In the College of Environmental Design, we design the future. As California’s largest public college of environmental design and part of the No. 1 polytechnic in the nation for social mobility, we advance access to design and planning and prepare students to shape the future of our shared built and natural environments with resiliency, justice and a commitment to sustainability and social responsibility.

**UNDERGRADUATE ENROLLMENT = 1,874**

- Architecture 39%
- Visual Communication Design 27%
- Landscape Architecture 19%
- Urban & Regional Planning 11%
- Art History 3%
- Graphic Design 1%

SEAN O’MALLEY
‘86 LANDSCAPE ARCHITECTURE
SWA Laguna Beach, managing principal

MANUAL MUNOZ
‘09 URBAN & REGIONAL PLANNING
City of La Mirada, director of community development

WENDY ROGERS
‘88 ARCHITECTURE
LPA Design Studios, CEO & CTO

POINTS OF PRIDE

The Lyle Center for Regenerative Studies offers students 16 acres of “living laboratory” for interdisciplinary studies and research of sustainable environmental design.

Students have numerous opportunities to study abroad, with programs in Italy, Denmark, France, China and Japan.

Neutra VDL Studio & Residences, a National Historic Landmark stewarded by our college, provides students with a great opportunity to explore the architecture, art and cultural complexity in southern California.

In our design studios, students engage in hands-on learning, building their creative, technical, social and analytical skills to solve salient design problems.
