POINTS OF PRIDE

Students work and learn on nearly 500 acres of pasture, farmland, orchards and vineyards on campus, growing grapes for wine and produce sold in the Cal Poly Pomona Farm Store.

Animal and veterinary science students work with Arabian horses, pigs, sheep and cattle on campus.

Turf, irrigation, and landscaping plant science students have worked at the World Series, Rose Bowl, Dodger Stadium, Angels Stadium, Disneyland, and the Super Bowl. They regularly place top 10 in the Golf Course Superintendents Association of America's Collegiate Turf Bowl competition.

Seniors in apparel merchandising and management design and produce a fashion line that is sold in the campus bookstore.

Food science and technology students won the American Society of Baking Product Development Competition in 2019 and 2020.

Our dietetics students far exceed the national Supervised Practice admission rates >80% and exceed the industry standard first attempt passing rate of the registered dietitian exam > 90%.
