General Education—Unit Distribution

The General Education Program at California State Polytechnic University, Pomona shall be organized into the following distribution areas:

1. Communication in the English Language. Three (3) courses, 12 units (one course in Area A, B, and C)
2. Science and Mathematics. Four (4) courses, one (1) each from subareas A, B, C, D; D must be upper-division. Sixteen (16) units.
3. Humanities & Social Sciences:
 - A. Arts, Literature, Philosophy & Foreign Languages, three (3) courses, one (1) per subarea.
 - B. Social, Political & Economic Institutions and their Historical Background, three (3) courses, one (1) per subarea. Twelve (12) units
 - C. Integrated Being. One (1) course, four (4) units.
4. U.S. History, Constitution & Ideals. Two (2) courses, eight (8) units.
5. Breadth. Two (2) upper-division courses, both elected outside student's major. Eight (8) units.

General Education—Approved Coursework

Courses are approved by the Campus Academic Senate by area to meet the university general education program requirements. Coursework in general education should not be taken without a specific curricular goal. Students should consult with their departmental degree advisors or with the staff of the University Advising Centers. Many degree programs specify which university approved courses meet their more specific degree requirements. Such departments will list approved courses in their degree curriculum layouts and in their catalog section.

Courses listed as a sequence should be taken in order. For example, in the sequence MAT 114-115, MAT 114 should be completed before taking MAT 115. Each course in the sequence counts as one course toward meeting general education requirements.

Interdisciplinary General Education (IGE)

The Interdisciplinary General Education Program addresses the need for an integrated approach to curriculum, teaching, and scholarship and the creation of an extended learning community. As of July, 1994, the IGE Program is a part of the new School of Education and Integrative Studies, which shares these goals.

Students should also consult the coursework list for the Interdisciplinary General Education (IGE) Program. This program is open to any department wishing to adopt it as an option, and provides an integrative-thematic approach to the Humanities and Social Sciences components of General Education (areas 1, 3, and 4) for a total 32 units of the 48 lower-division units required. This program is designed as a two and one-half year program in which the participant studies both major coursework as well as courses designed to partially meet the University General Education requirement. Applicants for this program must take the EPT (score of 147 or better) or have this test waived because of other test scores (e.g., SAT, ACT, etc).

This is the preferred pattern for students in engineering and architecture. It is also recommended to all other students in the Colleges of Agriculture, Business Administration, Environmental Design, and Science. See departmental advisors or Program Director.

Transfer and Change of Major Students and General Education Certification

Community college transfer students and Cal Poly Pomona change of

major students are advised that, while they may be certified by their community colleges as having met all (or most) CSU lower division general education requirements, or have met GE requirements prior to change of major, many courses on the Cal Poly Pomona General Education list are also major department entrance or prerequisite requirements and will still have to be taken to meet degree requirements. For example, students may have met the quantitative reasoning requirement by taking an algebra course at the community college, or at Cal Poly Pomona, and be so certified. This will not meet the calculus requirement for engineering, which also meets the Cal Poly Pomona GE quantitative reasoning requirement. Calculus will still have to be taken. Such "excess" coursework will be given as "elective credit." Some transfer students may be certified by their community colleges as having met the CSU General Education quantitative reasoning requirement with coursework which does not meet the Cal Poly Pomona Mathematics proficiency requirement. Such students will also have to take coursework to meet this graduation requirement.

General Education—Course Lists

Note: Certain professional programs include GE course patterns not listed here. Students should consult the curriculum of the specific major to identify the exact GE requirement for the major. The symbol (t) indicates that a course may be taken on a credit/no credit basis. Please refer to corresponding major section in this catalog for prerequisites and detailed description of general education courses listed below.

Track A

This general education program provides an interdisciplinary and integrated approach to general education in Areas 1, 3, and 5. Track A incorporates the interdisciplinary, integrated core model of general education. The goals of these courses are to be interdisciplinary, to provide students with a broad liberal arts background to enhance students' computer literacy and provide substantial instruction in basic writing, reading, speaking, and critical thinking skills. These courses also demonstrate an attempt to foster connections between the sciences, technology, social sciences and humanities. The Track A courses are also designed to enhance students' exposure to other cultures and to international issues and phenomena.

There are 12 courses in Track A, totaling 48 units. There are three courses in Area I (Communication and Critical Thinking), for a total of 12 units, 7 in Area 3 (Humanities and Social Sciences) for a total of 28 units and 2 courses in Area 5 (Breadth) consisting of Upper Division Seminars or Foreign Language or International Experience, for a total of 8 units.

• All programs in the College of Engineering are nationally accredited by the Accreditation Board for Engineering and Technology (ABET) and engineering curricula are required to satisfy both ABET national requirements and, concurrently, CSU general education requirements. In order to achieve this, underlined courses double-count in satisfying both major and general education requirements. All coursework can be satisfied through course substitution via a General Academic Petition, or via articulation as appropriate. All non-underlined coursework can, in addition, be satisfied via GE certification from a community college. • Because of ABET requirements in the life sciences, degree credit for any course other than BIO 110 (Area 2c) requires a General Academic Petition. • (*) denotes a course that could be used to satisfy the Cal Poly Pomona requirement in American Cultural Perspectives. • (†) indicates that PSY 201 is a prerequisite for MHR 318 in Area 5.

INTERDISCIPLINARY GENERAL EDUCATION (IGE) PROGRAM (32 units)

The Interdisciplinary General Education Program addressed the need for an integrated approach to curriculum, teaching, and scholarship and the creation of an extended learning community.

The IGE program is open to any department wishing to adopt it as an option and is the preferred pattern for students in engineering and architecture. It is recommended to all other students in the Colleges of Agriculture, Business Administration, Environmental Design, and Science. It is also available to Humanities majors in the English and Foreign Languages Department, to Liberal Studies students in the Liberal Studies Option and to philosophy majors, College of Letters, Arts, and Social Sciences. See departmental advisors or the Program Director.

The eight course sequence has the following common goals:

Learning Outcomes

1. Communication skills and critical thinking.
2. Development of historical social consciousness.
3. Multicultural understanding.
4. Understanding and appreciation of aesthetic experiences.
5. Understanding and articulation of values.
6. Independent integration of knowledge and experience through active student learning.

Please refer to University Programs section in this catalog for IGE course descriptions.

IGE 224	Connections Seminar: Exploration and Personal Expression	(4)

HOW INTERDISCIPLINARY GE PROGRAM MEETS UNIVERSITY REQUIREMENTS

This 32 unit program meets the following portion of the University General Education requirements under Track B. (Engineering students should see adviser for specific additional coursework required by major.)

AREA 1 COMMUNICATION IN THE ENGLISH LANGUAGE

ENG 104 ("a") satisfied at the end of the first year (after taking IGE 120, IGE 121, IGE 122); "b" and "c" not satisfied. Select from regular GE list.

AREA 2 SCIENCE AND MATHEMATICS

Not satisfied. Select courses from regular GE list as specified by major.

AREA 3 ARTS, LITERATURE, PHILOSOPHY AND FOREIGN LANGUAGES

Any two courses (8 units) from "a" or "b" or "c" satisfied at the end of the first year with the completion of IGE 120, IGE 121, and IGE 122. Take the remaining four-unit course from the regular list. (Example: If "b" and "c" are replaced by IGE courses, then take "a" from the regular list, and so on.) The student may choose which two courses to replace by IGE courses.

"e" and "f" are satisfied (8 units) at the end of the second year with the completion of IGE 220, IGE 221, and IGE 222. Choose "d" from the regular GE list.

"g" is satisfied (4 units) at the end of the IGE sequence (IGE 224).

AREA 4 U.S. HISTORY, CONSTITUTION, AND AMERICAN IDEALS

Satisfied (8 units) at the end of the IGE sequence (IGE 224)

AREA 5 UPPER DIVISION GENERAL EDUCATION

Not included in IGE. Choose from regular upper division course list.

AMERICAN CULTURAL PERSPECTIVES REQUIREMENT

The American Cultural Perspectives Requirement is a graduation requirement. Courses satisfying this requirement may be part of either a student's General Education program, major, or minor. These courses may also be taken as electives. This requirement will not constitute an additional unit load on the degree requirements of students in any program. This requirement was implemented fall quarter, 1995.

To satisfy this requirement a student must take at least one four-unit course. Courses that meet the American Cultural Perspectives Requirement should satisfy all of the following criteria:

Introduce theoretical perspectives and nonwestern/nontraditional approaches for studying gender, ethnicity, and class.

Include the study of at least one other marker of social difference, such as sexual orientation, religious affiliation, national origin, etc.

Include substantive materials (books/films/lectures/articles/etc.) by and/or about members of at least two of the following socio-cultural groups: African Americans, Native Americans, Chicano/Latino Americans, Asian Americans, Pacific Islands Americans, Middle Eastern Americans, and European/white ethnic Americans.

Address intra-cultural differences as well as inter-cultural commonalities between groups that collectively represent the American population. The commonalities and differences may be examined by focusing on diverse cultural practices, environmental ethics, political histories, religious beliefs, or means of artistic expression.

The following courses have been approved to satisfy this requirement:

ANT 102	Introduction to Cultural Anthropology	4	ENV 355	Community Exhibition and Performance Spaces	4
ANT 333	Varieties of American Culture	4	ENV 422	Designing for the Elderly and Disabled	4
ART 310	Art of the United States	4	ENV 423	Design for Children and Accessibility	4
ENG 212	Survey of American Literature II	4	ENV 489	Community Design and Social Change	4
ENG 213	Ethnic Literatures of the U.S.	4	EWS 140	Introduction to Ethnic Studies	4
ENG 459	Literatures of the Third World	4	EWS 145	Introduction to the Study of Women and Men in Society	4
			EWS 390	Ethnic Women	4
			EWS 420	Gender, Ethnicity, and Class	4
			EWS 430	Ethnic Thought and Values	4
			FN 228	Food and Culture	4
			FNC 101	Introduction to Family Issues	4
			HST 202	United States History	4
			HST 345	America Comes of Age, 1890-1945	4

HST 347 The U. S. Since 1945 4
MHR 318 Organizational Behavior in a Multicultural Environment . . 4
KIN 450 Role of Sport in Contemporary Society 4
KIN 469 History of Women in Sport 4
