

# Paddleball

Think about the forces acting on the paddleball in each frame and complete the table.

	What's Going On	Object Experiencing Force(s)	Object(s) Causing Force	Contact or Non-contact?	Direction of Change in Motion
	A paddle smacks a ball connected to an elastic band.				
	The ball travels away from the paddle.				
	The ball reaches its lowest position at the limit of the elastic band's length.
