ACADEMIC PROGRAMS COMMITTEE

REPORT TO

THE ACADEMIC SENATE

AP-012-189

Discontinue Information Assurance Option in the MS in Business Administration

Academic Programs Committee

Date: 02/13/2019

Executive Committee
Received and Forwarded

Date: 09/04/2019

Academic Senate

Date: 09/25/2019
First Reading

BACKGROUND:

Currently, the Master of Science in Business Administration (MSBA) program contains only one option: the Information Assurance option offered by the Computer Information Systems (CIS) department. Its current curriculum (effective Fall 2018) consists of 10 courses, 31 semester units in total. In referrals [AP-011-189](#) and [AP-012-189](#), the CIS department proposes to:

1. Discontinue the Information Assurance option in the MSBA ([AP-011-189](#) and [AP-012-189](#))
2. Change the name of MSBA to Master of Science (MS) in Information Security ([AP-011-189](#))
3. Change the CSU Degree Code of the program from 05011 to 07021, which corresponds to changing the CIP code (used by the US Department of Education) to 11.0103 ([AP-011-189](#))

These changes are proposed with the goals of maintaining currency, making the program more marketable, and increasing enrollment.

RESOURCES CONSULTED:

Associate Deans, all colleges

Department Chairs, all departments

Dr. Laura Massa, AVP for Academic Programs

Dr. Daisy Tang, Chair of Computer Science Department

Dr. Halima El Naga, Chair of Electrical & Computer Engineering Department

Dr. Mohammad Husain, Associate Professor, Computer Science Department

Dr. Ron Pike, Associate Professor, Computer Information Systems Department

Dr. Zhongming Ma, Associate Professor, Computer Information Systems Department

DISCUSSION and RECOMMENDATION:

The rationale for items 1-3 of this combined proposal are discussed in the AP Committee's report on AP-011-189. This referral, item 1, is largely a "housekeeping" referral: The MSBA contains only a single option, and thus program structure should be streamlined into a single program without any structure below it, just the existing curriculum of the previous "Information Assurance" option. This streamlining should most sensibly be done in tandem with renaming the program, per the CIS department's requests. The rationale for approving the renaming, and answers to objections, is outlined in the report on AP-011-189.

The AP committee recommends discontinuing the "Information Assurance Option" in the MSBA program, provided that referral AP-011-189 (renaming the MSBA) is also approved.
