First Reading

BACKGROUND: The Civil Engineering Department proposes to convert an existing Master of Science in Civil Engineering (MSCE) program, consisting of multiple emphasis areas, into a revised Master of Science in Civil Engineering (MSCE) program consisting of options. The proposed option name for the environmental and water resources engineering emphasis shall be MSCE Environmental and Water Resources Engineering Option. This includes converted courses, revised courses, and new courses as summarized in the Curriculum Sheets. This Program will offer a specialized program of advanced coursework in environmental and water resources analysis and design, and give students in-depth technical knowledge related to the field of Environmental and Water Resources Engineering.

RESOURCES CONSULTED:

Deans
Associate Deans
Department Chairs
All Faculty

DISCUSSION:

Before reaching the Academic Programs Committee, this program was reviewed by the College Curriculum Committee in the College of Engineering as well as the Dean of Engineering and the Office of Academic Programs. All concerns raised at those levels were addressed. The Academic Programs Committee then conducted campus-wide consultation, as well as its own review of the program. No concerns were raised.

RECOMMENDATION:

The Academic Programs Committee recommends approval of the Civil Engineering, M.S. - Environmental and Water Resources Engineering Option (New) as part of the semester conversion process.
