

CAPM Certification

Certified Associate in Project Management (CAPM)

The Certified Associate in Project Management (CAPM) is an entry-level certification for project practitioners. This globally recognized certification program in Project Management is provided by the Project Management Institute (PMI) and covers all the fundamental knowledge, terminology and processes required for effective management of a project.

The CAPM course is designed for individuals who are in the process of developing their career in project management. The CAPM qualification is intended for professionals with less experience in project management domain but want to demonstrate their ability to take on managerial responsibility before their employers.

Why you should earn the CAPM designation:

- CAPM certification can **increase** an individual's salary up to **25%**
- certified CAPM professionals are seen to be **highly proficient** and **trained on all aspects** of project management

Eligibility and Details

- high school diploma, associate degree or the global equivalent
