
Dr. Fang (Daisy) Tang
Office: Room 8-11
Phone: (909) 869-2157
Email: ftang@cpp.edu
URL: www.cpp.edu/~ftang/
Office Hours: T/Th: 9:00pm -- 10:00pm (via Email Only).
W: 10:00am to 12:00pm (8-11).

Time and Place: CS240-01: T/Th, 10:00am – 11:50am, Room 8-302;
CS240-02: T/Th, 1:00pm – 2:50pm, Room 8-302.

Class Website: www.cpp.edu/~ftang/courses/CS240/

Class Email List: cs24001@cpp.edu; cs24002@cpp.edu

Course Description: Abstract data types and their implementations. Linked and array-based

Required Textbook:

Data Structures and Abstractions with Java, 4th Edition, by Frank M. Carrano, Prentice Hall,
2014.

References:
Data Structures & Other Objects Using Java, 4th Edition, by Michael Main, Addison Wesley,
2011.

Prerequisites: CS130 and CS141 with grades C or better, or consent of instructor.

Exam Dates:
For morning class:
• Midterm: Tuesday, Feb. 9, class meeting (tentative schedule).
• Final: Thursday, Mar. 17, 9:10am – 11:10am.
For afternoon class:
• Midterm: Tuesday, Feb. 9, class meeting (tentative schedule).
• Final: Thursday, Mar. 17, 11:30am – 1:30pm.

Evaluation:
Grading will be based on two exams, projects and quizzes.
Midterm I: 30%
Final: 35%
Projects: 25%
Quizzes: 10%

Note that the instructor reserves the right to curve the grades upwards if it’s appropriate.

Programming Projects Policies:
- **Project handouts**: Programming assignments will be posted on the course website, along with the due dates.

- **What to submit?** Please refer to the standard project format on the course website.

- **Due dates and late submission**: Project assignment (submission via email) is due at 23:59:59 on the assigned due date. Each late submission will incur a 10 points penalty per day. The final lab must be turned in ON TIME. No late lab will be accepted for the final lab. Any lab violates the above rules will receive zero credit.

- **Email policy**: If you send email to me, please be sure to include your name, username and the course number in the body of the e-mail. You should also use an appropriate subject line that looks like **CS240 Project 2** or whatever the appropriate issue that you are asking a question about.

- If you don’t check your email at your Cal Poly account, you may forward your mail to your desired email-account by setting up a forward file in your login directory. By putting your desired email address in this file, all your email will automatically forward to this address. I will only send email to your **username@cpp.edu** account and I will not be responsible for any delay in your email. If you use other email accounts to contact me, the emails might end up in the junk box automatically, which may result in delayed response.

Class Policies and Support:
- **Class attendance and participation**: Class attendance will be taken randomly. Class participation includes speaking in class during the discussion, asking course-related questions, answering questions, etc. In the event of an absence, it is the student’s responsibility to learn the course material and announcements covered in class. Lectures will not be repeated during office hours. If you really have to miss a class, please inform the instructor ahead of time by email.

- **Collaboration policy**: Discussing and exchanging ideas is encouraged. You may help each other with your strategy for how to solve a problem. However, copying from outside sources (e.g., other students, Internet, etc.) on any material to be graded is not permitted and will be considered cheating. Cheating may result in failure of the assignment/exam and/or failure of the class. The University’s policy on Academic Integrity, as stated in the catalog, will be enforced.
• **Exams:** Unless otherwise specified by the instructor, only the final exam will be comprehensive, covering material from the entire course. The rescheduling of exams must be arranged at least one week in advance. The new schedule of the exam should be a day or two earlier than the original scheduled day. Exams missed without prior permission will be given a grade of zero.

• **Quizzes:** Quizzes will be usually given at the beginning of the class. Since the lowest quiz score will not be counted, there will be no make up for any missed quizzes.

• **Grading correction:** Bring any project or exam grading correction requests to the instructor within 1 week of receiving the grade, or before the end of the quarter, whichever comes first. After that, your grade will not be adjusted. If you find a mistake in grading, please let the instructor know. Your grade will not be lowered.

• **Announcement responsibility:** Important announcements, schedule revisions, etc., will be posted to the class email list and on the course website. You are responsible for information distributed to this email list and the course website. You are also responsible for short announcement during class session.

• **Cell phones:** You may have cell phones in class, but they must be on mute and not answered until the end of class.

• **Student access:** Cal Poly Pomona is committed to student success. Students with disabilities are encouraged to contact the instructor privately or the Disability Resource Center (909-869-3333, Building 9-103) to coordinate course accommodations.

**Course Outline:**

- Arrays
- Linked lists
- Generic Programming
- Algorithm Analysis
- Hashing
- Stacks
- Queues
- Recursion

*(Please refer to the class website for lectures notes and a more detailed schedule.)*
