

TOM Newsletter November 2017

Feel free to drop into our office for more info! Building 164, Room 1030

What's Happening in TOM?

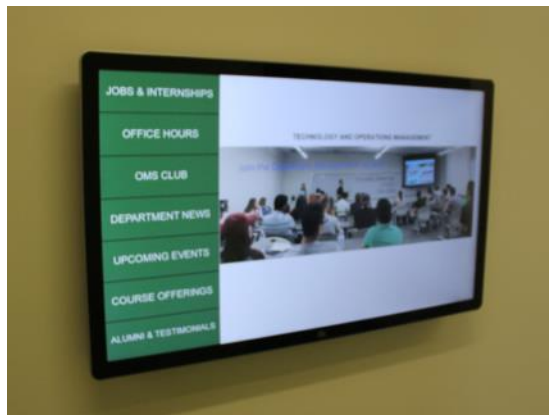

Semester Conversion

Cal Poly Pomona will be converting to a semester system beginning in the Fall of 2018. If you are graduating next Fall or at a later time, make sure to get academic counseling at the Student Success Center! This will ensure you have a smooth transition into the semester system. The Student Success Center will be extremely busy in the next few weeks, so it's recommended that you get your counseling as soon as you can! The Student Success Center can be found in 164-1060 and is open Monday – Friday 7:30 AM to 5:00 PM.

Using the Interactive Board

Do you have a quick question such as: office hours, upcoming events, or about new opportunities? The interactive board is your answer! The interactive board is located right outside the TOM department and it allows you to easily access information about our department, events, and even current jobs and internships!

Career Corner – Summer Internships

SCOT LAB NEWS!

SCOT Lab: The Perfect Place to Study for Finals (Bldg. 6-Room124)

Attention Students! Does the library feel too packed? Can't find outlets or tables? With finals week upon us don't be afraid to take advantage of the lab as a quiet place to study or work on projects either individually or in groups.

SCOT Lab Hours

Mon: 12:30 PM - 5:00 PM

Tue: 10:00 AM - 1:00 PM

Wed: 12:30 PM - 5:00 PM

Thu: 10:00 AM - 12:00 PM

We hope to see you soon!

Leonardo Jimenez

Lab Assistant

Supply Chain Operations Technology (SCOT)

Phone: 909-869-3974

Student Club Highlights

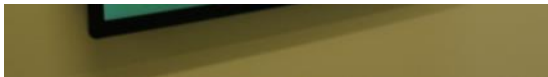

OMS Meets Every Thursday at 12pm (U-hour) Room 163-2004
JOIN US FOR FREE PIZZA!

The Operations Management Society (OMS) is a student run club for those pursuing careers in Operations or E-business. The club provides students the opportunity to network with industry professionals via guest speakers, plant tours, and APICS, DMA, & ASQ events.

Target Tour

OMS Students had the opportunity to visit Target's Distribution Center in Rialto, CA to explore their current operations. The cohort of students were led by a Cal Poly Pomona Alumni who currently works at the facility. The tour allowed students to understand an entire distribution center operation with the use of automation and other techniques that improve efficiency.

Career Corner – Summer Internships

Summer internships are an essential part to securing a high paying job when you graduate. Having experience coupled with a bachelor's degree will make you an extremely competitive applicant for most entry-level positions.

You may be asking yourself... "How do I get an internship? I don't have any experience!". The best way to get experience before beginning an internship is to get involved with your department and academic clubs. This shows your future employer that you are dedicated, self-motivating, and eager to get involved. It's also a great conversation starter when you're giving your elevator pitch at the career faire. Don't forget to include all of your extracurricular experience on your resume. If you do not have a resume or if you would like your resume reviewed, the career center is an excellent resource located in building 97.

Now that you have relevant extracurriculars and experience, you can start applying to some internships! Make sure to apply as early as possible. Several large companies begin the interview process at the beginning of each academic year, while others may begin this process towards the end of the year. Starting early allows you to increase your chances of obtaining an interview and securing your first internship! Make sure to check out the jobs and internships section of the newsletter. This is a great place to start your search!

Academic Dates to Remember!

Oct 23 – Nov 17	Registration Advising Period
Oct 23 – Nov 17	General Registration Period
Nov 10	School Closure – Veteran's Day
Nov 23	School Closure – Thanksgiving
Nov 24	School Closure – Columbus Day

OMS Club members gather for a picture inside the Target Distribution Center

Global Supply Chain Student Challenge

OMS students formed a total of 4 teams to compete in the Global Student Challenge! The Global Student Challenge is a worldwide competition where students must find solutions to complex supply chain issues. Last year, Cal Poly Pomona's team placed 4th globally and had the opportunity to compete in The Netherlands! The current 4 teams have a 3 month period where they must qualify in order to move forward within the competition. Good luck to this year's participants!

Last year's Cal Poly Global Supply Chain Challenge team

Target Case Competition

A total of five teams signed up to compete in the Target competition, with a grand prize of \$2,000 for the winning team! The teams will compete to solve one of Target's supply chain issues at their Rialto Distribution Center. This will give the students hands-on experience within the supply chain industry. The teams will compete throughout the 2017-2018 academic year, with a final presentation to Target executives in Spring 2018.

Nutrillite Tour

OMS students toured Nutrillite's facility to observe their operations and processes. Thank you to everyone who attended the Nutrillite tour!

Bowling Social

The Operations Management held their first social event of the academic year at Chaparral 300 featuring bowling, food, and fun! This was an excellent opportunity for OMS members to network and bond with each other.
