# YOUR SUPPORT ALLOWS STUDENTS TO REACH THEIR DREAMS

## \$3,625,819

RAISED FOR STUDENT SCHOLARSHIPS

### RENAISSANCE SCHOLAR: RAMIRO MONTIEL

Ramiro Montiel lived in 24 foster homes until his teen years, when he reunited with his big brother, who graduated from Cal Poly Pomona. Ramiro also enrolled at Cal Poly Pomona and was buoyed by the support of Renaissance Scholars, his family, and staff and faculty mentors. Today, Ramiro ('16, marketing management) lives in New York City and works at Showtime, helping to market the company's top shows.

### STUDENT SPOTLIGHT: SANDRA K. PEREZ

Sandra K. Perez knew a college degree was her ticket to a better-paying career that would benefit her family. As soon as her kids reached school age, she came to Cal Poly Pomona. When her husband's job loss threatened to derail Perez's plan, another "family" — the Cal Poly Pomona Latin Alumni Network — stepped up. A \$2,000 scholarship cleared her tuition balance and covered fees for the following semester.

### PRESIDENT'S SCHOLAR: DHRUV MADIRAJU

"I find immense joy in helping and serving others. I hope to get to the point in my career where what I do as an engineer is able to help others in the communities that helped me grow."

### PRESIDENT'S SCHOLAR: BRIANA RITTEL

"Women in Engineering has been a cornerstone of my Cal Poly Pomona education. As successful women in industry share stories about their careers and how they persevered, it encourages me to keep going strong in pursuit of my dreams."
