PROFESSOR JOINS SEA SLUG RESEARCH TO FIND CANCER CURE

Could sea slugs one day help scientists discover a cure for cancer? Ángel A. Valdés, an associate professor in the Department of Biological Sciences, hopes his research on the creatures will push the next generation of scientists closer to ridding the disease.

LOVE OF CAL POLY POMONA SPURS MEMORIAL SCHOLARSHIP

To honor her legacy, friends and family have established a scholarship for the late Dr. Debra Brum – the Dr. Debra A. Brum Computer Science Scholarship. During her career at Cal Poly Pomona (1982-2009), Dr. Debra Brum helped revolutionize the university’s views about technology and expanded the use of technology across the campus. She served as Professor and Chair in the Department of Computer Science.
