Earth's Changing Surface Student Pre- or Posttest

1. What do you know about different landforms on Earth? Use words and pictures to describe what you know.

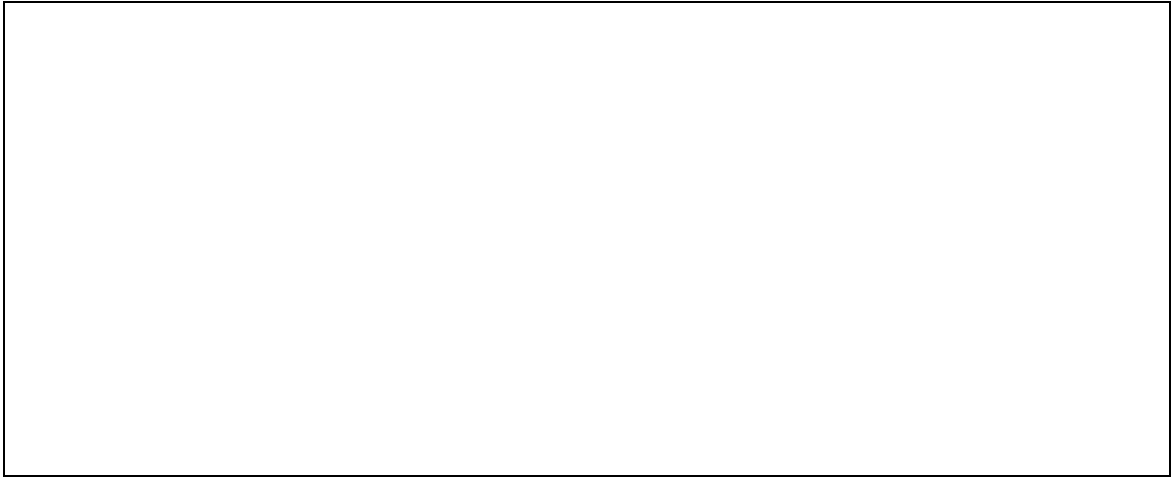

2. Describe what you think caused the place in this picture to look the way it does.

Photo courtesy of USGS.gov

3. In what ways do you think water changes the surface of Earth? (Think about rainfall, streams, and rivers as examples.)

1. Draw a picture.

2. Explain your drawing.

4. Will the landforms in this picture always look this way? Explain your ideas.
