V. Minimum Student Material

List any materials, supplies, equipment, etc., which students must provide, such as notebooks, computers, internet access, special clothing or uniforms, safety equipment, lockers, sports equipment, etc. Note that materials that require the assessment of a fee may not be included unless the fee has been approved according to University procedures.

VI. Minimum College Facilities

List the university facilities/equipment that will be required in order to offer this class, such as gymnastic equipment, special classroom, technological equipment, laboratories, etc.

VII. Course Outline

Describe specifically what will be included in the course content. This should not be a repetition of the course description but an expansion that provides information on specific

material to be included in the class, e.g. lecture topics, skills to be taught, etc. This should not be a week-by-week guide unless all instructors are expected to follow that schedule.

Course Outline*

- 1. **Introductions.** Introduce the class and review syllabus. Discuss purpose of community-based projects. Introduce professor and students, including service learning interests. Discussion of sites and selection of individual and group projects. Divide into teams. Community partners to discuss proposed sites.
- 2. **Training Session.** History of Community Service Learning. What to expect from elementary and alternative education sites. Process of getting into a public school site. Protocol for working with community agencies. Review of forms (contract with site, weekly evaluation, etc.). Final selection of agency. Select contact person for each team.
- 3. Cultural Workers and the Significance of Paulo Freire. What is our role, as cultural workers, in the community? How can we be transformative activists? How can we be positive role models? What is the role of the university in responding to community issues? How would you respond to particular ethical situations?
- 4. **Models of Community Service Learning.** Discussion of Charity, Project Reform and Social Change models of community-based learning. What are some of the critical issues facing our local communities? What are assets from the community? What are needs of the local community?
- 5. **Community Organizations**. What are the histories of local community organizations? How have community organizations impacted civil society, both positively and negatively? What methods do they follow? What is the purpose of the organization/agency you have chosen to work with?
- 6. **Empowerment and Social Change.** What are lessons from Cesar Chavez and Dolores Huerta on service? How can schools sites and community organizations become sources of empowerment? How is multiculturalism linked to social justice? What are the important, contemporary community struggles in Southern California?

7. Conclusions and Reflections. Conclusions from readings.
Reflections from our experiences in the community. What have you gained from your community service? How has the community benefited from our class projects? How does civic participation contribute to life-long learning? Proposed recommendations for the future. Where do we go from here?

VIII. Instructional Methods

Describe the type(s) of method(s) that are required or recommended for the instruction of this course (lectures, demonstrations, etc.). Include any method that is essential to the course, such as the use of particular tools or software.

Instructional Methods*

This course is a participatory-action course. Students will primarily learn about community service learning and civic engagement through empowerment and social action. Our goal is to access community needs, discuss them, analyze them, and act on those needs. This is not a top-down approach. In other words, we are engaging in a process of consciousness, analysis, and action. Everyone is required to work closely with a community agency or school site and volunteer about 30 to 40 hours on a specific project. Using a Freirian approach to teaching, we will discuss issues collectively through dialogue and participate in a number of group exercises. The primary purpose of the course is to work in the community through praxis, linking participation with theory.

A variety of instructional methods will be used to support student achievement of the course outcomes. These methods include:

 Lecture/discussion and small group discussion. Students are expected to attend class regularly, and to be prepared to discuss the assigned readings and course topics in large and small groups, and how these relate to their civic engagement.

- 2. Group Presentations. Students will contribute to the course with classroom group presentations.
- 3. Online activities. Students will contribute to the course with online activities and discussion board.
- 4. LMS (Blackboard). If a LMS is used, student will be expected to check the site regularly, contribute to online discussions, get course information and submit course work through the site.
- 5. Guest speakers.

IX. Evaluation of Outcomes

Describe the methods to be used to evaluate students' learning, i.e. written exams, term papers, projects, participation, quizzes, attendance, etc.*

- used to evaluate students' learning, i.e. written exams,
 1. Essay Exam (mid-term and final) that demonstrates the students' ability to understand the required course reading, synthesize and apply to service learning/civic engagement experience.
 - 2. Community-based service learning hours with an approved site linking field experience with the course.
 - 3. Fieldnotes/journals on civic engagement.
 - 4. Instructor assessment of participation in classroom discussions based on the assigned readings and course content.

Describe the meaningful writing assignments to be included.*

Students will submit a rough draft of their Service Learning paper and journals for instructor feedback. Student will submit final draft.

Discuss how these methods may be used to address the course and program outcomes, as appropriate. Include or attach a matrix to align the evaluation methods to the outcomes.*
