

CAREER & PROFESSIONAL READINESS

Prepare Our Students for the Future of Work, Human & Civic Engagement

Students have sequenced academic and co-curricular experiences supported by coordinated planning among the colleges, academic programs, the Career Center and Alumni Relations.

1. Implement a plan for student success that spans pre-admission to one year post-graduation.
2. Develop a career readiness model that provides students with early and on-going opportunities to engage with alumni, the community and industry leaders.
3. Advance student learning and civic engagement through initiatives and address community concerns and regional needs.

Strategic Initiative 3

CONCEPTUAL MODEL

Orientation

CliftonStrengths Assessment

- Develop self-awareness
- Discover what you do best
- Develop your talents into strengths
- Leverage your strengths
- Maximize your potential
