Total Units on Plan	180
Major Core Units	74
Major Elective Core Units	28
General Education Units & Major Support	77
Unrestricted Elective	1

Advising Notes:

1. This shows how an AGS student could schedule all of their requirements to complete their degree in 4 years. This plan is for a freshman entering as an AGS student who does not change major or need remedial course work in Math or English. If a student is a transfer or change of major they should schedule an appointment with Dr. Miller to determine how this schedule can to be adjusted.
2. Students must pay attention to completing the 100 and 200 level GE during your freshman and sophomore years. Do not put those off.
3. If students are taking remedial math, they take STA 120 the following quarter.
4. *Agricultural Science students seeking to earn teaching credentials after completing their BS degree need a specific number of subject matter core area courses in Plant Science, Animal Science, Ag Business and Ag Mechanics (currently embedded in Plant Science courses). See degree Curriculum Sheet for choice list of courses in Plant Science and Ag Mechanics to meet this unit requirement and meet with Dr. Miller each year to ensure the correct number of lower and upper division units in each subject matter core area is being completed)*
5. *The above stated number 4 is for students who are looking to earn teaching credentials after completing their BS degree. STUDENTS NOT WISHING TO COMPLETE THE CREDENTIAL PROGRAM HAVE MORE FLEXIBILITY IN PETITIONING COURSES AND WILL ALSO **NOT** COMPLETE THE FOLLOWING COURSES LISTED ABOVE IN YEAR 4:*

AGS 420/420A

AGS 441

***** STUDENTS NOT SEEKING TEACHING CREDENTIALS SHOULD SCHEDULE AN APPOINTMENT WITH DR. MILLER TO DISCUSS OPTIONS FOR COURSES IN THIS MAJOR *****
