

# All Purpose Document Destruction

Shredding has become necessary business service for:

- Healthcare Facilities
- Financial Institutions
- Insurance Companies
- State Government Facilities
- Automotive Industries
- Postal Service
- Legal Firms
- Mortgage Companies
- Title Companies
- Real Estate Offices
- Payroll Information

Governments and regulators around the world are now demanding that companies take responsibility for ensuring the security of their confidential records.

As a result, laws such as HIPAA, FACTA, The Georgia Identity Theft Law and

others are in place. So in order to comply with these laws and to protect your business, we will provide you with guaranteed confidential document destruction services, with regulatory requirements and protecting your business, employees and customers from theft.

# The Process

The process begins when you receive your first bin. Using only state of the art equipment that complies with industry standards, material is destroyed at an average rate of 3,000 - 4,000 lbs/hr and compressed into the storage com-

partment via auger discharge. The shredded material is then compacted and mixed with other data, making it virtually unidentifiable.

In today's world of fraud, identity theft and the great need for confidentiality, having documents shredded is not only the law but is also for the privacy and protection of you and your business.

# Why you need

As a result of negligence in the handling of waste documents, several governmental regulations have been enacted to protect businesses and individuals, such as:

- FACTA (Fair and Accurate Transactions Act)
- Privacy Act of 1974
- Economic Espionage Act of 1996
- HIPPA (Health Insurance Portability and Accountability Act)
- Gramm-Leach-Bliley Act
- Wisconsin Shredding Law
- California Assembly Bill 2246

# The Benefits

- On-site shredding
- Locked security containers are delivered straight to your facility.
- Only bonded, uniformed operators transport the documents, in containers to the vehicle for destruction.
- All material is destroyed within a matter of minutes.
- A Certificate of Destruction is presented to the client before the operator leaves the facility.
- NAID Member.
