MEP Virtual Check-In’s

Maximizing Engineering Potential (MEP) program is offering Virtual Check-In’s three times per week.

In response to the COVID-19 virus pandemic, Cal Poly Pomona has made sweeping changes to help keep everyone safe and healthy. Included in these changes is the practice of social distancing, which has made it challenging for students to connect to others in the university community. MEP would like to continue maintaining a culture of social belongingness by offering a way for students to check-in and chat with someone.

Beginning March 30, 2020, a member of the MEP Team will be available to chat with you. You can simply check-in to say “Hi” or ask any questions, express any concerns that you may have. The MEP Team member will try to help you with your questions or concerns. These scheduled Check-In’s are virtual office hours, offered every Monday, Wednesday, and Friday.

**Mondays (11am – 12pm)**
Session Host: Ms. Cynthia Casado:
