

Save Our Sea Friends

Specific Learning Focus:
Physical Development Health

Objectives:

Students will be able to hold the scissors correctly. Students will be able to open and close scissors, to cut the strips, and to identify sea animals.

Material and Supplies:

- Safety scissors
- Construction paper
- Plastic animals
- Tape

Preparation Steps:

Introduce the activity by explaining to them that I have some friends who are trapped, and I need help freeing them. Explain that the friends are sea creatures such as fish, turtles, starfish octopus and rubber duckies. The animals are already trapped in construction paper and the child(ren) will be helping you free my little water friends.

Procedure:

The sea animals are already taped in construction paper and the child(ren) will be given the animals to set free with the use of scissors, which will improve their scissor skills as well as eye coordination and hand strength.
