

Join us for a Special NanoDays Seminar

**From the Bottom Up:
Nanoscale Science and Technology at Thirty**

Dr. Adam Z. Stieg

Scientific Director, Nano and Pico Characterization Lab
Director, Sci|Art Institute
California NanoSystems Institute – UCLA

**Thursday, April 7th
11am - noon in Ursa Major B
Bronco Student Center**

As a part of NanoDays 2011, this talk will present a brief historical retrospective on the foundations, history, and advances in nanotechnology following the invention of the scanning tunneling microscope thirty years ago.

This talk will be geared towards general audiences.
Everyone is welcome!

Refreshments will be served.
