*California Community Transmission: New Hospital Admissions (7-Day Moving Average)

Campus Indicators	11/10/21	11/24/21	12/1/21
Vaccination Rate[†] <i>% of students and employees who have uploaded their vaccination record</i>	83.2%	85.1%	85.5%
On-Campus Vaccination Rate <i>Vaccination rate for enrolled students, faculty and staff who come to campus.</i>	-	89.6%	89.9%
Compliance with CSU Interim Vaccination Policy[†] <i>% of students and employees who have taken one of the required actions</i>	93.6%	95.3%	95.7%
Public Health Testing Positivity Rate^{††}	0.2%	0.4%	0.5%

[†] Campus vaccination rate and compliance numbers are updated Mondays, Wednesday and Fridays at noon. ^{††} 7-day average of tests performed at the Public Health Testing location on campus.

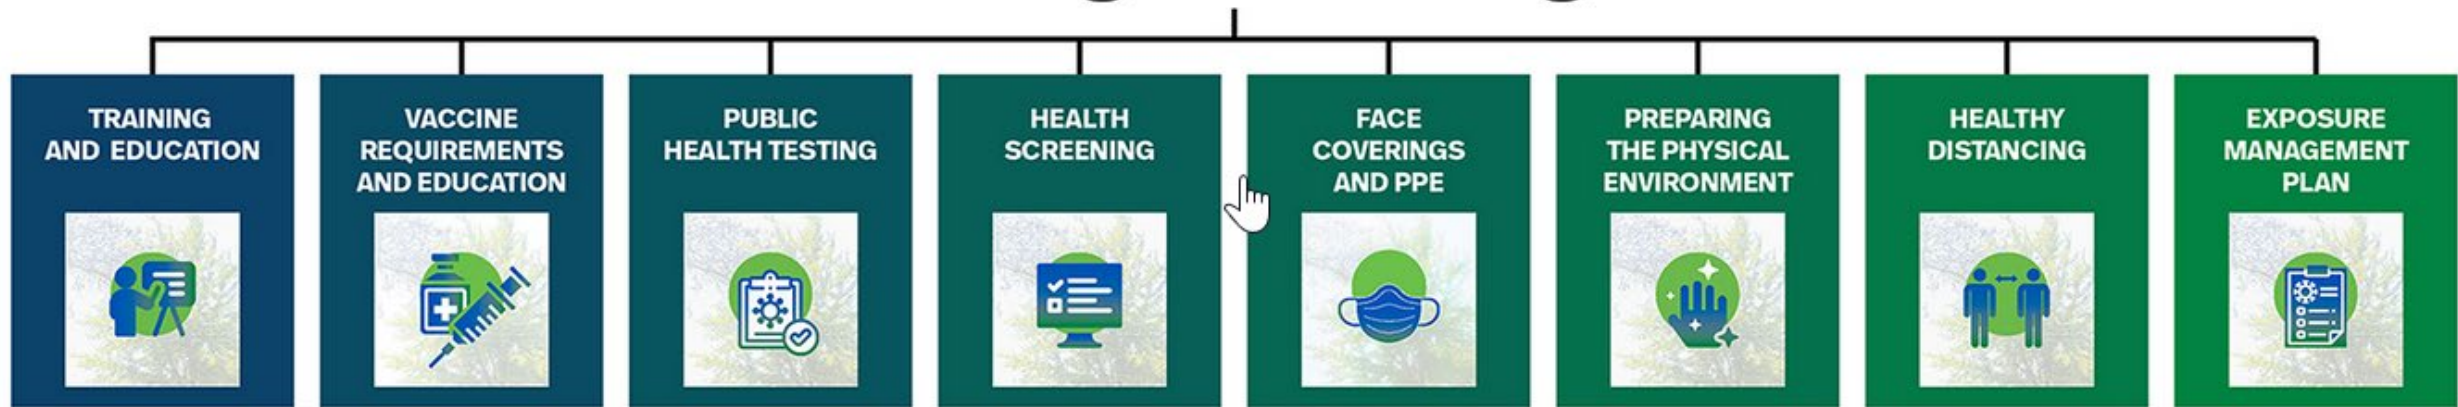

Safer Return COVID-19 Health and Safety Plan

The University's Safer Return COVID-19 Safety and Health Risk Mitigation plan reflects a multipronged approach reflecting three categories of risk mitigation:

- **Personal measures** – individual behaviors to protect ourselves and those around us
- **Administrative measures** - processes and policies that keep people safe
- **Engineering measures** - physical measures put in place to help keep our campus safe

The **eight-pronged** approach reflects *evolving* public health orders and state requirements, best practices and scientific recommendations, and local conditions. Each mitigation together serves as multiple layers to improve our ability to keep our campus and communities safe. *The plan helps assure a safer return to campus requiring individual actions and shared responsibilities.*

Risk Mitigation Strategies

Points of Note

1. University Risk Response Plan has been added to the Safer Return website.
2. The Public Health Testing location will close beginning December 20 and will reopen the first week of January.
3. Safer Return website has information on how to report a positive case or close contact exposure.
4. Safer Return Webinars – Thursdays at U-Hour.

The screenshot shows a navigation menu on the left with 'University Risk Response Plan' highlighted. The main content area is titled 'University Risk Response Plan' and contains the following text:

Cal Poly Pomona's Health and Safety Plan and the University Risk Response Plan is informed by the principles that have guided the campus throughout the pandemic:

1. Prioritizing health and safety
2. Protecting and supporting our mission of academic excellence and student success
3. Making decisions grounded in our values of equity and inclusion
4. Providing timely and transparent communication and receiving input from campus stakeholders

The University Risk Response Plan provides a framework to mitigate transmission of COVID-19 on campus. To determine risk level, the Task Force analyzes numerous factors, including case rates on campus, case rates in Los Angeles County and surrounding counties, positivity rates, number of students and employees in quarantine or isolation, clusters or outbreaks, housing isolation and quarantine capacity, and vaccination rates.

The plan will continue to evolve to reflect county and state health requirements, best practices and scientific recommendations. Furthermore, county, state and other agencies may implement additional risk mitigation efforts based on campus and community conditions.

Risk mitigation measures that might be implemented include but are not limited to the examples noted below.

Expand/Collapse All

Minimal: COVID-19 case rates are low and stable

Moderate: Case rates are low, and multiple indicators suggest potential for increased transmission

Safer Return at Cal Poly Pomona

The screenshot shows a dashboard titled 'COVID-19 Reporting' with the sub-header 'Student Success — Safely'. The main content area displays four key statistics:

- 89.6%** Vaccination Rate (Enrolled students, faculty and staff who come to campus. Updated 11/24/2021)
- 0.4%** Positivity Rate (The 7-day average of all tests at the Public Health Testing site on campus. Updated 11/24/21)
- 197** Students on campus
- 234** Students off campus (Reported and confirmed positive cases since March 2020. Updated on 11/30/21)
- 98** Employees on campus
- 30** Employees off campus (Reported and confirmed positive cases since March 2020. Updated on 11/30/21)
