Learn by Doing: Making Imagination Real

Be Creative. Be an Engineer.
Cal Poly Pomona is widely recognized for its Learn by Doing philosophy. As a student you will enjoy a unique blend of theory and practice to solve problems in a lab setting today, while you prepare to solve real-world problems tomorrow.

Students have opportunities to apply their knowledge to hands-on projects, collaborate with faculty members on research for a team-based learning experience, and participate in valuable internships and service-learning programs.

Bachelor of Science Degrees
- Aerospace Engineering
- Chemical Engineering
- Civil Engineering
- Construction Engineering Technology
- Computer Engineering
- Electrical Engineering
- Engineering Technology
- Electronics & Computer Engineering Technology
- Industrial Engineering
- Manufacturing Engineering
- Mechanical Engineering

CHOOSE FROM 11 UNDERGRADUATE PROGRAMS

Master of Science Degrees
- Civil Engineering
- Electrical Engineering
- Engineering Management
- Mechanical Engineering
- Systems Engineering
- Engineering with Emphasis in Aerospace
- Engineering with Emphasis in Materials

CHOOSE FROM 7 GRADUATE PROGRAMS

COLLEGE OF ENGINEERING

MAKE THE WORLD A BETTER PLACE. DECIDE HOW.
WE TRAIN WORLD-CLASS WORKFORCE READY ENGINEERS

Applications accepted online through the CSU Mentor website: www.csumentor.edu

| DREAM BIG. LOVE WHAT YOU DO. |
Engineers enjoy rewarding careers that offer:

- A high rate of employment
- Significant financial reward with an average starting salary of $56,000
- A balance between personal and professional life
- Professional mobility in your career

| SUPPORT FOR STUDENT SUCCESS |
Engineering Advising Center
The Engineering Advising Center is made possible by funding from the Student Success Fee. Engineering advisors are available to advise all engineering undergraduate students, with an emphasis on first-year, four year pledge and at risk students.

MEP: Center for Gender, Diversity & Excellence in Engineering
MEP is an academic enhancement program for engineering students, with the goal of increasing the number and diversity of graduating students, including those from historically underrepresented groups.

CPP WE: Cal Poly Pomona Women in Engineering
The Women in Engineering Program, supported by Edison International, primarily provides resources and supportive services to our current female undergraduate and graduate students. The Program also provides a forum for female faculty in the College of Engineering, as well as outreach to K-12 schools to inspire young girls to consider engineering as a possible career.
