Personal Struggles Forge ASI President’s Political Path

ASI President Uriah Sanders knows what hardship feels like, what it’s like to go without enough food or have reliable transportation. And he’s determined to make a difference, both on campus and beyond.

“I want to do whatever I can do to make the world a better place,” says Sanders, a junior majoring in biotechnology.

His current path seems natural for him, but Sanders is quick to point out that his motivation did not always come so easily.

Brothers Teaming Up Translates into HackHarvard Win

Polycentric

A pair of brothers, who have invented a device that can translate a conversation into other languages on the fly, won this year’s HackHarvard, a 36-hour hackathon sponsored by Harvard University.

Gerry Fernando Patia, a College of Engineering computer engineering student; and Reyhan Fernando Patia, a College of Science computer science student, say their product, which they dubbed PolyGlot, was born out of a trip to Japan.
