Lower Division GE, not including Math and Science, see Note 3 below for alternatives

- Notes
1. May include College Trigonometry (MAT 106 at CPP) if taken before Calculus
 2. Lab course used to satisfy GE Area B2.
 3. An alternative GE pattern from that listed here, the Interdisciplinary Education Program (IGE), for partial fulfillment of GE Areas A, C and D is available for students in this major. Revised 12/09/2010 Total Units **198**

This flowchart shows the suggested order of courses to complete the degree Bachelor of Science in Engineering Technology in 4 years: 12 quarters not including summer quarters. The flowchart is not a schedule however and when specific courses are offered (i.e. what quarter in a given year) depends on many factors including enrollment, faculty availability, on-going curricular changes and budgetary constraints. Many courses (i.e. ETT210 and GE) are generally taught every quarter and can be taken whenever a student has completed the prerequisite coursework. Some major courses (i.e. ETT310/L) are taught twice a year while some (i.e. ETT234/L, ETM312) are taught only once a year. If you have concerns about when a course is to be offered next or any other course related questions you should contact your department advisor or the ET office (909-869-2492 or etdept@csupomona.edu).
