

Mathematics Guidelines for Biology Majors
Cal Poly Pomona
2020-2021

Common questions or issues:

1. Students may need to take MAT 1050 before taking MAT 1200.
2. Students who are pre-med and want a full year of calculus should not take MAT 1200. Sometimes students take MAT 1200 and then have to start over and take MAT 1140+1150
3. ALEKS Scores can be used to replace one or both of MAT 1050 and MAT 1060, so some students may be able to skip one or both of MAT 1050/1060. [Click here to see math department webpage for exact scores and details.](#)
4. STA 1200 or STA 1300 is not a prerequisite for any of MAT 1200, 1140, MAT 1150, or PHY 1210/L. Stats is a different track, not one that comes before or after the MAT classes.
