

How does the General Chemistry Series convert from Quarters to Semesters?

## Lecture:

CHM 121 (10 weeks) + CHM 122 (1<sup>st</sup> 5 weeks) = CHM 1210 (15 weeks)

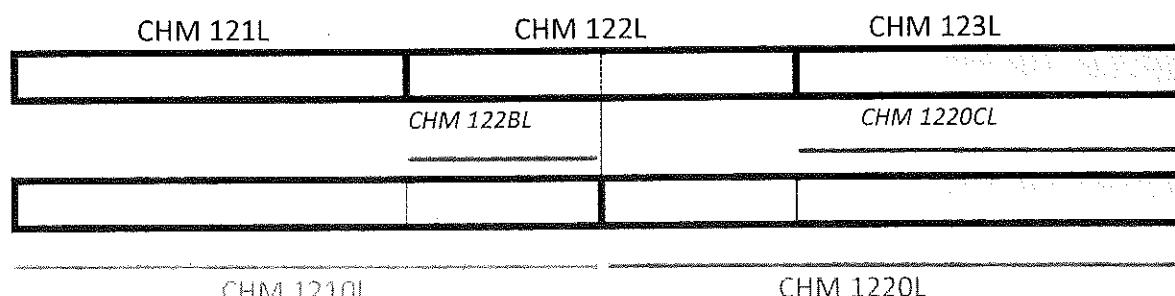

CHM 1220 (2<sup>nd</sup> 5 weeks) + CHM 123 (10 weeks) = CHM 1220 (15 weeks)

### Laboratory:

CHM 121L (10 weeks) + 1<sup>st</sup> 5 Weeks of CHM 122L = CHM 1210L

**2<sup>nd</sup> 5 Weeks of CHM 122L + CHM 123L (10 weeks) = CHM 1220L**

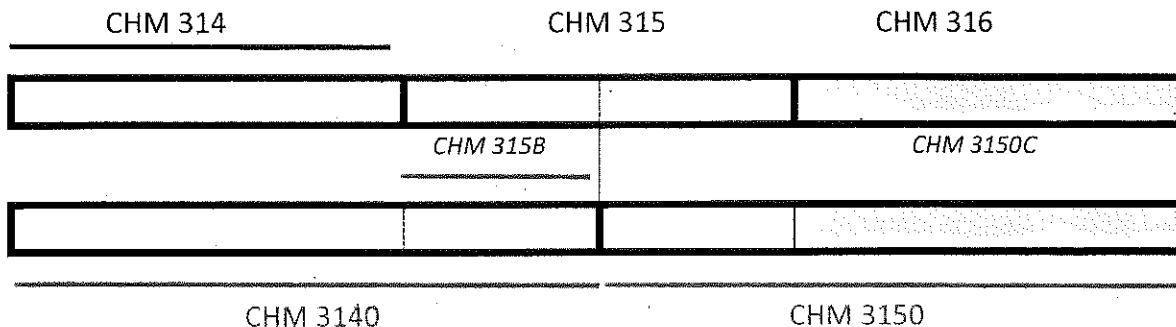

**How does the Organic Chemistry Series convert from Quarters to Semesters?**

## Lecture:

CHM 314 (10 weeks) + CHM 315 (1<sup>st</sup> five weeks) = CHM 3140 (15 weeks)

CHM 315 (2<sup>nd</sup> five weeks) + CHM 316 (10 weeks) = CHM 3150 (15 weeks)

### Laboratory:

CHM 317L (10 weeks) + 1<sup>st</sup> 5 Weeks of CHM 318L = CHM 3140L

**2<sup>nd</sup> 5 Weeks of CHM 318L + CHM 319L (10 weeks) = CHM 3150L**
