Introduction

Background:

Cal Poly Pomona's currently-used time modules were developed taking into consideration the needs of the quarter calendar system. As the campus prepares to transition to a semester calendar, the standard time modules for instruction need to be redefined.

The objective of this referral is to request scheduling/instruction time modules for lectures, labs, and activities to be defined for the semester calendar. This referral also requests associated final exam times. These time modules and final exam times apply to the Fall and Spring semesters. Separate time modules and final exam times are being developed for summer sessions on the semester calendar (AA-001-156).

Discussion

The Academic Affairs (AA) committee reviewed the class time modules and final exam schedules of other CSU institutions with semester academic calendars during the 2014-15 academic year. The committee found that there is no single standard followed by these institutions. Instead, it appears that each campus has developed instructional time modules that best fit their own requirements. The committee members extensively discussed the requirements and the design criteria for developing instructional time modules for Cal Poly Pomona under a semester calendar. The committee decided that the two primary requirements for design of semester course time modules shall be (1) flexibility to meet student, department, and faculty instructional needs, and (2) efficiency in space utilization. The committee also decided that, to the extent possible, exam times should be on a day that the class meets and during or close to the regular

meeting time. In addition, exam times for time modules that do not overlap should not conflict.

Instructional Time Modules

The Academic Affairs Committee has identified three time module plans, each of which addresses the priorities listed above, but with different emphases. In designing the class time modules, the following provisions are observed:

A. General Guidelines

- a) The day abbreviations used are Monday (M), Tuesday (Tu), Wednesday (W), Thursday (Th), Friday (F), Saturday (Sa), and Sunday (Su).
- b) University Hours are proposed to remain on Tuesdays and Thursdays from 12:00-1:00 PM. No class shall be offered during the University Hours.
- c) While departments are encouraged to use approved time modules for activity and laboratory classes, departments may schedule activity and laboratory classes in dedicated, special-purpose rooms according to student demand and departmental needs.

B. Credit Hours

- a) Every hour of class meeting time includes a 10-minute break or passing period.
- b) Lecture classes (C classification C1 through C4) and seminar classes (C classification C5 through C6) have one hour of class per week for each unit of credit.
- c) Activity classes (C classification C7 through C14) have two hours of class per week for each unit of credit.
- d) Technical activities and laboratory classes (C classification C15), science laboratory classes (C classification C16), and clinical practice laboratory classes (C classification C17) have three hours of class per week for each unit of credit.

C. Scheduling Guidelines

The proposed time modules are listed in Attachments 1 and 2. Attachment 1 provides a summary of lecture, activity, and laboratory time modules. Attachment 2 lists every possible time module (based on the definitions included in Attachment 1), as well as its corresponding final exam schedule.

One-day classes may be offered on any day of the week: Monday (M), Tuesday (Tu), Wednesday (W), Thursday (Th), Friday (F), Saturday (Sa), and Sunday (Su).

Two-day classes may be offered on a Monday-Wednesday (MW), Monday-Friday (MF), Wednesday-Friday (WF), Tuesday-Thursday (Tu-Th), or Saturday-Sunday (SaSu) schedule.

Three-day classes may be offered on a Monday-Wednesday- Friday (MWF) schedule only.

One-unit lecture/seminar classes may be offered on any day of the week as 50-minute modules starting on the hour from 7:00 am to 9:00 pm (last module ends at 9:50 pm).

Two-unit lecture/seminar classes may be offered on one-day or two-day schedules only. Two-unit activity/laboratory classes may be offered on one-day, two-day, or three-day schedules.

Three-unit and four-unit lecture/seminar/activity classes may be offered on one-day, two-day, or three-day schedules. Three-unit laboratory classes may be offered on a three-day schedule only.

Three-unit and four-unit lecture/seminar classes on a one-day schedule offered on M, Tu, W, Th, or F may only be offered during the afternoon hours. Additional flexibility is available to these classes when offered on Sa and Su.

Departments are encouraged to offer one-day classes in sets of two to three classes to fill MWF and TuTh times as fully as possible and maximize space utilization.

When scheduling hybrid courses, departments are encouraged to specify (a) fixed weekday meeting(s) such that the classroom space may be freed for other departments to use on days not utilized by the hybrid course.

While departments are encouraged to use approved time modules for activity and laboratory classes, activity and laboratory classes in dedicated, special-purpose rooms may be scheduled according to student demand and departmental needs.

When scheduling hybrid courses, departments are encouraged to specify (a) fixed weekday meeting(s) such that the classroom space may be freed for other departments to use on days not utilized by the hybrid course.

Final Exam Schedule

With respect to scheduling of final exam time, it was noticed again that significant variation exists among the CSU institutions. A majority of CSU institutions allow for two-hour final exams, while Fullerton, East Bay, and Chico have 110-minute final exams, and San Jose State has 135-minute final exams. Following extensive discussion of pros and cons of different final exam durations, and after considering extensive campus feedback, the committee members decided to recommend 110-minute final exams with 10 minutes turnover time. 110-Minute final exam time provides more flexibility in design of class time modules. To be able to schedule all exams in one week of finals, other institutions appear to have restricted their class time offerings or operate on a different time schedule during the finals week. For example Fresno starts the exam week at 6:15 am.

The recommendation of 110-minute final exam is in part based on the following reasoning:

110-minute final exams allow for the use of 7 time slots in each day of the finals week (i.e., 7:00-8:50 am, 9:00-10:50 am, 11:00-12:50 pm, 1:00-2:50 pm, 3:00-4:50 pm, 5:00-6:50 pm, and 7:00-8:50 pm). However, 120-minute final exams with 15 minutes turn over would allow only six time slots in each day.

The additional one time slot per day enabled the AA committee to design the final exam schedule such that:

- a. No class time modules that do not overlap in time have conflicting final exam times.
- b. Final exams always start on the hour (as shown above) and not fractional hours as will be required with 120-minute exam duration followed by 10 or 15 minutes turn-over time. The standard final exam times are 7:00-8:50 am, 9:00-10:50 am, 11:00-12:50 pm, 1:00-2:50 pm, 3:00-4:50 pm, 5:00-6:50 pm, and 7:00-8:50 pm. For a few class time modules, the final exam time is 9:00-10:50 p.m.
- c. For all modules, the final exam occurs on the same day as the corresponding class meeting day(s).
- d. With only three exceptions, all final exam times overlap with the corresponding class meeting times. For the three exceptions, the final exam time is shifted by 70 minutes in order to avoid conflicts with other final exams.
- e. The final exam for activity, laboratory, as well as 1-unit lecture classes should be offered during class time in the final instructional week of the semester. Alternatively, the final exam for these classes may be offered by

the instructor during the final exam week, ensuring that all enrolled students can attend the offered final exam.

The proposed final exam schedule is included in Attachment 2.

Recommendation

- A. The Academic Affairs Committee recommends that the Academic Senate adopt the class time modules detailed in Attachment 1 to this report and the corresponding final exam schedule detailed in Attachment 2.
- B. The Provost's Office and the Steering Committee for Semester Conversion shall develop an appropriate timeline for the departments to provide a pilot class schedule for AY 2018-2019. The Provost's Office shall study the proposed schedules to determine if any additional changes are needed to the proposed time modules. If it is determined that additional changes are needed, the Provost's Office, in consultation with the Academic Senate Academic Affairs and Executive Committees, may implement the required changes.

C-Classification	Units	Meetings per Week	Meeting Days	Approved Time Modules
