

ArcGIS Pro Setup

## Install Information

### Missing Prerequisite

ArcGIS Pro requires Microsoft .NET Desktop Runtime 10.0.x (x64). To download and install Microsoft Windows Desktop Runtime – 10.0.x (x64), visit the Microsoft website or contact your system administrator.

[Download .NET Desktop Runtime x64](#)

If you experience this error, please click 'exit' and download the (.NET Desktop Runtime 10.0.x) file available on the CGISR website Software page. [www.cpp.edu/gis](http://www.cpp.edu/gis)

Exit

# Microsoft Windows Desktop Runtime

## Windows Desktop Runtime

The .NET Windows Desktop Runtime is used to run Windows Forms and WPF applications on your computer. .NET is open source, cross platform, and supported by Microsoft. We hope you enjoy it!

If you plan to use .NET 10.0 with Visual Studio, Visual Studio 2022 or newer is required.
