

Daily Reflections—Day 1
Earth’s Changing Surface

Name: _____

What were your first reactions to the STeLLA claim that it’s important to plan and analyze science teaching through the Student Thinking Lens and the Science Content Storyline Lens? What was convincing or not so convincing for you and why?

What questions do you have about why the surface of Earth looks the way it does?

Provide feedback about today’s session and the program so far (likes, dislikes, questions, concerns, suggestions).
