

## FINAL EXAMINATION SCHEDULE AND APPROVED TIME MODULES SUMMER TERM

Final examination times for Lecture and Seminar classes (applicable to 2-units and above ) that are scheduled during an Approved Time Module are listed on this chart.

In-class final examinations **shall be administered only during final exam week and only at the time published by the University**. When a student finds that two or three of his/her final examinations coincide or occur on the same day, a student may wish to arrange with the professor of one of the courses to schedule a mutually convenient time for the final examination. The instructor(s) retain the authority to permit the change of time for the examination, while it is hoped that the instructor and student can work out a mutually convenient final examination time.

*Please note* that these final examination schedules **do not apply** to Activity, Laboratory, Lecture class that are less than 1-unit, Hybrid, Asynchronous, Bisynchronous, or any other class that is not scheduled during an Approved Time Module.

Final examination for classes that are **not covered by the information on this page** need to be scheduled by the department by submitting a room request through [Room Scheduling for Events](#). Instructors must ensure that all students can participate in the scheduled final examination.
