

Hyflex Classroom configurations utilize a touch panel to control power, input, and audio for a classroom. For more detailed information please visit:

<https://www.cpp.edu/it/client-services/classroom-help/index.shtml>

Basic Touch Panel Controls:

1	Input Sources
2	Projector Power
3	Video Mute (<i>turns the projector screen black to avoid startup process</i>)
4	Help (x4040)
5	Room Control (<i>Projector Screen</i>)
6	Volume Controls
7	System Shut Down

Laptop Input: This input source utilizes a loose HDMI cable around the lectern. If your computer does not support HDMI, a set of adapters for USB-C, DisplayPort, and Mini DisplayPort can be found within the lectern. If you cannot locate it, contact classroom support (x4040) to request one.

HDMI

DisplayPort

Mini DisplayPort

USB-C
