques utilizing the computer to combine and convert cartographics, sound, animation, video and film from analog to digital media to produce interactive multimedia maps and atlases. Students author and produce linear and nonlinear, cartographic and geographic hypermedia and hypertext. 3 hours lecture/problem-solving, 2 hours activity. Prerequisites: GEO 101, GEO 102, and GEO 105/105A.

GEO 435 Parks and Protected Areas (4)

The geography of world parks, forests, wildernesses, wildlife preserves, recreation areas and other institutionally designated and operated natural spaces. Investigation of the origins, meanings, development, designs, uses, impacts, problems, and policies relating to them. Particular emphasis on cultural and environmental factors supporting the geographic patterns of past and current natural spaces. 4 lecture/discussions.

GEO 442/442A Advanced Geographic Information Systems I (3/1)

Technical issues of geographic information, including data structure, database models, error estimation and product generation. 3 hours lecture/problem-solving, 2 hours activity. Prerequisite: GEO 240/240A or consent of instructor.

GEO 443/443A Advanced Geographic Information Systems II (3/1)

Applications in geographic information systems. Topics include resource management, urban planning, demographic and network applications and systems design and implementation. 3 hours lecture/problem-solving, 2 hours activity. Prerequisite: GEO 240/240A or consent of instructor.

GEO 444 Ethnic Geography of the United States (4)

Explores geographic issues of race and ethnicity, the regional geographic distributions of ethnic groups and origins of those distributions, dynamics of change in ethnic geography at various scales, the socio-spatial dynamics of urban ethnic enclaves, and current issues in ethnic geography. Prerequisite: GEO 102. Four units lecture/discussion.

GEO 445/445A Environmental Modeling With Geographic Information Systems (3/1)

Environmental modeling from a geographic information systems perspective. Technical approaches to model development with GIS. Input data requirements, data sources and processing techniques, interactive results presentation, scaling and spatial dimensions issues, cross-disciplinary applications. 3 hours lecture/problem solving, 2 hours activity. Prerequisite: GEO 240/240A or consent of instructor.

GEO 451 Internship in Geographic Information Systems (4)

On-the-job training in cartography and/or image interpretation for at least 10 hours per week or a minimum of 100 hours per academic quarter. Prerequisites: senior standing and the consent of the internship coordinator.

ANT/GEO/SSC 461 Senior Colloquium (4)

Guided capstone experience with discussion meetings. Completion and presentation of a capstone project summarizing student's learning experiences under faculty supervision. Discussion of problems or issues graduates may encounter in their chosen fields of employment. Summary portfolio and written report required. Prerequisites: senior standing and permission of faculty advisor.

GEO 499 Special Topics for Upper Division Students (1-4)

Group study of a selected topic, the title to be specified in advance. Total credit limited to 8 units, with a maximum of 4 units per quarter. Seminar. Prerequisite: permission of instructor. Corequisites may be required.

The History Department offers a major in history leading to the bachelor of arts degree as well as basic courses in general education. The History Department also offers a minor in history and a minor in Latin American Studies. Courses are designed to encourage students to seek out relationships between the past and contemporary social, political, and cultural issues, and to provide historical perspective on topics studied in other departments of the university.

Students have a choice of two tracks in the major. The first track offers a flexible curriculum for students wanting a history major with a maximum choice of general education courses and electives. It provides a foundation for those seeking pre-professional training in law, business, civil service, and graduate work leading to a master's degree or doctorate.

The second track is especially suited for students wishing to teach history in middle or high schools. Approved by the California State Commission on Teacher Credentialing, it provides a major in history combined with a pre-credential social science emphasis. Completion of this track successfully meets the state subject matter requirement for the Single Subject Teaching Credential in social science. Students may also meet this requirement by passing an examination adopted by the Commission on Teacher Credentialing.

Please note that subject matter preparation programs for credentialing prospective teachers should not be confused with undergraduate degree programs of colleges and universities. The Commission on Teacher Credentialing sets standards for academic programs that lead to the issuance of credentials. Although an applicant for a teaching credential must have earned a baccalaureate or higher degree from an accredited institution, the degree program does not necessarily fulfill the Commission's standards for the subject matter preparation of teachers. Completing a subject matter program that satisfies the standards enables a candidate to qualify for a fifth-year credential program. Only Track Two satisfies the standards. It specifies in detail the courses which have been approved by the Commission on Teacher Credentialing. Track One is designed for students who have career goals other than teaching at the high school level.

Students qualifying for Single Subject Credentials in other fields (i.e., English, Mathematics, etc.) may obtain a supplemental authorization to teach history or social studies up to the ninth grade by completing the requirements which have been established for such additional authorizations. For further information, see Professor Judith Anderson in the History Department.

The department also offers a curriculum which leads to a Master of Arts degree in History. A description of this program can be found in the "Graduate Studies" section of the catalog.

Students majoring in history have the opportunity of joining the Cal Poly Pomona History Club and the local chapter of Phi Alpha Theta, the International Honor Society in History.

Please note: All new majors should contact the department office to learn the name of their advisor. Continuing students should see their assigned faculty advisor one or more times per year.

I. Track One

Recommended for students seeking a broad liberal education, pre-professional training in law, business, civil service, or graduate study leading to a career in college teaching, museum or public history, or related fields. Students are urged to take at least one foreign language, especially those who expect to pursue graduate study.

Core Courses for Track One

Required of all students in Track One. A 2.0 cumulative GPA is required in core courses in order to receive a degree in the major.

II. Track Two

Successful completion of Track Two of the history major meets the subject matter competency requirement for prospective teachers seeking a California Single Subject Credential in Social Sciences. All students seeking a teaching career should immediately see Dr. Judith Anderson, History Department, for guidance.

Core Courses for Track Two

Required of all students in Track Two. A 2.0 cumulative GPA is required in core courses in order to receive a degree in the major.

HISTORY MINOR

For those who prefer to major in another field, the Minor in History carries some of the advantages of the History Major, yet can often be accommodated without requiring any additional time at the University. A History Minor, which appears on the transcript, is tangible evidence of systematic study of mankind's past, exposure to a wide array of related human activities, and the ability to analyze and communicate the nature of complex phenomena. For prospective employers, it often means a candidate of broader perspectives, greater cultural depth, and superior communication skills. These attainments are an important advantage in virtually all fields of endeavor available to university graduates.

Required of all students:

- History of World Civilization: Ancient PeriodHST 101 (4)
- History of World Civilization: Middle PeriodHST 102 (4)
- History of World Civilization: Modern PeriodHST 103 (4)
- Total units (12)

Twenty additional units in History will be selected in consultation with a History Department faculty advisor. Consideration will be given to student interests and vocational goals. Suggested groups of courses include specific world regions (ex. American history, European history, non-Western history), as well as special topics (ex. minorities in American history; modern world history; history of science, technology, and environment; etc.). The minor must include at least 12 upper division units. (20)

Total units required (32)

LATIN AMERICAN STUDIES MINOR

Required of all students:

- Cultural Areas of the World (Latin America)ANT 399 (4)
- Geography of Latin AmericaGEO 352 (4)
- Latin America: The Colonial PeriodHST 335 (4)
- Latin America: The Era of Nation BuildingHST 336 (4)

KINESIOLOGY AND HEALTH PROMOTION

<<http://www.class.csupomona.edu/khp/>>

The Department of Kinesiology and Health Promotion offers a bachelor of science and a master of science degree in kinesiology.

Kristine Brown, Interim Chair

Laura Chase	Wanda Rainbolt
Ken Hansen	Thomas W. Spalding
Michael Liang	Perky Vetter
Andrea L. Metzker	

The department offers an undergraduate curriculum divided into three options: pedagogy, exercise science, and health promotion. These options are designed to meet a variety of student needs and interests. Within each option there are two tracks from which students may choose, depending on their career goals and interests.

The tracks in the pedagogy option include Single Subject Physical Education, and Adapted Physical Education. In addition to obtaining the bachelor's degree, most students who elect the pedagogy option will obtain a California teaching credential which will qualify them to teach physical education in the state's public and private schools at either the elementary or secondary level. Those who elect the adapted physical education track will become qualified to obtain the Adapted Physical Education Specialist Credential. The department also provides selected coursework that qualifies students with a major other than kinesiology to earn a physical education teaching credential (a supplementary authorization). Students may prepare themselves to coach athletic teams by selecting appropriate courses.

The tracks in the exercise science option are human performance and clinical health science. The human performance track prepares students to work as a fitness consultant in a variety of settings. The clinical health science track prepares students for advanced degree programs in exercise science or for entrance to professional schools in such areas as physical therapy, physician's assistant, chiropractic, or medicine.

The tracks in the health promotion option are worksite health promotion and health education. The worksite health promotion track prepares students to work as a wellness professional in corporate settings. The health education track prepares students to work as a health educator in community or government agencies.

In addition to serving its own majors, the KHP Department provides required and elective courses in kinesiology and health to meet the educational needs throughout the University. The Activity Program provides courses such as basketball, aerobics, karate, gymnastics, and weight lifting.

The department also offers a curriculum that leads to a Master of Science degree in Kinesiology. A description of this program can be found in the "Graduate Studies" section of the catalog.

PHYSIOLOGY MINOR

The physiology minor is an interdisciplinary program that can be elected by students majoring in any field. Its purpose is to improve the training and advising of students to facilitate their pursuit of careers in biomedical fields that utilize a knowledge of physiology. It is particularly appropriate for students in the exercise science option. A full description of the minor is located in the University Programs section of this catalog.

CORE COURSES FOR MAJOR

Required of all students. A 2.0 cumulative GPA is required in core courses, as well as option courses, in order to receive a degree in the major.

COURSE DESCRIPTIONS

NOTE: KIN 100A-169A and KIN 179A courses may be repeated for additional credit as long as normal academic progress is maintained, and may be taken on a credit/no credit basis. On the first class day of each new quarter all activity classes meet in the main gymnasium, Bldg. 43.

KIN 100A Adaptive Activities (1)

Activity programs designed to meet the needs of students who do not participate in general activity classes. Will aid individuals with disabilities (permanent or temporary) to achieve physical, mental, emotional and social growth. 2 hours activity.

KIN 101A Backpacking (1)

Basic techniques of backpacking including instruction in equipment, map and compass reading, food selection, physical conditioning, safety, and trail etiquette. Activities involve day and overnight field trips. 2 hours activity.

KIN 102A Basketball (1)

Instruction in basketball skills, techniques, rules, offensive and defensive strategies, and team play. 2 hours activity.

KIN 105A Bicycling (1)

Basic techniques in bicycling including instruction in the purchase, care, and adjustment of equipment for both road and off-road riding, and bicycling safety. Field trips on local cycle trails. Students must furnish bicycle and helmet. 2 hours activity.

KIN 106A Bowling (1)

Instruction and skill development including techniques, strategies, scoring, and equipment. Held at off-campus facility. Fee required. 2 hours activity.

KIN 111A Social Dance (1)

Knowledge and instruction in social/ballroom dancing, and skill development for dances such as line dancing, country western, waltz, swing, and selected Latin dances. 2 hours activity.

KIN 114A Aerobic Exercise (1)

Concepts and performance of aerobic dance exercise including techniques for variable intensity and impact levels, and an introduction to methods and benefits of cardiovascular conditioning for healthier living. 2 hours activity.

KIN 115A Step Aerobics (1)

Concepts and performance of aerobic exercise utilizing a step apparatus. An effective aerobic modality for individuals preferring low impact exercise. Includes an introduction to methods and benefits of cardiovascular conditioning for healthier living. 2 hours activity.

KIN 116A Yoga/Meditation (1)

Concepts and performance of yoga and meditation practices. Union of mind, body and spirit. Variable levels of yoga as well as the introduction of various meditation practices. 2 hours activity.

KIN 117A Kickboxing (1)

Instruction and performance of cardiovascular activities utilizing various moves from martial arts, boxing and kickboxing. The main goal of the class is cardiovascular fitness. Variable levels of intensity are included. 2 hours activity.

KIN 118A Stretching (1)

Instruction in fundamental stretching movements and poses to enhance and improve flexibility. Emphasis on a variety of stretching techniques and core strengthening. Promotes greater range of motion in daily activities, decreased risk of injury and stress reduction. 2 hours activity.

KIN 119A Jogging (1)

Use of jogging to develop and maintain cardiorespiratory fitness. Involves instruction and practice in the techniques of jogging as well as instruction dealing with the physiological and health benefits of vigorous aerobic activity. 2 hours activity.

KIN 120A Beginning Aikido (1)

Instruction and skill development in the basic 21 Aikido exercises. 2 hours activity.

KIN 121A Intermediate Aikido (1)

Intermediate level of instruction and skill development in Aikido. 2 hours activity.

KIN 123A Karate (1)

Instruction and skill development in the basic karate movements. Physical and mental aspects of karate, including basic strategies for personal defense. 2 hours activity.

KIN 126A Soccer (1)

Instruction in the skills, techniques, and rules of soccer including offensive and defensive strategies, and team play. 2 hours activity.

KIN 128A Softball (1)

Instruction in the skills, techniques, and rules of softball including offensive and defensive strategies, and team play. 2 hours activity.

KIN 129A Springboard Diving (1)

Techniques, skills, knowledge, safety, and competitive rules of springboard diving. 2 hours activity.

KIN 131A Tumbling and Trampoline (1)

Instruction on the fitness value of the activities of tumbling and trampoline. Application of basic principles of biomechanics. Participants will acquire the ability to perform beginning and intermediate stunts and will understand the components of health-related fitness. 2 hours activity.

KIN 133A Racquetball (1)

Instruction in fundamental skills, strategies, safety, and court etiquette for racquetball. Cardiovascular and muscular endurance conditioning, hand-eye motor fitness coordination. 2 hours activity.

KIN 136A Cross Country Skiing (1)

Basic techniques of cross country skiing, including skill development, conditioning activities, safety procedures, and selection and care of equipment. 2 hours activity.

KIN 145A Beginning Archery (1)

Instruction in the basic techniques, principles and skills involved in recreational and competitive archery including safety precautions, proper form, scoring, and history of the sport. 2 hours activity.

KIN 147A Beginning Badminton (1)

Development of an appreciation for recreational and competitive badminton. Basic strokes, shots, rules, and strategies for beginning singles and doubles play. 2 hours activity.

KIN 148A Advanced Badminton (1)

Development of consistency in stroke production, comprehensive understanding of the badminton rules, and knowledge of the basic principles of strategy during game play. 2 hours activity.

KIN 157A Beginning Golf (1)

Basic fundamentals of golf including swing, club selection, putting, etiquette, rules, history, equipment, and playing strategies. 2 hours activity.

KIN 158A Advanced Golf (1)

Advanced stroke practice, establishing handicaps, and tournament formats. Held at off-campus facility. Fee required. 2 hours activity. Prerequisite: KIN 157A.

KIN 159A Beginning Gymnastics (1)

Instruction on parallel bars, uneven parallel bars, vaulting, balance beam, and horizontal bars stressing beginning level movements. Emphasis on how components of health-related fitness are developed through these activities. History of gymnastics as it evolved from military training into a competitive sport. 2 hours activity.

KIN 161A Beginning Swimming (1)

Basic swimming and safety skills for non-swimmers. Orientation to the water, floating, front and back kicking, arm strokes, and rhythmic breathing. Safety skills include treading water, survival float, and general pool safety. 2 hours activity.

KIN 162A Advanced Swimming (1)

Emphasis on stroke development, breathing coordination, and the development of cardiorespiratory fitness. Strokes include elementary backstroke, breaststroke, butterfly, freestyle (crawl strokes), and selected prelifesaving strokes. 2 hours activity. Prerequisite: KIN 161A.

KIN 163A Beginning Volleyball (1)

Basic fundamentals of volleyball including the serve, passing, spiking, offensive and defensive strategies, rules, and team play. 2 hours activity.

KIN 164A Advanced Volleyball (1)

Advanced instruction and practice in serving, passing, digging, blocking, spiking, shoulder rolls, and diving. Emphasis placed on advanced offensive and defensive strategies and team play for participation at the tournament competition level. 2 hours activity. Prerequisite: KIN 163A.

KIN 165A Beginning Weight Training (1)

Instruction in basic concepts involving the muscular system and its function in weight training exercise. Includes skill development through use of weight-training exercises to develop muscular strength and muscular endurance. 2 hours activity.

KIN 166A Advanced Weight Training (1)

Advanced concepts involving the muscular system and its function in weight training exercise. Includes the use of free weights to develop muscular strength and muscular endurance. 2 hours activity. Prerequisite: KIN 165A.

KIN 167A Beginning Tennis (1)

Instruction and skill development in basic strokes including forehand and backhand drives, volley, and serve. Rules, scoring, and court etiquette. 2 hours activity.

KIN 168A Intermediate Tennis (1)

Instruction and stroke development for forehand and backhand drives, volleys, lobs, a variety of serves, and overhead strokes. Emphasis on topspin, backspin, and strategy at the intermediate level. 2 hours activity. Prerequisite: KIN 167A.

KIN 169A Advanced Tennis (1)

Introduction of advanced skills and stroke development for preparation toward participation at the tournament competition level. 2 hours activity. Prerequisite: KIN 168A.

KIN 172 Physical Activity for Healthier Living (1)

Integrated approach to healthy and active lifestyles, including fitness component assessment methods, goal-setting principles, health behaviors, and programming appropriate individualized activities which contribute to life-long health and wellness. 1 hour lecture discussion.

KIN 173A Fitness Activities for Healthier Living (1)

An optional activity to accompany KIN 172. Self-assessment, allowing for the application of knowledge and skills introduced in KIN 172. Participation in a variety of fitness activities designed to carry out lifestyle strategies for optimal fitness and health. 2 hours activity. Prerequisite: Previous or concurrent enrollment in KIN 172.

KIN 174A Sports Activities for Healthier Living (1)

An optional activity to accompany KIN 172. Self-assessment, allowing for the application of knowledge and skills introduced in KIN 172. Participation in a variety of sports activities designed to carry out lifestyle strategies for optimal fitness and health. 2 hours activity. Prerequisite: Previous or concurrent enrollment in KIN 172.

KIN 175A Aquatic Activities for Healthier Living (1)

An optional activity to accompany KIN 172. Self-assessment, allowing for the application of knowledge and skills introduced in KIN 172. Participation in a variety of aquatic activities designed to carry out lifestyle strategies for optimal fitness and health. 2 hours activity. Prerequisite: Previous or concurrent enrollment in KIN 172.

KIN 176A Recreational Activities for Healthier Living (1)

An optional activity to accompany KIN 172. Self-assessment, allowing for the application of knowledge and skills introduced in KIN 172. Participation in a variety of recreational activities designed to carry out lifestyle strategies for optimal fitness and health. 2 hours activity. Prerequisite: Previous or concurrent enrollment in KIN 172.

KIN 179A General Activity (1)

Instruction in a variety of activities for the development of skill, knowledge, and health-related fitness. 2 hours activity.

KIN 180 Professions in Kinesiology and Health Promotion (1)

Meaning, definition, history, role of, and job opportunities in physical education, exercise science and health promotion. Competencies and skills of the physical educator, exercise physiologist, and health promotion professional. 1 hour lecture/discussion.

KIN 181-195 Competitive Athletics (2)

May be taken by those students who compete on an intercollegiate athletic team and may be repeated for additional credit as long as normal academic progress is maintained.

- 181 Intercollegiate Basketball (Women)
- 182 Intercollegiate Baseball
- 183 Intercollegiate Basketball (Men)
- 184 Intercollegiate Soccer (Women)
- 185 Intercollegiate Cross Country (Men)
- 186 Intercollegiate Soccer (Men)
- 190 Intercollegiate Tennis (Men)
- 191 Intercollegiate Track and Field (Men)
- 192 Intercollegiate Volleyball (Women)
- 193 Intercollegiate Cross County (Women)
- 194 Intercollegiate Tennis (Women)
- 195 Intercollegiate Track and Field (Women)

KIN 200 Special Study for Lower Division Students (1-2)

Individual or group investigation, research, studies, or surveys of selected problems. Students will work with a Kinesiology faculty member. Total credit limited to 4 units, with a maximum of 2 units per quarter.

KIN 202A Cardiopulmonary Resuscitation (CPR) (1)

Introduction and orientation to basic life support: artificial ventilation and cardiopulmonary resuscitation. Meets State credential requirements and American Red Cross certification upon successful completion of course. 2 hours technical activity.

KIN/FN 203 Health, Nutrition and the Integrated Being (4)

Investigation of specific areas of the integrated being dealing with nutrition, stress, drugs, sexuality, major health problems and death and dying. Understanding their effect on "the integrated being" and the development of behaviors and actions that will promote optimum physical and mental health. Meets GE Area 3G requirement. Team-taught. 4 lecture discussions.

KIN 204/204A Field Work for Prospective Physical Education Teachers (1/2)

Observation and critical case study analysis of elementary and secondary physical education programs in preparation for student teaching experiences. Selected educational programs and teaching methodologies are analytically reviewed. 1 lecture/problem-solving, 4 hours workshop. Corequisites: KIN 204/204A.

KIN 205/205A First Aid (2/1)

Instruction in providing immediate and temporary care for victims of injuries, sudden illness and other medical emergencies using American Red Cross procedures. Cardiopulmonary resuscitation and removal of airway obstruction. Certification in CPR and first aid. 2 lecture discussions, 2 hours activity. Corequisites: KIN 205/205A.

KIN 206 Introduction to Adapted Physical Education (3)

Introduction to physical education for students with disabilities. Includes history, legal mandates, disabling conditions, program, adaptations and a full inclusion model. Observation of selected programs with a service-learning component. 3 hours lecture/problem-solving.

KIN 207 Personal Health (4)

Contemporary health and wellness issues individuals face daily. Study of mental, physical, spiritual, emotional, and social well-being; emphasis on the application of knowledge and skills to reduce risk and enhance quality of life. 4 hours lecture/discussion.

KIN 208/208A Introduction to Pedagogy Theory (2/2)

Introduction to kinesiology and the pedagogy option. Overview of teacher behaviors. Organizational and teaching strategies appropriate in physical education. Assessment and collection of personal skill data in the areas of health, fitness, motor skills, and technology. 2 hours lecture/discussion, 4 hours activity. Corequisites: KIN 208/208A

KIN 209 Critical Perspectives in Kinesiology (3)

Critically examine contemporary issues in sport, health, exercise and physical activity. Emphasis on a cross-disciplinary perspective that includes sociological, psychological, historical and philosophical orientations of critical analysis. 3 hours lecture/discussion.

KIN 210 History of Physical Education and Sport (4)

Discussion of physical education and sport from earliest times to the present; concentration on political, religious, and social bases of societies and the effect of these beliefs on the physical education/sport of each culture. Emphasis on the United States. 4 lecture discussions.

KIN 231/231A Basic Scuba (2/2)

Use of scuba apparatus and its application as an adjunct to marine studies. Includes concepts of diving medicine, physics, oceanography and its scientific application. Leads to basic diver open water certification. Must pass swim test. 2 lectures/problem-solving, 4 hours technical activity. Corequisites: KIN 231/231A.

KIN 232/232A Scuba Environment Specialty (1/1)

Introduction to diving environments outside Southern California. Includes on-site investigation of marine ecological changes along the Northern California and Mexican coasts. Scientific application of gas laws, principles and effects of underwater pressure on metabolism. 1 lecture/problem-solving. 2 hours technical activity. Corequisites: KIN 232/232A. Prerequisites: basic open water scuba certification, completion of CSU diving registration requirements, permission of instructor. Recommended that BIO 330/330L be taken concurrently.

KIN 233/233A Intermediate Scuba (1/1)

Continuation of KIN 231/231A Basic Scuba. Application of scuba as an adjunct tool for marine studies or recreational use in open water. Must pass swim test. 1 hour discussion, 2 hours activity. Prerequisites: Basic open water scuba certification; must meet CSU diving standards and registration requirements; current physical exam. KIN 231/231A. Corequisites: KIN 233/233A.

KIN 235/235A Water Safety Instructor, Life Saving, and CPR (2/2)

Study and practice of water safety instruction, life saving techniques, cardiopulmonary resuscitation, beach and pool lifeguard techniques. Includes skin diving and use of safety floatation devices. Minimum skill and knowledge in these activities required. 2 hours lecture, 4 hours activity. Corequisites: KIN 235/235A. Prerequisite: Must pass a swim test.

KIN 250/250A Teaching Team Court Sports (2/1):

Principles, methods, strategies and practices for teaching team court sports in a school setting. 2 hours lecture; 2 hours activity. Prerequisites: KIN 208/A. Corequisite: KIN 250A.

KIN 251/251A Teaching Outdoor/Adventure Education (1/1)

Understanding and application of educational theories and philosophies as well as technical, interpersonal, and group skills needed for integrating and implementing outdoor and adventure activities into a school program. Prerequisite: KIN 208/A. Corequisite: KIN 251/A. 1 hour lecture; 2 hours activity.

KIN 252/252A Teaching Team Field Sports (2/1)

Principles, methods, strategies and practices for teaching team field sports in a school setting. 2 hours lecture; 2 hours activity. Prerequisites: KIN 208/A. Corequisite: KIN 252A.

KIN 253/253A Teaching Individual Sports and Activities (2/1)

Activities and teaching strategies necessary for integrating and implementing individual sports and activities into a school physical education program. 2 hours lecture, 2 hours activity. Co-requisite: KIN 253/253A. Prerequisite: KIN 208/208A.

KIN 262/262A Teaching Racquet Activities (1/1)

Skills, knowledge, strategies and psycho-social concepts of tennis, paddle tennis, racquetball, and badminton for beginner to intermediate skill levels. Identification of common skill errors and corrections. Drills, lead-up games, modified games, and regulation game play. Assessment and evaluation protocols. 1 hour lecture/problem-solving, 2 hours educational workshop. Prerequisite: KIN 208/208A. Corequisites: KIN 262/262A.

KIN 264/264A Teaching Aquatics (1/1)

Beginner to advanced swimming skills including analysis and knowledge. Assessment and evaluation methods. Identification of common errors. Deep and shallow water fitness methods and activities for fitness and physical activity. 1 hour lecture; 2 hours activity. Prerequisite: KIN 208/A. Corequisite: KIN 264A.

KIN 266/266A Track and Field Theory for Teachers (1/1)

Track and field skills, knowledge, and strategies for beginner to intermediate level. Identification of common errors and corrections. Drills and lead-up activities. Assessment and evaluation protocols. 1 hour lecture/problem solving, 2 hours educational workshop. Prerequisite: KIN 208/208A. Corequisites: KIN 266/266A.

KIN 268/268A Teaching Fitness Activities (1/1)

Strategies for teaching health related fitness concepts in the schools. Health related fitness component descriptions, student management methods, assessment, fitness routine design/implementation, goal setting, and current trends. 1 hours lecture; 2 hours activity. Prerequisites: KIN 208/A. Corequisite: 268A.

KIN 299/299A/299L Special Topics for Lower Division Students (1-4)

Group study of a selected topic, the title to be specified in advance. Total credit limited to 8 units, with a maximum of 4 units per quarter. Corequisites may be required. Instruction is by lecture, laboratory, or a combination.

KIN 301 Foundations of Exercise Science (4)

Scientific aspects of exercise science; biological systems associated with human performance and function; mathematical determinants of energy expenditure; nutrition in sport and weight control; physiological function in extreme environments; applications of technology to exercise; performance enhancing aids; exercise and disease. 4 hours lecture. Prerequisites: One course from each of the following Sub-areas: A1, A2, A3 and B1, B2, and B3. GE Synthesis course for Sub-area B4.

KIN 303/303L Physiology of Exercise (3/1)

Aerobic and anaerobic energy sources for muscular activity, physiology of muscle contraction, strength and endurance, nervous system control of muscular activity. Pulmonary and circulatory physiology; gas exchange and transport. Body composition and weight control. 3 hours lecture/discussion, 3 hours technical laboratory. Prerequisites: ZOO 235/L. Corequisite: KIN 303L.

KIN 304/304L Principles of Kinesiological Analysis (3/1)

Examine the interaction between the person and environment during movement from biomechanical and anatomical perspectives. Focus will be on the observation, description, and analysis of movement. 3 hours lecture/problem solving, 3 hours laboratory. Prerequisite: ZOO 234/L; STA 120. Corequisite: KIN 304L.

KIN 307/307A The School and Sex Education (3/1)

Development and conduct of sex education in the public schools; factors in human growth and sexuality; decision-making, family health problems, parenthood, and family planning. 3 lecture discussions, 2 hours activity. Corequisites: KIN 307/307A.

KIN 308 Drug Education (4)

Prescription, over-the-counter, and illegal drug use in contemporary society; social, cultural, political, and economic impact of drug use. Prevention and treatment of addiction. 4 hours lecture/discussion.

KIN 310 Philosophy of Physical Education and Sport (3)

The nature, significance, and development of sport and physical education and their place in human society as related to the major philosophical systems. 3 hours lecture.

KIN 312/312A Life Span Motor Development (3/1)

Growth and physical development from fetal development through adulthood with emphasis on changing motor abilities. Examination of motor development through case studies, cross-sectional and longitudinal descriptive research. 3 hours lecture/problem solving and 2 hours of activity. Corequisite: KIN 312A.

KIN 328/328A Elementary Physical Education (2/1)

Analysis of the instructional processes in teaching elementary physical education as well as development of a comprehensive curriculum. Basic skill movements used in developmental games, gymnastics, and rhythms. 2 lecture discussions, 2 hours educational workshop. Corequisites: KIN 328/328A.

KIN 341A, 342A, 343A Teaching Practicum (1)(1)(1)

Student obtains teaching experience by assisting a faculty member with various duties and responsibilities involved in the teaching of a class. 2 hours activity.

KIN 355/355A Adapted Aquatics (2/1)

Theory and practical aspects of teaching swimming and water related activities to special populations. Movement exploration principles/mechanics, self-adaptations, facility and equipment aids, administrative considerations, and research. Must pass swim test. 2 lectures, 2 hours activity. Prerequisite: KIN 206. Corequisites: KIN 355/355A.

KIN 363 Psychological Aspects of Physical Activity and Sport (4)

Examination of health psychology, social psychology, and intervention and performance enhancement techniques. Topics include personality, attention, arousal, motivation, aggression, intervention and psychological well-being, exercise adherence, and various intervention techniques. 4 lectures/problem-solving.

KIN 365 Science of Physical Aging (4)

Physical development and aging. Interaction of physical function with genetic, lifestyle and cultural factors. Case studies, cross-sectional, and longitudinal research. 4 lecture/discussions. Prerequisites: completion

of Area A and Sub-areas B1, B2, and B3. GE Synthesis course for Sub-area B4.

KIN 370 Stress Management for Healthy Living (4)

A holistic approach to stress management; preventing and/or alleviating physical symptoms of stress; exploration of the mind/body connection. GE Synthesis course for Sub-area B4. 4 hours lecture/discussion. Prerequisite: Upper division standing.

KIN 375/375A Computer Applications in Kinesiology (2/2)

Hands-on experience with software related to kinesiology that can facilitate professional effectiveness. May be taken a second time for elective credit. 2 lectures/problem-solving, 4 hours technical activity. Corequisites: KIN 375/375A.

KIN 379/379A Advanced Scuba Techniques (2/2)

Advanced knowledge and skills required for use of scuba in studying the marine environment. Continuation of study in diving medicine, physics and oceanography; scientific methods for marine study. 2 lecture discussions, 4 hours technical activity involving field work. Prerequisites: KIN 233/233A. Corequisites: KIN 379/379A.

KIN 380 Consumer Health

Evaluation of health misinformation and quackery pertaining to fitness and nutrition, major health problems, and other health-related products and services. Discussion of dynamics of the health marketplace, health care approaches, and protection of the consumer. 4 hours lecture/discussion.

KIN 400 Special Study for Upper Division Students (1-2)

Individual or group investigation, research, studies, or surveys of selected problems. Students will work with a Kinesiology faculty member. Total credit limited to 4 units, with a maximum of 2 units per quarter. Prerequisite: upper division standing or consent of instructor.

KIN 401/401A Motor Assessment for Individuals with Disabilities (3/1)

General motor assessment strategies for disabled populations. Emphasis on descriptive and limiting performance tests. Matching data to program development. 3 lectures, 2 hours activity. Prerequisite: STA 120, KIN 206, or graduate standing. Corequisites: KIN 401/401A.

KIN 402/402L Biomechanical Kinesiology (3/1)

Introduction to biomechanical analysis of human movement in sport, daily living, work and leisure. Use of mechanical principles to describe and analyze human performance. Examination and student presentations of selected activities. 3 hours lecture/discussion, 3 hours technical lab. Prerequisite: STA 120, KIN 304/304L. Corequisites: KIN 402/402L.

KIN 403/403L Physiology of Exercise II (3/1)

Exercise and performance and their interrelationships with nutrition, environmental conditions, endocrine system, health, aging and gender. Regulation of acid/base balance. 3 hours lecture/discussion, 3 hours technical laboratory. Prerequisite: KIN 303/303L. Corequisites: KIN 403/403L.

KIN 404/404A Teaching Rhythms and Dance (2/1)

Designing dance and rhythmic programs basic to development of movement patterns for instruction of all students. Analysis and demonstration of dance for K-12 public school instruction. Meets state requirements for adapted physical education credential. 2 hours lectures, 2 hours activity. Prerequisite: KIN 328/A. Corequisite: KIN 404/A.

KIN 405/405A Adapted Physical Education Fieldwork (2/1)

Supervised clinical experience in adapted physical education at Cal Poly Pomona's Motor Development Clinic. May be repeated for a total of 9 units. 2 hours clinical processes, 2 hours educational workshop. Prerequisites: KIN 206 or graduate standing. Corequisites: KIN 405/405A.

KIN 406/406A Physical Education for Physically and Other Health Impaired (3/1)

Techniques for developing and implementing physical education programs for physically and other health-impaired individuals, e.g. orthopedic, sensory, and other health impaired. 3 hours lecture, 2 hours activity. Prerequisite: KIN 206 or graduate standing. Corequisite: KIN 406A.

KIN 410/410A Physical Education for Individuals with Severe Disabilities (3/1)

Techniques for developing/implementing physical education programs for individuals with severe disabilities, e.g., mentally, physically, and emotionally-disturbed populations. 3 hours lecture, 2 hours activity. Prerequisite: KIN 206 or graduate standing. Corequisite: KIN 410A.

KIN 412/412A Anatomical Kinesiology (3/1)

Role of skeletal, muscular and nervous systems in creating human movement; specifically muscle attachments, capabilities, and evaluation; analysis of specific physical activities. 3 hours lecture/ discussion, 2 hours activity. Prerequisite: KIN 304/L. Corequisite: KIN 412A.

KIN 414/414A Movement Analysis (2/1)

Applied approach to observation and analysis of sport and motor skills. Practical hands-on experience will also be required with various ages and abilities of students. 2 lecture discussions, 2 hours educational workshop. Prerequisite: KIN 402. Corequisites: KIN 414/414A.

KIN 415/415A Teaching Innovative Activities (2/1)

Strategies for teaching innovative activities in the school setting. Current innovative or non-traditional activities. Appropriate use of games in physical education. Classroom management techniques. Adapting activities for K-12 students. 2 hours lecture; 2 hours activity. Prerequisite: KIN 328/A. Corequisite: KIN 415A.

KIN 416/416A Gymnastics and Self-Defense (2/1)

Designed for prospective teachers interested in elementary and secondary physical education. Use of gymnastics and basic self-defense to promote movement ability of children/adolescents. 2 lecture discussions, 2 hours activity. Prerequisite: KIN 328/A. Corequisite: KIN 416/A.

KIN 420 Management Principles in Kinesiology and Sport (4)

Study of the underlying philosophy and principles of administrative theory and practice. Legal aspects and safety policies for physical education and sport programs. 4 lecture presentations. Prerequisites: upper division standing.

KIN 425/425A Tests and Measurements in Physical Education (3/1)

Techniques and principles involved in assessing human performance and health-related knowledge, behaviors, and attitudes including creating surveys, organizing, analyzing, presenting, and interpreting data from a diverse population throughout the life span. 3 hours lecture/problem-solving, 2 hours technical activity. Corequisite: KIN 425A. Prerequisites: KIN 375/A, STA 120.

KIN 428 Sports Psychology (4)

Contemporary sport as it affects personality, mental fitness, mental health and behavior of the individual. Relationship of biological, neurological, and social factors to the psychology of human performance in a sport setting. 4 lecture discussions.

KIN 430/430L Motor Learning and Human Performance (3/1)

Student analysis of the perceptual and sensory systems involved in neuromuscular performance. Laboratory demonstration of the role of kinesthesia, reaction time, and strength in neuro-motor coordination and motor learning; transfer factors affecting motor performance. 3 lectures/problem-solving, 3 hours technical laboratory. Prerequisites: STA 120, KIN 303/303L. Corequisites: KIN 430/430L.

KIN 440 Physical Education Curriculum (4)

Principles and foundations of curriculum design to meet the dimensional and individual needs of learners. Development of competencies for designing curriculum materials in multicultural school communities. 4 hours lecture/problem-solving. Prerequisite: KIN 204/204A.

KIN 441 Elementary School Health Education (3)

Methods, processes, and content used in the elementary schools, including middle schools, for teaching health and for dealing with health-related problems. Satisfies the health education requirement for the California Multiple Subject Credential. 3 lectures/problem-solving. Prerequisite: upper division standing.

KIN 442 Secondary School Health Education (3)

Methods, processes, and content used in secondary and middle schools for teaching health and dealing with health-related problems. Satisfies the health education requirement for the California Single Subject Credential. 3 hours lecture/problem-solving. Prerequisite: upper division standing.

KIN 448 Modern Olympic Games (4)

International perspectives of the modern Olympic Games from 1896 to present. 4 lecture discussions.

KIN 449 Play, Games and Sport in Culture (4)

Interdisciplinary approaches to the analysis of play, games and sport. Critical analysis of the motives, sources and behavior associated with play and sport. An examination of the variations among and within cultures from sociological, anthropological and neuro-psychological perspectives. 4 lecture discussions.

KIN 450 Role of Sport in Contemporary Society (4)

Contemporary athletics, sports, and physical activity as they affect the individual's socio-cultural development and value system; interrelationship with other aspects of American culture. 4 hours lecture discussion.

KIN 451 Social Inequality and Sport (4)

Social inequality is investigated, using sport as an institutional example. Social science theories of inequality are applied to the empirical example of sport. Explanations for inequality, critiques, and possibilities for change are examined within the microcosm of the sports world. 4 lectures. Prerequisites: Completion of Area A and sub-areas D1, D2, and D3. (Also listed as SOC 451). GE Synthesis course for Sub-area D4.

KIN 453 Principles of Health/Fitness Programs (3)

Theoretical basis and techniques of developing and implementing adult fitness programs. Components of adult fitness; fitness as a lifestyle; industrial and community-based programs and fitness programs for the cardiac patient. Student presentations required. 3 hours lecture presentation.

KIN 455 Sports Medicine (4)

Current topics in sports medicine as they affect human performance including ergogenic aids; age and sport performance; overtraining; sports anemia; blood doping; and other selected contemporary topics. Student presentations required. 4 hours lecture presentation. Prerequisite: KIN 303/303L.

KIN 456 Exercise Metabolism and Weight Control (3)

Overview of weight control and health. Metabolism, energy balance equation, and role of diet and exercise in preventing/treating obesity. Methods for assessing body composition. Eating disorders. Behavior modification, surgical intervention and other methods of dealing with mild to severe obesity. 3 hours lecture discussion. Prerequisites: KIN 303/303L and FN 205 or FN 235 and FN 236L or FN 305.

KIN 458/458A Exercise Physiology Fieldwork (1/2)

Instruction and practice in the use of exercise physiology laboratory equipment and administration of various laboratory tests, including aerobic and anaerobic power, muscular strength and endurance, electrocardiograms, blood pressure, body composition, pulmonary function, flexibility, and anthropometry. 1 hour clinical processes, 4 hours educational workshop. Prerequisites: KIN 303/303L. Corequisites: KIN 458/458A.

KIN 459 Health/Fitness Instructor (3)

Knowledge and competencies related to working with apparently healthy populations in a variety of health/fitness settings. Information specifically pertaining to the Health/Fitness Instructor Certification of the American College of Sports Medicine. 3 hours lecture/problem-solving. Prerequisite: KIN 303/303L.

KIN 461, 462 Senior Project (2) (2)

Selection and completion of a project under faculty supervision. Topics are typical of problems which may confront graduates in future employment or graduate study. Formal report may be required depending on project. Minimum of 120 hours total time. Prerequisite: senior standing.

KIN 463 Senior Seminar (4)

Issues, practices, and trends in the profession. Other material relevant to graduating seniors. 4 seminars. Prerequisite: senior standing.

KIN 469 History of Women in Sport (4)

Women's role in sport from ancient Egypt and Greece to present. Includes individual athlete's and women's contributions to the growth and development of sport. 4 lectures.

KIN 470/470L Electrocardiography in Health and Exercise (3/1)

Theoretical and practical techniques for analyzing and recognizing normal and abnormal electrocardiography (ECG). Understanding of ECG through an appreciation of the mechanisms of cardiac activation in health and exercise. 3 hours lecture, 3 hours laboratory. Prerequisite: KIN 303/L. Corequisite: KIN 470/L.

KIN 479/479A Health Needs Assessment (3/1)

Knowledge and competencies related to assessing individual and community needs and interests pertaining to health education and health promotion. Surveys, observation, interviewing, group participation, methods, technology-supported assessments, and self-directed assessments. 3 hours lecture, 2 hours activity. Prerequisite: upper division standing.

KIN 480/480A Health Program Planning and Evaluation (3/1)

Knowledge and competencies related to conducting health-related needs assessments, developing and implementing intervention programs, and conducting evaluations. Information specifically pertaining to health promotion in the worksite, community, and clinical settings. 3 hours lecture, 2 hours activity. Prerequisite: KIN 207

KIN 498 Professional Organizations in Physical Education Seminar (1)

Analysis of professional organizations in the physical education field. Includes attendance at state or national level conferences. 1 seminar.

KIN 499/499A/499L Special Topics for Upper Division Students (1-4)

Group study of a selected topic, the title to be specified in advance. Total credit limited to 8 units, with a maximum of 4 units per quarter. Instruction is by lecture, laboratory, or a combination.

Graduate courses are listed in the "Graduate Studies" section of this catalog.

MUSIC

<<http://www.class.csupomona.edu/mu>>

Iris S. Levine, Chair

Susan M. Burns	Janine Riveire
Stanley Gibb	Arthur Winer
David Grasmick	Peter Yates
David Kopplin	

The department offers a variety of coursework in academic and performance aspects of music that leads to a bachelor of arts degree. Courses are offered for the major and minor as well as for students with majors in other disciplines. The minor is designed for students in other disciplines who desire further experience in and knowledge of music. See department office for required course work in the minor.

The major in music provides the foundation for succeeding in music industry, teaching, and performance careers. The student must select one of four emphases: Music Industry Studies, Music Education, Performance, or Interdisciplinary Studies in Music. Students in the Music Industry Studies or Performance emphases must also choose a sub-area. Music Industry Studies Emphasis has sub-areas of music business, music production, or music recording/technology. Performance Emphasis has sub-areas in guitar, keyboard, selected instruments, voice, commercial music, or music theatre.

CORE COURSES FOR MAJOR

Required of all students. A cumulative GPA in core and required courses must be 2.0 or higher in order to receive a degree in the major.

The Philosophy Department has organized its programs to connect the traditional concerns of philosophy with the directions and needs of contemporary society. Philosophy instruction enhances students' knowledge of significant intellectual movements and figures, strengthens students' critical thinking skills, and provides students with a strong background in the humanities and traditional liberal arts. The Department offers both major and minor programs. Emphases within the major are designed to promote interdisciplinary inquiry and to integrate philosophical study with practical endeavors.

The Law and Society Emphasis allows students to concentrate on courses exploring current social and ethical issues. The study of moral and political philosophy, especially, equips students with the tools needed to analyze legal or moral concepts and arguments, and to work toward reasonable solutions to societal problems. This emphasis offers excellent preparation for those planning careers in law, business, education, urban planning, and human services, or those planning graduate work in philosophy.

The Science, Technology, and Society Emphasis is designed for those who seek to understand the methodological, historical, and philosophical background of contemporary science and technology. This emphasis is especially useful for those planning further study in the physical, cognitive, behavioral, or biological sciences, environmental studies, medicine, biotechnology, computer science, veterinary science, or philosophy.

The Philosophy Department also offers minors in Philosophy and Religious Studies. The Philosophy minor enables students majoring in other disciplines to gain critical depth into the differing perspectives, assumptions, and values behind their primary discipline. The flexibility of the minor makes it adaptable to a variety of specific vocational and professional interests.

The Religious Studies minor serves students interested in deepening their awareness of the historical and multicultural dimensions of religious traditions as these affect the contemporary world.

The political science program is designed to provide students with the opportunity to acquire the kind of broad and rigorous education needed for life in the 21st century. The best career and life preparation is one which produces individuals who are both educated in the finest traditions of learning and equipped to adapt to constant and rapid change.

The department offers courses leading to the degree of Bachelor of Arts in Political Science. There are five required courses that all majors must complete which are designed to give students an overview of the discipline and its subfields. Students are then able to select from a large number of units of political science electives in order to ensure flexibility and permit students to tailor their curricula to individual interests, needs, and career goals. For students in majors other than political science, the department offers a minor in political science.

Students majoring in political science who have a GPA of at least 3.0 overall and 3.3 in the major have the opportunity to join Pi Sigma Alpha, the national honorary society in political science. Additional information can be obtained from the Department of Political Science.

Psychology is an academic discipline that attempts to enable its students to better understand human behavior. The Psychology degree program, which is housed in the Department of Psychology and Sociology, is designed to provide a comprehensive undergraduate education in this field, leading to the Bachelor of Arts degree. The student will receive a broad exposure to developmental, social, cognitive, clinical, and physiological areas of Psychology, as well as specific training in research methodology and statistics. Original student research is also fostered and encouraged during the undergraduate experience. The program is intended primarily as an excellent foundation for entrance to graduate school in any area of psychology, but also provides a good background in the science of human behavior for students seeking careers in management in public and private sectors, or seeking an undergraduate major in this area for a variety of other reasons.

For this major, the high school student should have a broad background in the natural and social sciences, English, and mathematics.

The department offers a Master of Science degree in psychology designed to prepare students for licensure in the field of Marriage and Family Therapy (MFT). Requirements for this program are found in the "Graduate Studies" section of this catalog.

Since Behavioral Science is an interdisciplinary major drawn from Psychology and Sociology, students may not double major in Psychology and Behavioral Science.

Students majoring in Psychology or Behavioral Science who have a GPA of at least 3.0 overall have the opportunity to join Psi Chi, the National Honor Society in Psychology. For additional information contact the department office.

PHYSIOLOGY MINOR

The Physiology Minor is an interdisciplinary program that can be elected by students majoring in any field. Its purpose is to improve the training and advising of students in order to facilitate their pursuit of careers in biomedical fields utilizing a knowledge of Physiology. It is particularly appropriate for students majoring in Psychology.

A full description of the minor is located in the "University Programs" section of this catalog.

SOCIAL SCIENCES

<<http://www.class.csupomona.edu/ga>>

One of the three majors offered in the department of Geography and Anthropology is Social Sciences. For other programs in the department see Anthropology and Geography.

Richard S. Hyslop, Chair, Department of Geography and Anthropology

Mark Allen	Harold F. Turnbull
Sara A. Garver	Dorothy D. Wills
David G. Lord	Lin Wu
Michael Reibel	Terence Young

The social sciences examine all aspects of human existence, from human origins to the latest election returns. In keeping with that tradition, the Department of Geography and Anthropology offers a flexible program leading to a Bachelor of Science degree in social sciences with opportunities for majors to concentrate in one or more of the social science disciplines: anthropology, economics, geography, history, political science, psychology, and sociology. It also provides future teachers with a pre-credential waiver track.

The department curriculum, multidisciplinary in nature, is especially suitable for students with broad and varied interests who understand that a liberal education is often the best background for many types of careers. An important departmental goal for each student, therefore, is to encourage the development of his or her personal and career objectives while maintaining the breadth of understanding and flexibility necessary to succeed in any of a variety of professions -- from government service, to business, industry, teaching, or international development.

Many graduates with a degree in Social Sciences continue on to graduate school in programs such as anthropology, sociology, psychology, economics, geography, history, law, political science or education. In some instances, postgraduate work is pursued after a few years of employment in an occupational field related to one of these specialized areas. Many students choose the Social Sciences major and then, after graduation, proceed to get a teaching credential. A recent trend noted by the U.S. Department of Labor is that private industry is hiring an increasing number of social science majors as trainees for administrative and executive positions. Research councils and other nonprofit organizations also provide a source of employment for social scientists. Teaching in colleges and universities and in the high schools is projected to remain the major area of employment for social scientists with advanced degrees or credentials.

Because of the interdisciplinary nature of the Department of Geography and Anthropology, students may in some cases select both a major and a minor from within the department. For example, a student may major in Social Sciences and minor in Anthropology. Details on other possible combinations are available from the department office.

CORE COURSES FOR MAJOR

The Sociology major, which is housed in the Department of Psychology and Sociology, is designed to provide a substantial foundation in theoretical, methodological, and content areas of sociology, leading to the Bachelor of Arts degree. In addition to a solid introduction to these content areas, students receive specific training in survey research and statistical analysis, and in the many practical applications of sociological theory. The Sociology major has three options: Criminology, Social Work, and General Sociology. The major is an excellent preparation for graduate study in Sociology, or Public Administration, and for professional studies in law, social work, or criminology. It also provides a very good background for entry level positions in management, in both public and private sectors.

For this major, the high school student should have a broad background in college preparation courses in natural and social sciences, English, and mathematics.

The department also offers minors in Psychology, Sociology, and Criminal Justice. The Psychology and Sociology minors are not open to students with a major in Behavioral Science, but the Criminal Justice minor may be taken by students in any of our majors, except students in the Criminology option. This program is a multidisciplinary grouping of courses which have been specifically selected to fulfill the needs of students presently working in or planning for careers in law enforcement or corrections. Courses required in the minor and certificate program are listed under the Behavioral Science major. Special advisement for students in any major who are interested in criminal justice or probation may be obtained from the department's Criminal Justice coordinator. Detailed information is available from the department office.

Since Behavioral Science is an interdisciplinary major drawn from Psychology and Sociology, students may not double major in Sociology and Behavioral Sciences.

Sociology majors are invited to participate in a chapter of Alpha Kappa Delta, the National Honor Society in Sociology.

THEATRE

The Cal Poly Pomona Department of Theatre awards an undergraduate degree in theatre, which emphasizes production, and experience in the "doing" of theatre. At the same time, the Department offers courses in all aspects of the theatre, both artistic and academic. The program stresses concern for students as artists and individuals. Faculty, staff and students work closely together to build a solid foundation of knowledge of both the practical and artistic aspects of theatre for the student.

Four options are offered. The first, the general option enables students to develop a broad theatre curriculum with primary interests in: directing, playwriting, management, or theory and criticism in order to create a course of study that best suits their goals. The second, the acting option, is for the student whose primary interest is in acting for the stage. The third, the design and technical theatre option, is for students with an interest in the theatrical design areas of: scenery, lighting, costumes, makeup or sound; or in the technical areas such as scenic or costume construction, production management, or technical direction. The fourth option is dance for students interested in a general background in theatre with a specific performance interest in dance.

The Department presents a wide variety of productions to give the student a broad spectrum of experiences. Main stage productions range from dramas to musicals, from realism to varied theatrical styles, from premieres of new plays to presentations of classics by Shakespeare, Shaw, Moliere and Tennessee Williams. Students participate on main stage not only as actors and dancers, but also as designers and participants in all the many technical aspects.

In addition to the main stage season, the Department of Theatre also offers an opportunity for experimentation in a program of workshops and projects presented in the smaller studio theater, where student involvement is strongly encouraged and supported. All productions draw audiences from the university and the community, and contribute greatly to their cultural climates.

In the classroom, students receive intensive training in acting (a series of at least nine acting courses are offered), voice, directing, stagecraft, makeup, stage lighting, costume and scenic design, playwriting, and theater management.

Coursework also includes theatre history and criticism, dramatic structure and dramatic literature, to provide intellectual and academic skills, which work hand-in-hand with artistic skills.

After completing the theatre major at Cal Poly Pomona, students are prepared for advanced training in graduate schools; to go into teaching in high schools; or to begin their careers or specialized training in professional theatre, television or film.

The theatre minor is designed to acquaint a person interested in pursuing theatre on a limited scale with the basic tools for mounting a production, whether in a school or a community theatre situation. It also accommodates those who wish to begin a specialization in the acting-directing or the technical track. The program is one of both classroom participation and practical experience in the production program. Special advisement for students who are interested in theatre may be obtained from the department chair. Detailed information is available from the departmental office.

INSTITUTE OF NEW DANCE AND CULTURES

<<http://www.class.csupomona.edu/dan/dance.htm>>

Gayle Fekete, Director

Ann Stabilepszy

The Institute's vision is to reflect a culturally diverse and artistically inclusive student-centered approach to the dance experience at Cal Poly Pomona. "New Dance and Cultures" refers to a humanistic, cross-cultural, interdisciplinary approach to the study of the way art functions in society on a personal, local, national, and global level. "Dance" is defined to include human movement and aesthetic expression, movement-based interdisciplinary work, and western and non-western cultural forms.

The Institute supports a variety of campus/community projects, invites innovative collaborations across groups and disciplines, and promotes the development of community engagement projects that reflect the diverse and dynamic cultural climate.

The mission of the Institute is to continue to provide quality dance courses and experiences for the general student population, with an emphasis on common humanistic threads of art and expression found across cultures. By addressing the complexity of contemporary multicultural society through the examination of cultural issues, global perspectives, and personal histories, the Institute is committed to developing student-centered study. The Institute of New Dance and Cultures validates the cultural experience and world view of a broad cross-section of perspectives.

Student choreography and performance are showcased in the student/faculty dance concert. Other opportunities for informal works occur year-round in the Institute's studio and campus wide. Internships, independent study, cross-listed course proposals, community-based projects, and outreach, are some of the ways in which students can explore a variety of learning experiences not traditionally available.
