

CALIFORNIA STATE POLYTECHNIC UNIVERSITY, POMONA

UNIVERSITY ADMINISTRATION

Bob H. Suzuki, President

Peter A. Dual, Vice President for Academic Affairs

Gene I. Awakuni, Vice President for Student Affairs and University Advancement

Patricia L. Farris, Vice President for Administrative Affairs

Edward C. Hohmann, Interim Vice President for Instructional and Information Technology

UNIVERSITY MISSION STATEMENT

California State Polytechnic University, Pomona, is a comprehensive university with a polytechnic emphasis in the application of science, technology, and the arts to the needs of the professions and society. By linking the theoretical and the practical in all areas of study, the University aims to generate the understanding, attitudes, and perspectives that will enable students and graduates to solve complex problems and enrich local and world communities. Cal Poly Pomona is dedicated to advancing knowledge and learning and to preparing students for life, leadership, and careers in a changing, multicultural world. Through its programs and services, the University promotes academic excellence, educational equity, diversity in the campus community, and an understanding and appreciation of different cultures; it creates an environment that supports the intellectual, personal, and professional development of each individual.

UNIVERSITY GOALS

The Strategic Planning Task Force identified six major University goals. These goals were ranked in priority order by the Task Force and are listed in this order below, starting with the highest priority goal.

Goal 1. To promote excellence in teaching and educational programs.

Inasmuch as Cal Poly Pomona's primary mission is teaching, efforts must be continued to improve teaching effectiveness and curricula, and to place increasing emphasis on conducting research on the teaching and learning process. These efforts should be aimed at helping all students in our increasingly diverse student body to succeed academically. Through the activities of the Faculty Center for Professional Development and the increasing involvement of faculty, Cal Poly Pomona has the opportunity to develop a national reputation as an institution in the forefront of improving and reforming undergraduate education. Indeed, one can envision the day when Cal Poly Pomona can proudly proclaim that it knows more about effective teaching than any institution in the country and offers an education the quality of which is second to none.

Master's degree programs must also be rethought. Too often, research institutions are allowed to set the standards for these programs. Yet, research institutions tend not to value such programs, assigning them low priority and using them as a screening device for the selection of doctoral candidates. Instead of taking its lead from these institutions, the University should be in the forefront of defining unique, high quality master's degree programs that are able to meet the needs of students and society and, therefore, valuable in themselves.

Goal 2. To enhance resource planning, development, and management.

As the University moves into an era in which State resources are likely to continue to be scarce, among its highest priorities should be to become more creative and entrepreneurial in finding ways of generating

supplementary income from non-State sources and to upgrade its infrastructure and streamline its administrative processes in order to use and manage resources more effectively and efficiently. Major investments and efforts must be made in these areas if the University wishes to accomplish its goals, continue to advance as an institution, and achieve the level of distinctive excellence to which it aspires.

Goal 3. To promote and enhance research, scholarly, professional, and creative activity.

In order to maintain the faculty members intellectual vitality, enrich and enhance their teaching, and enable them to contribute to solving societal problems, the University must support the research, scholarly, professional, and creative activities of the faculty and create a more supportive environment for such activities. These activities may take many forms, including basic research, applied research, synthesis from existing research, artistic creations, and presentation of papers at professional meetings. They should also include research in the teaching and learning process and the development of innovative curriculum and of new, more effective approaches to teaching. As a way of greatly enriching their education, students, both undergraduate and graduate, should also be provided with opportunities to engage in such activities.

Goal 4. To enhance supportive services for students.

As society becomes more complex and the student population more diverse, the University must provide a wide array of supportive services that will ensure the academic, social and personal development of each student. These services should be provided with the view that students are the University's highest priority and that every effort will be made to serve them as effectively as possible.

Goal 5. To develop a collegial campus environment and to support the sense of a university community.

Cal Poly Pomona must strive to maintain an open, democratic community through the participation of faculty, staff, and students in the governance of the University and through an empowering approach to management. A greater sense of community must also be promoted by improving communication on campus and by developing a campus climate in which everyone feels welcome and comfortable.

Goal 6. To involve the University in the broader community.

The University must bring its considerable human and material resources to bear in helping the broader community solve pressing societal problems in such areas as urban renewal, economic development, and environmental improvement. As the world becomes increasingly interdependent, the University must also address itself to global issues through its international activities and programs.

HISTORICAL DEVELOPMENT

In 1966, the California Legislature established California State Polytechnic College, Kellogg-Voorhis, as an independent state college. Thus ended almost three decades of direct legal and administrative relationship between this institution and its parent institution, Cal Poly, San Luis Obispo.

In the last 50 years, Cal Poly Pomona's expansive campus has grown from its humble beginnings as a horse ranch to a university with over 16,803 students and 2,200 faculty and staff members. Three men played a vital role in this remarkable transformation: W. K. Kellogg, Charles B. Voorhis, and Julian McPhee.

W. K. Kellogg Develops Arabian Horse Ranch

W. K. Kellogg, known for his famous “corn flakes,” had a life-long passion for Arabian horses. After purchasing 377 acres at a cost of \$25,000, Kellogg developed the land into a world-renowned Arabian horse ranch. The first building erected contained the horse stables. Now renamed the Union Plaza, Kellogg affectionately called the hacienda-style building his “Arabian Palace.”

On May 17, 1932, a crowd of more than 20,000 spectators converged on the ranch to witness Kellogg’s donation of his Arabian Horse Ranch, including 87 horses, to the University of California. In return for the generous grant, the University agreed to keep the Arabian horses and continue the Sunday horse shows that began in 1927 and continued to draw thousands of people, including some of Hollywood’s biggest stars.

In 1927, Charles B. Voorhis purchased 150 acres of land near San Dimas to build a facility for deserving and underprivileged boys. “Uncle Charlie,” as he was known by his students, viewed his facility as a place where students could study an abbreviated, but intense, agricultural program.

In 1933, Julian McPhee, assumed the presidency at California State Polytechnic University at San Luis Obispo. Known for his tight fiscal policy, McPhee saved the University during the years of the Great Depression. After those bleak years, McPhee’s vision of expanding Cal Poly Pomona to Southern California came closer to reality.

Cal Poly Pomona Expands

Plagued with financial problems, Voorhis was forced to close his doors only ten years after he had opened his facility. The demise of the Voorhis facility gave McPhee the opportunity to expand Cal Poly Pomona. In August of 1938, Charles Voorhis donated his facility as a gift to the California State University System. In August of 1938, McPhee’s request for the land was approved and the entire horticulture program was moved from San Luis Obispo to the new Southern California campus.

Further expansion was halted by the onset of World War II. The southern Cal Poly campus was closed when the majority of its students were called to active duty and the former Kellogg ranch was transformed into an Army remount station. After the war, the ranch faced an uncertain future, but in 1949 the 813-acre W.K. Kellogg Arabian Horse Ranch was deeded to the state, a proposal to which The Kellogg Foundation agreed, provided the Sunday horse shows resumed.

In 1949, the first Cal Poly Pomona Float was entered in the Tournament of Roses Parade and won the Award of Merit. The Rose Float tradition continues today and marks the partnership of the two Cal Poly campuses.

In 1956, the first classes were held on the campus in the present-day science building. Six programs in agriculture, leading to four bachelor of science degrees, were offered. The Class of 1957, consisting of 57 agricultural majors, were the first graduates of Cal Poly Pomona. By 1959, the curricula of the college included six degree programs in the arts and sciences and four in engineering.

Women Join Cal Poly Pomona

Many changes occurred in 1961 which affected Cal Poly Pomona profoundly. The Master Plan for Higher Education established the California State College System with its own Board of Trustees, and women enrolled at the University for the first time with 329 women joining the student body of 2,436 men. In that same year, the Legislature enacted Education Code Section 22606, which identified the primary function of the State Colleges as “...the provision of instruction for undergraduate students and graduate students, through the master’s degree, in the liberal arts and sciences, in applied fields and in the professions, including the teaching profession.” The Legislature recognized the special respon-

sibility of this institution as a “polytechnic college” by adding Education Code Section 40051 which authorized the college to emphasize “...the applied fields of agriculture, engineering, business, home economics, and other occupational and professional fields.”

In 1966, the California State Polytechnic College, Kellogg-Voorhis, was established as a separate institution from the San Luis Obispo school. Both campuses were awarded full university status in 1972. On June 1, 1972, the campus name was officially changed to California State Polytechnic University, Pomona. In 1982, The California State University and Colleges became The California State University.

Over the years, Cal Poly Pomona has grown from a small campus with six undergraduate programs enrolling 550 men in 1956 to a nationally and internationally recognized university with 71 undergraduate and graduate programs enrolling currently over 16,803 men and women, and over 2,886 students receiving degrees in June 1996. But the legend of Kellogg’s Arabian horse ranch has not been lost. The agricultural tradition begun by Voorhis and McPhee continues today. Cal Poly Pomona continues to be a leader in engineering education, providing well-trained graduates to meet current needs. And with an eye to the future, Cal Poly Pomona continues to expand its programs and facilities with the modern Classroom/Laboratory/Administration Building and the Center for Regenerative Studies, recent additions to the face of the campus.

ACCREDITATION

The university is accredited as a degree-granting institution by the Western Association of Schools and Colleges and is authorized by the California State Commission for Teacher Preparation and Licensing to recommend candidates for credentials in the following areas: Agriculture Specialist Credential, Adaptive Physical Education Credential, Bilingual/Cross Cultural Specialist Credential, Designated Subjects Credential, Business and Marketing Education, Multiple Subject Teaching Credential, Single Subject Teaching Credential, Reading Specialist Teaching Credential, Special Education Specialist Credentials, including Learning Handicapped, Severely Handicapped, and Resource Specialist Certificate.

The College of Agriculture is accredited by the American Veterinary Medical Association for its Animal Health Science program; approved by the American Dietetics Association for its Didactic Program in Dietetics; and granted developmental accreditation by the American Dietetics Association for its Dietetic Internship Program.

The College of Business Administration is accredited by the American Assembly of Collegiate Schools of Business (AACSB) for all its undergraduate and graduate programs.

The College of Engineering is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET) for its baccalaureate programs in aerospace engineering, civil engineering, chemical engineering, electrical engineering, industrial engineering, manufacturing engineering, and mechanical engineering, and by the Technology Accreditation Commission of ABET for its baccalaureate program in engineering technology. The baccalaureate program in agricultural engineering is also accredited by ABET. This program is housed in the College of Agriculture.

The College of Environmental Design is accredited by the American Society of Landscape Architects for its programs in landscape architecture and recognized by the American Planning Association (Planning Accreditation Board) for its program in urban planning. The Bachelor and Master of Architecture degrees are accredited by the National Architectural Accrediting Board.

The College of Science is accredited by the American Chemical Society

for its program in chemistry and by the Computing Sciences Accreditation Board for its program in computer science.

The School of Hotel and Restaurant Management is accredited by the Commission for Programs in Hospitality Administration for its program in Hotel and Restaurant Management.

The Animal Health Science option in the Department of Animal and Veterinary Sciences is accredited by the American Veterinary Medical Association and the California Veterinary Medical Board.

The Student Health Center is accredited by the California Cooperative Ambulatory Survey Program, jointly sponsored by the Accreditation Association for Ambulatory Care and the California Medical Association.

THE UNIVERSITY SEAL

The seal is used for all official acts of the university. It appears on official documents and represents a verification of the university's approval of actions and events. The figure in the seal's center is a representation of the head of the university's ceremonial mace which represents through its five branches the major disciplines of learning basic to the curricula of the university: the arts, commerce, the humanities, the sciences, and technology. Surrounding the seal is a black band which circles the designation "California State Polytechnic University, Pomona" and the founding date, 1938. Above the stylized mace is the motto: INSTRUMENTUM DISCIPLINAE.

THE UNIVERSITY SYMBOL

The California State Polytechnic University logo was created from two on-campus structures, the CLA Building and the Arabian horse barn arch, suggesting a transition into an age of innovation—a linking of the theoretical and the practical. The leaf acknowledges the past tree logo and represents our lush and unique campus. It also represents the student flourishing within the nurturing Cal Poly Pomona environment. The placement and shape of the leaf create an implied P, representing the fact that we are a polytechnic university located in Pomona. The logo is the university symbol and is used on all printed material.

THE CAMPUS

Out of all the California State University campuses, Cal Poly Pomona may be the most unique. It spans approximately 1,400 acres and has over 60 buildings. There are numerous classrooms, a student union, an

Arabian horse center, and a multi-level library that houses over two million items including periodicals, bound volumes, and microforms. Cal Poly Pomona is considered a mid-sized campus in comparison to other schools in the Cal State system, but it often has the feel of a small, private campus. Most classroom buildings are within reasonable walking distance of one another and the campus sits in a small valley surrounded by hills, qualities that help create the sense of community one finds at this university. There are also many organizations on campus for students to become involved in and it is very easy to meet fellow students. This campus is not a large, daunting university with great halls and impersonal classrooms, but a mid-sized teaching university. The emphasis is on students and making sure they get the most out of their educational experience at this university.

While Cal Poly Pomona has the reputation of being an agricultural and engineering school, it offers a variety of other areas of study. Business, the arts, and hotel and restaurant management are just a few of the many programs offered here. Of the 16,803 students on campus, 1,765 are graduate and credential students. With a student body that comes from a variety of geographical locations and cultures, Cal Poly Pomona is a very ethnically diverse campus.

One of the most desirable qualities of Cal Poly Pomona is its location. It is near most major freeways and close to major civic centers and business districts. This makes it easily accessible for working commuters. For students looking for a diverse education with interactive teaching and the added bonus of a convenient location Cal Poly Pomona is often the right choice.

LOCATION

Located south of the San Bernardino Freeway (Interstate 10) on the eastern slope of Kellogg Hill, the campus is the second largest in acreage in the state university system. The buildings represent a careful blending of the tile-roofed Spanish ranch structures built by W. K. Kellogg and the modern laboratory and classroom buildings of concrete and red brick. Campus development has preserved the beauty of the ranch and its original plantings. The combination of agricultural and livestock areas with science, engineering, environmental design, and liberal arts facilities provides for the full range of instruction in the Cal Poly Pomona program. (See campus map in the back section of the catalog.)

A multi-level interchange, which is a link for the San Bernardino, Corona, Orange, Foothill, Pomona and Riverside Freeways, is located near the northeast corner of the campus. Approximately 40 minutes from the downtown areas of Los Angeles and San Bernardino, the university is also within easy freeway access from communities in Los Angeles, Orange, San Bernardino and Riverside counties. (See freeway map in the back section of the catalog.)

CLASSROOM/LABORATORY/ADMINISTRATION BUILDING

The Classroom/Laboratory/Administration building (CLA), with its unique triangular tower and sandstone finish, is one of the most striking architectural structures on campus. The 235,000 square foot structure contains 10 lecture rooms, 40 faculty offices, an instructional television studio, and 625 computer workstations arranged in 21 computer laboratories. In addition to housing the campus Computer Resource Center and Academic Senate and Staff Council offices, the CLA is also home to various executive, business, and student affairs offices, including Admissions, Records/Evaluations, Financial Aid, Student Outreach and Recruitment, the Test Center, and Academic Affairs.

LIBRARY

The centrally-located University Library (15) is housed in a six-story building with floor space of 204,880 square feet and reader stations for

2,604 students. The collections exceed 2.7 million items; included are 621,184 volumes, 2,106,948 microforms, 2,077 software packages, 12,313 maps, and 58,500 technical reports. The Library also houses the W. K. Kellogg Arabian Horse Collection, which consists mainly of current and out-of-print books and periodicals dealing with the Arabian Horse. The Library subscribes to 2,855 periodicals and 20 newspapers. The Library's special facilities and services include a state-of-the-art computer classroom/lab for interactive, hands-on instruction in databases and systems for information retrieval, access to a CD-ROM local area network, an on-line public access catalog, computer-assisted search services, group study rooms, lockers, photo and microform copiers, facilities for disabled students, a 24-hour computer lab, a 24-hour study lab, and information guides. Specialized workshops are periodically offered to students and faculty. Personal assistance in using the Library's resources is available at four service desks and by appointment with reference and instruction services staff. Through reciprocal lending agreements and document delivery services, students may acquire materials from other libraries. The Library is open 83.5 hours a week, Monday-Sunday. For further information, call (909)869-3074, or visit the Library's home page at <http://www.csupomona.edu/library/welcome.html>.

AGRICULTURAL FACILITIES

The chief agricultural facility is the agriculture building (2) which contains laboratories, classrooms, faculty offices, and the college offices. Additional laboratories and offices are located in the College of Environmental Design (7), in the College of Arts (5), and in the University Office Building (94).

The Agricultural Engineering Building (45) houses shops, laboratories and classrooms for instruction in farm power and machinery, agricultural mechanics, carpentry, irrigation, and surveying.

Agricultural programs are also conducted at the Fruit Industries-Agronomy Unit (28) which includes a complete citrus packing house, and at the ties, the Ornamental Horticulture Unit (19) which includes 18 plant production facilities, the Raymond Burr orchid collection and The Oliver A. "Jolly" Batcheller Conservatory.

Directly related to animal science and other agricultural programs are the production units: a beef unit, meats processing building, honey extraction unit, poultry plant and feed mill (30-34), and swine and small ruminant units (37-38).

The W. K. Kellogg Arabian Horse Center (29) and horse show arena are operated as an instructional facility and also used for the Sunday Arabian horse shows. The Equine Research Center (67) forms part of this complex.

Campus acreage utilized by the College of Agriculture for instruction includes areas for field, vegetable, and forage crops, irrigated and natural pastures, citrus fruit and avocados and ornamental plantings. In addition to campus acreage, the College of Agriculture operates through the university's Foundation, the Pine Tree Ranch, a 53-acre instructional citrus and avocado ranch in Ventura County.

ARTS FACILITIES

Facilities for the College of Letters, Arts and Social Sciences (CLASS) are found in many areas of the campus. The college offices, along with the Departments of Behavioral Science and Geography and Anthropology, are located in the CLASS Building (5). Besides general classrooms and faculty offices, the building also houses the Instructional Technology and Academic Computing Center, broadcast laboratories, Social Data Center and Computer Lab, the Anthropology Lab, the Geography Lab, and the School of Education and Integrative Studies. Other college departments are located in the University Office Building (94): History

and Political Science.

The departments of Economics, Philosophy, and Communication are located on the third floor of the Administration Building (1). The offices of the student newspaper, *The Post*, are located on the Second Floor. Facilities for teaching art classes are located in the Aerospace, Chemical, and Industrial Engineering Building (12). The Learning Resource Center and related faculty offices are in the Library Building (15).

The Performing Arts Center is a two-building complex for instruction in music and theatre. The Theatre Building (25) contains a 500-seat theater, a large rehearsal room adaptable as a small central-staging theater, make-up and costume rooms, scenery shops, classrooms, and offices. The Music Building (24) includes a 180-seat recital hall, choral and orchestra rooms, faculty offices for English, music, and foreign languages, individual practice rooms, and a music library. The dance studio is located in the physical education facility.

The physical education facility (41-44) houses the Kinesiology and Health Promotion Department office and includes multipurpose buildings for instruction in physical education, athletics, and specialized health, athletic training and adaptive physical education programs. These facilities include gymnasiums, swimming pools, handball and tennis courts, fields for team sports, a track, a baseball field, a softball field, and a football field.

BUSINESS ADMINISTRATION FACILITIES

College of Business Administration operations are centered in the two-story Business Building (6) on the central quadrangle. This structure contains classrooms, computing laboratories, faculty offices and the college offices. Some instructional facilities and faculty offices for the college are located in the Engineering Center (9), the Bronco Bookstore Building (66), and in Building 85. Additional faculty offices are located in the University Office Building (94) and the Campus Center (97).

JAMES AND CAROL COLLINS CENTER FOR HOSPITALITY MANAGEMENT

The James and Carol Collins Center for Hospitality Management (79) is located atop a hill adjacent to the Kellogg West Center for Continuing Education and overlooks the Diamond Bar, Walnut, and Pomona valleys. Completed in November 1989, the 14,000 square foot facility houses a production kitchen and dining room with a 125 person seating capacity, a demonstration auditorium, a computer laboratory, a kitchen laboratory and research facility, a hotel laboratory, and faculty offices. The building was constructed through a major fund-raising effort which included leaders in the restaurant and hotel services industry. State-of-the-art kitchens provide a hands-on environment for students developing food service management techniques. Some instructional and faculty offices for the Center are located in building 94.

COMPUTING FACILITIES

Computing resources are provided to students and faculty for educational purposes. The general computer resources under the responsibility of the Instructional and Information Technology division consists of a Digital Equipment Corporation VAXcluster (VAX 6000-430 and a VAX 6000-410) and an AT&T 3B15.

Students have access to computing specialty centers at other CSU campuses over various wide area networks. On-campus computer access can be accomplished from any of the Computing Resource Center Labs. These labs are equipped with Sun SparcStations IPC, Apple, IBM, and Unix personal computers. One lab is for the exclusive use of faculty. Off-campus access can be achieved through the network

Several specialty labs have been established by the colleges to allow students "hands on" experience within particular educational areas. These labs contain various types of computing equipment and software which are specifically designed for a particular discipline.

DISTANCE LEARNING CENTER

Cal Poly Pomona has been involved in video-based distance learning since 1984 and is nationally known for its activities. Cal Poly Pomona's Distance Learning Center, a unit of Instructional Technology and Academic Computing (ITAC), is responsible for all off-campus instruction delivered through technology.

ITAC has two specially-designed distance learning studio classrooms. Capable of transmitting live classes to receiving locations throughout the world, these studio classrooms have state of the art graphics equipment as well as a variety of audio, video and computer facilities.

Of note are Cal Poly Pomona's broadcast facilities. The university operates its own four channel instructional television system. In addition, the university transmits into five cable television systems, allowing broadcasts to some 100,000 homes. The university also has direct microwave links to Keystone Communications which permits Cal Poly Pomona to transmit its programs by satellite to locations throughout the United States and both Europe and Asia. ITAC also operates a compressed video network, which provides two-way video connections to facilities throughout the world.

In addition to technology, ITAC maintains a staff of media production specialists, instructional designers, and program specialists to support faculty and distant students.

ENGINEERING FACILITIES

The College of Engineering facilities consist of seven buildings. A five-story Engineering Center (9) houses the college's administrative office, as well as classrooms, electrical, computer and electronics laboratories, and faculty offices. The other structures contain additional offices, classrooms and discipline-related laboratories essential to instruction in aerospace, chemical, civil, electrical, electronics, industrial, manufacturing, and mechanical engineering, and engineering technology (10-14).

The design of the College of Engineering facilities and their operation emphasizes the college's mission to provide education in engineering fundamentals and theory as well as in the practical laboratory and field applications of that theory.

ENVIRONMENTAL DESIGN FACILITIES

The 50,000 square foot Environmental Design Building (7) houses studio-laboratories, multipurpose research facilities, a resource center, print room, and classrooms for architecture, landscape architecture and urban and regional planning, as well as faculty offices and the college offices. Additional studios, classrooms, a shop, and photo laboratory, are located in the adjacent College of Agriculture Building (2). Graduate studies are also housed in building 71.

INSTRUCTIONAL TECHNOLOGY CENTER (ITAC)

ITAC is Cal Poly Pomona's instructional technology center for teaching and learning. Cal Poly Pomona has over 50 computer access points, 50 smart classrooms, 3 television studios, multimedia design support facilities, and digital editing studios. ITAC is responsible for providing access, support, and training for technology on campus. Students have access to a wide range of computing facilities, both on the campus and remotely, via PPP access. Computers available for general student access include PCs, Macs, Sun Workstations, and Silicon Graphics workstations. Various training sessions are available every week along with

on-line and telephone support. Provisions have also been made for disabled students to access technology.

All students enrolling at Cal Poly Pomona automatically receive both an e-mail account and a publishing space for their world wide web pages. In order to activate these accounts, students must sign an ethical use statement concerning appropriate use of computer technology. ITAC also coordinates the campus technology access program in cooperation with the campus Bronco Bookstore. Computer leasing arrangements have been made to support student and faculty access to technology.

Cal Poly Pomona has been involved in distance learning since 1984 and has received national recognition. ITAC is responsible for the technical coordination of all off-campus instruction delivered through technology. ITAC has developed one of California's most advanced digital education networks, known as MediaVision, through the internet, world wide web, and enhanced broadcast capabilities.

The MediaVision group uses state-of-the-art broadcast studios, smart classroom technology, and the internet to transmit educational content all over the world. A staff of over 20 full-time professionals, including instructional designers, graphic artists, writers, producers, and engineers, support MediaVision projects on campus.

SCIENCE FACILITIES

Science facilities include the Science Building (3), which was the first instructional building on campus, and the Science Building addition (8). Both buildings contain faculty offices, classrooms and laboratories. Advanced laboratories for instruction in the biological sciences, chemistry, geosciences, mathematics and physics are housed in the Science Building addition. The College of Science's administrative offices and the University Computer Center are also housed in the addition.

ASSOCIATED STUDENTS, INC. AND UNIVERSITY UNION

The Associated Students, Incorporated (ASI) is a registered tax-exempt, non-profit corporation. As an auxiliary organization of Cal Poly Pomona, the primary mission of ASI is the enrichment of all students, faculty and staff. ASI is the recognized, fully representative, self-government for the entire student body. It is within this context that ASI strives to establish cultural awareness and an appreciation of the diversity within the campus community. ASI exists to encourage and be an official channel for the free exchange of ideas among the student body. ASI promotes and funds programs, services and facilities to motivate students to succeed at their educational endeavors and further personal and interpersonal growth. Programs and services provided by ASI include Student Government, the Intramural Sports Program, the Children's Center (which is a partnership between ASI and the Student Affairs Division), the ASI Business Office and the University Union.

The University Union (35) and Union Plaza (26) provide a number of recreational, programmatic and service facilities to foster out-of-classroom education for students. Through an intensive study and survey, it was found that the University Union facilities were not adequately supporting the growing needs of Cal Poly Pomona's enrolled students. Thus, an \$18.5 million University Union Improvement Project (UUIP), was developed. Phase I of the UUIP was completed in the summer of 1997, which consists of the renovation and upgrade of the Union Plaza and the University Union. During Phase II of the UUIP, slated to begin in 1998, the University Union will double in size. This phase will include a variety of food venues, a fitness center, a 24-hour study area, a movie theater, increased meeting room space, and student club/organization offices. Phase II of the UUIP project is projected to be completed in the year 2000.

The University Union houses the Information Desk/Candy Corral, the Games Room which includes video games, pool tables, ping pong, a

music and television listening lounge, ticket sales (which includes discount amusement park and movie tickets, the campus Lost & Found as well as sign and banner making supplies for campus organizations). In addition, the Union facility includes an Exhibit Gallery, the ASI Business Office (which provides financial and accounting services for student clubs and organizations, meeting rooms, a 400 seat Multipurpose Room, Bank of America and Cal Poly Federal Credit Union ATM's, a Cal Poly Pomona self service student support center, and a copy/postal center. Currently the University Union has several food venues including Oscar's (coffee house) and the Soundstage International Food Court.

The Union Plaza houses the offices for the ASI Student Government, Intramurals Sports Program, the Office of Judicial Affairs and Student Life, Rose Float, Latter Day Saints Student Association, American Marketing Association, the Interfaith Center and the Wellness Center.

The Union Plaza Annex houses Student Orientation Services which is a part of the Student Affairs Division of the University.

UNIVERSITY OFFICE BUILDING (94)

This office complex houses faculty and departmental offices from the Colleges of Agriculture, Arts, and Business Administration. The Educational Opportunity Program is also located in this facility.

STUDENT RESIDENCE AREAS

Six residence halls (20, 21, 22, 23, 57, 58) accommodating 1184 students line University Drive. Behind the halls is a 600-seat dining hall for resident students, Los Olivos Commons (70). Overlooking the pond is La Cienega Center (59) which includes lounges and facilities for social events, plus a University Housing Services Office.

The University Village is located directly adjacent to the campus on Temple Avenue and accommodates 814 students in 27 two-story, garden-style buildings with eight apartments in each. In the center of the complex is the Village Community Center, which includes lounges and facilities for social events and quiet study, plus a Foundation Housing Services office.

STUDENT HEALTH SERVICES

Student Health Services (46) provides ambulatory student care by qualified physicians and nurse practitioners for acute and subacute conditions by appointment and on an urgent care basis. It is open Monday and Thursday between 8 a.m. and 6 p.m., Tuesday and Wednesday 8 a.m. - 7 p.m., and Friday from 8 a.m. to 5 p.m. Services include X-ray, pharmacy, laboratory, immunizations, family planning, and health education. Most of the services are cost-free; there may be a minor charge in some cases.

Outside and after hours medical care, whether referred by Student Health Services or not, is at the student's expense. Students are strongly encouraged to have comprehensive medical insurance coverage. As a minimum, insurance available through the Associated Students, Inc. should be purchased.

The Student Health Center is accredited by the California Cooperative Ambulatory Survey Program, jointly sponsored by the Accreditation Association for Ambulatory Care and the California Medical Association.

OFFICIAL RESIDENCE/KELLOGG HOUSE POMONA

The Manor House (111) is the official residence of the university president; the former W. K. Kellogg Mansion (112) houses university guests. Also forming part of the mansion is The Kellogg House Pomona used by campus faculty and staff for meetings and social events. The adjoining grounds and ponds, and the collections of specimen plants in Sycamore and Palm Canyons, provide interesting natural settings for the campus.

KELLOGG WEST CONFERENCE CENTER AND LODGE

The Kellogg West Conference Center and Lodge provides conference facilities for groups from ten to 350. Its location on the campus enables conferees to make use of the resources and teaching staff of the University through the College of the Extended University. The Center's facilities include air-conditioned lodges with 84 double or single occupancy rooms, a large auditorium and dining rooms accommodating 350 people. Through our professional staff of conference coordinators, businesses and organizations are offered assistance in conference planning, professional program evaluation and with locating educational resources for their training programs.

Since its opening in April 1971, Kellogg West has served banks, retail businesses, government organizations, trade and professional associations, corporations, clubs and educational institutions as well as other campuses of the CSU system and Chancellor's Office.

The complex was made possible by a \$3 million grant from the W.K. Kellogg Foundation in Battle Creek, Michigan and was the 10th continuing education facility funded by that organization. It is the first established within a statewide system of higher education.

Businesses, organizations or groups interested in developing or holding a conference, institute or meeting at Kellogg West may contact the sales office at Kellogg West, California State Polytechnic University, Pomona. (909) 869-3767 or www.theguide.com

COLLEGE OF THE EXTENDED UNIVERSITY

Cal Poly Pomona recognizes an important community need by providing access to higher education beyond the typical established patterns of regular on-campus instruction and full-time student enrollment. Through the College of the Extended University, assistance is given to organizations and individuals who seek to improve and update their career goals and competencies as well as enhance their personal and cultural enrichment through flexible educational programming.

Extended University opportunities at Cal Poly Pomona cover several broad areas including both credit and noncredit activities, external degrees, certificate programs, workshops, conferences, and on-site corporate and organizational training, as well as the familiar extension classes and the Open University Program. Admission into an Extended University program does not constitute admission to the regular sessions of the university. All programs sponsored by the College of the Extended University are self-supporting.

To receive a College of the Extended University Bulletin or further information on other educational opportunities, contact the College of the Extended University at (909) 869-2288.

CAL POLY POMONA FOUNDATION, INC.

The Cal Poly Pomona Foundation, Inc., was organized on February 28, 1966 to provide the University with services and facilities which are an integral part of the educational program of the University but which cannot by law be financially supported by the state government. Services include: financial and administrative support to the College of the Extended University, Agriculture's Aid-To-Instruction Programs, Publications, Public Relations, International Center, Minority Engineering Program, Multifunctional Resource Center and the English Language Institute. The Foundation also manages the Bronco Bookstore, Campus Books, Food Services, Kellogg West Conference Center and Lodge and the University Village student apartment complex. Contracts and grants from private and public agencies awarded the University are also administered by the Foundation.

The Foundation operates as a public-benefit, charitable-educational organization under the provisions of the California Revenue and Taxation Code, Section 23701(d) and the United States Internal Revenue Code, Section 501(c)(3). As a recognized auxiliary of the California State University, the Foundation conforms to the regulations established by the Board of Trustees of the California State University and approved by the California State Director of Finance as required by the California Education Code, Section 89900. The University administrative organization supervises the Foundation, as required by Title 5, California Code of Regulations, Section 42601(c).

ALUMNI ASSOCIATION

The California State Polytechnic University, Pomona, Alumni Association, Inc. is an association of graduates, former students and friends of the university. The operations of the organization are carried out by a board of directors comprised of a president, a secretary, a treasurer, eight vice presidents representing the instructional colleges/ schools of the university, one vice president representing numerous alumni charter groups, nine directors, a student representative from the Associated Students, Inc., a university representative appointed by the president of the university, and the past president of the association. Its primary purpose is to enhance the image of and provide service to the university and its alumni. Operating as a non-profit organization, this board is the voice and representation of over 70,000 alumni. Board members are elected by dues-paying alumni yearly through a mail-in ballot election and serve two (2) years when elected.

Approximately 10% of Cal Poly Pomona alumni are yearly dues-paying members and are eligible to receive many benefits such as free use of any CSU library, discount at the Career Center, membership in the university credit union, low rate group health, dental, vision and life insurance, to name a few. Alumni who wish to affiliate with a special interest group may join one of 15 chartered groups such as the Accounting Alumni, Rose Float Alumni, Hispanic Alumni, etc. The newly formed Student Alumni Delegates group assists and represents the Alumni Association at various university and alumni functions. It enables alumni to interact and integrate with students by working with a core group of student leaders who are serving as the "voice" of the students.

In addition to maintaining contact with graduates, the association sponsors the yearbook program, is responsible for alumni publications, annually honors a distinguished alumnus(a) from each college and school, promotes the alumni brick walk of fame (located between CLA building and Rose Garden) as well as merchandise, programs and other select opportunities for alumni. Other service activities include representing the alumni on several university-wide committees, the Voorhis Alumni Association scholarship, the Alice Bost Johnstone scholarship, Brick Walk Endowment scholarship and Alumni Association scholarships.

Information about the association may be obtained by writing to the Alumni Affairs Office c/o the University or by calling (909) 869-2963.

SUMMARY REPORT ON STUDENT GRADUATION RATES -1996

Under the state master plan for Higher Education, California State Polytechnic University, Pomona, draws its first-time freshmen from the top one-third of California's high school graduates. Since 1957, Cal Poly Pomona has awarded more than 65,929 bachelor's degrees and 6,351 master's degrees.

The number of course credit units required to complete a major program varies. For example, the minimum number of quarter units for a bachelor of arts degree is 186 (which is equivalent to 124 semester units). A bachelor of science degree requires a minimum of 198 units (which is equivalent to 132 semester units). Most undergraduate programs could be completed in four years. However, few Cal Poly Pomona students actually graduate in four years (8%), because most are balancing work, education, family and other obligations.

Our undergraduate degree programs require between 186 and 202 quarter units. Students who wish to finish college in four years must attend school each fall, winter and spring quarter and complete an average of 15.5 to 17.5 units per quarter. Rules of thumb translate these unit loads into 46.5 to 52.5 study hours per week outside of class. In addition, students who wish to graduate in four years must plan a schedule of courses with academic advisers that will enable them to progress through course sequences in their major while interweaving appropriate breadth courses in general education.

Employment and other obligations cause an increasing number of students to enroll for 12 units per quarter or less. One recent study indicated that more than 84 percent of students enrolled at Cal Poly Pomona work some portion of the week. At the same time, the number of students carrying fewer than 12 units per quarter has increased. This pattern of work and school is also reflected in the number of students who enter and continue beyond their first year. Seventy-eight percent of the first-time full-time freshmen who entered in fall 1995 were enrolled for courses in fall 1996.

For regular full-time first-time, freshmen who will eventually receive a Cal Poly Pomona baccalaureate, most will have it conferred within six years after coming to Cal Poly Pomona. For example, by fall 1996, or six years after entering Cal Poly Pomona, 38.5 percent of the fall 1990 entering freshman class had earned the bachelor's degree. Two years later in fall 1992, the Cal Poly Pomona graduation rate climbed to 56.4 percent for the fall 1984 entering class of freshmen. The final graduation statistic for the entering class of 1984 is expected to eventually reach 61.7 percent. This graduation rate is equivalent to the rates of our nation's best state universities and colleges.
