

Daily Reflections—Day 7
The Sun’s Effect on Climate

Name: _____

What are your reactions to the strategy of selecting content representations and models that are matched to the lesson’s main learning goal?

What is something new you’ve learned about the Sun’s effect on climate? Did your content-representation analysis support this learning in any way?

Provide feedback about today’s session and the program so far (likes, dislikes, questions, concerns, suggestions).
