Changes in Matter—Before, During, and After

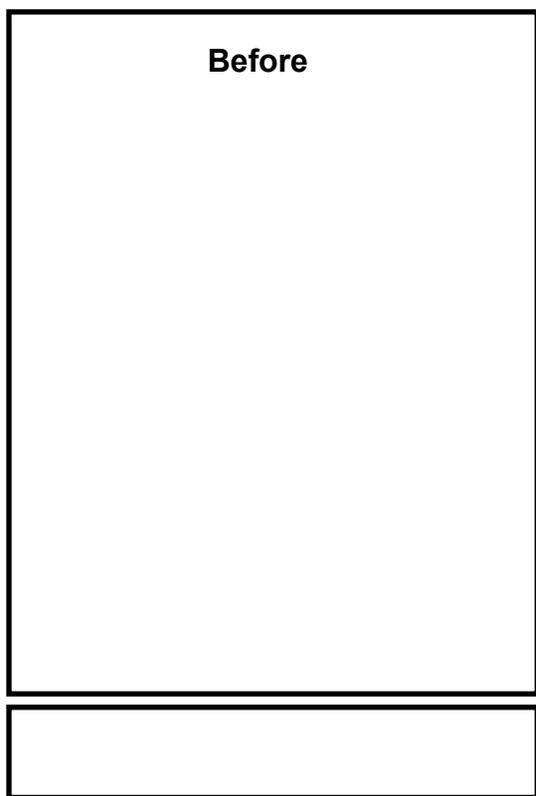

Create a comic strip showing what happens before, during, and after a change in matter that your teacher assigns. Draw pictures and add labels, captions, and talk bubbles to describe what the matter looks like and what you think the molecules would look like even though you can't see them. Use these key science words in your descriptions:

Matter
Change
Atoms
Molecules

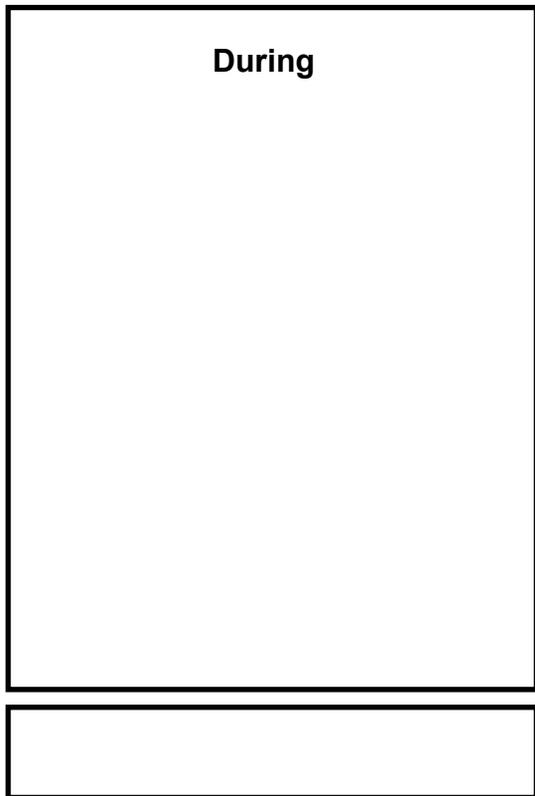

Heat
Motion
Move faster
Move slower/slow down

Solid
Liquid

Before

During

After
