General Education Units	68
Unrestricted Elective Units	8

\*For the purposes of illustration, assumed are (a) a 42 unit qualifying minor, and (b) no double counting between support courses and GE courses; in this case there are a total of 8 unrestricted elective units. However, typically, students will have fewer units for their qualifying minors, and will double count between support courses and GE courses; consequently, in the typical case, students will have a greater number of unrestricted electives.
