

CALIFORNIA STATE POLYTECHNIC UNIVERSITY, POMONA
ACADEMIC SENATE

GENERAL EDUCATION COMMITTEE
REPORT TO
THE ACADEMIC SENATE
GE-020-156

ARC 3610 – World Architecture before the Renaissance

General Education Committee

Date: 10/28/2016

Executive Committee
Received and Forwarded

Date: 11/02/2016

Academic Senate

Date: 11/09/2016
First Reading
11/30/2016
Second Reading

BACKGROUND:

The College of Environmental Design introduced a new semester length course for the Architecture Department for GE Area C1.

RESOURCES CONSULTED:

Faculty
Department Chairs
Associate Deans
Deans
Office of Academic Programs

DISCUSSION:

The GE Committee reviewed the ECO for this course and found it to satisfy the GE SLO's and other requirements of GE Area C1.

RECOMMENDATION:

The GE Committee recommends approval of GE-020-156, ARC 3610 – World Architecture before the Renaissance.

ARC - 3610 - World Architecture before the Renaissance

C. Course - New General Education* Updated

General Catalog Information

College/Department	College of Environmental Design	Architecture
Semester Subject Area	ARC	
Semester Catalog Number	3610	
Quarter Subject Area		
Quarter Catalog Number		
Course Title	World Architecture before the Renaissance	
Units*	(2)	
C/S Classification *	C-01 (Large Lecture)	
<p>To view C/S Classification Long Description click: http://www.cpp.edu/~academic-programs/scheduling/Documents/Curriculum%20Guide/Appendix_C_CS_Classification.pdf</p>		
Component*	Lecture	

Instruction Mode*	<input type="button" value="Face-to-Face"/> <input type="button" value="Web-Assisted"/>
Grading Basis*	<input type="button" value="Graded Only"/>
Repeat Basis*	<input type="button" value="May be taken only once"/>
If it may be taken multiple times, limit on number of enrollments	<input type="button" value="1"/>
Cross Listed Course Subject Area and Catalog Nbr (if offered with another department)	N/A
Dual Listed Course Subject Area and Catalog number (If offered as lower/upper division or ugrd/grad)	N/A
Choose appropriate type (s) of course(s)*	<input checked="" type="checkbox"/> Major Course <input type="checkbox"/> Service Course <input checked="" type="checkbox"/> GE Course <input type="checkbox"/> None of the above
General Education Area / Subarea*	<input type="button" value="C1"/>

I. Catalog Description

Catalog Description	Survey of architecture of ancient Near East, Egypt, Greece and Rome, early Christian and Byzantine eras and Romanesque and Gothic periods in Western Europe. Introduction to major non-western architectural traditions.
----------------------------	--

II. Required Coursework and Background

Prerequisite(s) Prerequisite(s): Undergraduate standing and GE Area A3, or graduate standing in architecture.
Concurrent: Concurrent enrollment in ARC 3612 required.

Corequisite(s)

**Pre or
Corequisite(s)**

Concurrent Concurrent enrollment in ARC 3612 required.

III. Expected Outcomes

List the knowledge, skills, or abilities which students should possess upon completing the course.*

Academic outcomes

Students will be able to:

Interpret architectural features that distinguish major periods, styles, and significant architectural monuments of ancient and medieval Mediterranean world and major non-Western traditions (including by not limited to ancient Pre-Colombian America, Ancient India, South Eastern, and Eastern Asia)
 Analyze architecture using appropriate concepts, vocabulary, and the means of formal analysis
 Analyze relationships between architecture and larger cultural, social, economic, and technological developments
 Analyze architecture by interpreting architectural representation (floor plans, elevations, sections etc.)

If this is a course for the major, describe how these outcomes relate to the mission, goals and objectives of the major program.

NAAB Criteria (National Architecture Accrediting Board)

The Department of Architecture offers a five-year Bachelor of Architecture program and a three-year First Professional Master of Architecture degree, both accredited by NAAB (National Architecture Accrediting Board). A NAAB-accredited degree prepares students to live and work in a diverse world; to think critically; to make informed decisions; to communicate effectively; to engage in lifelong learning; and to exercise the unique knowledge and skills required to work and develop as professionals. The NAAB ensures that each program demonstrates how it meets all its student evaluative criteria. At Cal Poly Pomona, each required course is assigned one or more NAAB student performance criteria to ensure that all criteria are met for both the B.Arch and M.Arch programs. The complete NAAB accreditation criteria are at <http://www.naab.org/home>

Students will demonstrate ability in the following areas as defined by NAAB:

Critical Thinking and Representation:

Professional Communication Skills: Ability to write and speak effectively and use appropriate representational media with peers and with the general public

Investigative Skills and Applied Research: Ability to gather, assess, record, and comparatively evaluate relevant information and performance in order to support conclusions related to a specific project or assignment.

Use of Precedents: Ability to examine and comprehend the fundamental principles present in relevant precedents and to make informed choices regarding the incorporation of such principles into architecture and urban design projects.

Historical Traditions and Global Culture: Understanding of parallel and divergent canons and traditions of architecture, landscape and urban design including examples of indigenous, vernacular, local, regional, national settings from the Eastern, Western, Northern, and Southern hemispheres in terms of their climatic, ecological, technological, socioeconomic, public health, and cultural factors.

Cultural Diversity: Understanding of the diverse needs, values, behavioral norms, physical abilities, and social and spatial patterns that characterize different cultures and individuals and the implication of this diversity on the societal roles and responsibilities of architects.

Explain how the course meets the description of the GE SubArea (s). Please select appropriate outcomes according to the GE Area/SLO mapping.

Courses will enable students to experience and appreciate the fine and performing arts in relation to the realms of creativity, imagination, and feeling that explore the meaning of what it is to be human. Courses could include active participation in aesthetic and creative experience. Students should understand how disciplined, individual creativity can produce objects that are obviously useful or practical but that clarify, intensify and enlarge human experience. Courses will provide a sense of the values that inform artistic expression and performance, and their interrelationships with human society.

The course discusses great works of architecture as the products of creative mind challenging the technological limitations of its time. It analyzes architecture as being produced, simultaneously, for pragmatic purposes of giving a shelter to various activities, but also to give these activities an intense cultural meaning.

Describe how these outcomes relate to the associated GE Learning Outcomes listed below.*

As a General Education sub-area C1 course, also discuss how the course address the following associated GE Student Learning

Outcomes:

Ia. Write effectively for various audiences. Term paper, approximately 5-7 pages

Iib: Analyze major literary, philosophical, historical, or artistic works and describe their aesthetic, historical, and cultural significance in society (aligned with SLO's 1, 2, 4). The course examines major monuments of architecture, and emphasizes their historic significance and their role in culture in general

IVb: Demonstrate activities, techniques or behaviors that promote intellectual and cultural growth (aligned with SLO 3). The course develops an ability to appreciate works of architecture as a physical record of culture, which enriches an individual's life experience.

**General
Education
Outcomes***

I Ib. Analyze major literary, philosophical, historical or artistic works and explain their significance in society.

IVb. Demonstrate activities, techniques, or behaviors that promote intellectual or cultural growth.

Ia. Write effectively for various audiences

To view the mapping, click <https://www.cpp.edu/~academic-programs/Documents/GE%20SLO%20Mapping.pdf>

IV. Instructional Materials

Provide bibliography that includes texts that may be used as the primary source for instruction, and other appropriate reference materials to be used in instruction. The reference list should be current, arranged alphabetically by author and the materials should be listed in accepted bibliographic form.

**Instructional
Materials***

Spiro Kostof, *A History of Architecture: Settings and Rituals*.
2nd ed. New York: Oxford University Press, 1995

Additional readings:

Library resources: <http://www.csupomona.edu/~library/>

Copyright information: <http://www.csupomona.edu/~copyright/>

Help desk services: <http://www.csupomona.edu/~ehelp/>

Judicial Affairs/Academic Integrity:

<http://dsa.csupomona.edu/judicialaffairs/academicintegrity.asp>

Additional instructional materials (tutorials and illustrations) will consist of the PP presentations by the instructor that will be developed for each lecture and placed on the Blackboard

University policies:

Students must adhere to University policies. The policies are contained in the University Catalog, available online. <http://catalog.csupomona.edu/>

Architecture Department of Architecture Policies:

Review studio policies on department of architecture department website.

<http://www.cpp.edu/~arc/>

Faculty are encouraged to make all materials accessible. Indicate with an asterisk those items that have had accessibility (ATI/Section 508) reviewed. For more information, <http://www.cpp.edu/~accessibility>

V. Minimum Student Material

List any materials, supplies, equipment, etc., which students must provide, such as notebooks, computers, internet access, special clothing or uniforms, safety equipment, lockers, sports equipment, etc. Note that materials that require the assessment of a fee may not be included unless the fee has been approved according to University procedures.

Minimum Student Material*

A student notebook, access to online material, library, digital databases

VI. Minimum College Facilities

List the university facilities/equipment that will be required in order to offer this class, such as gymnastic equipment, special classroom, technological equipment, laboratories, etc.

Minimum College Facilities*

Large lecture hall equipped with black board / white board and overhead digital projector with screen and with access to the Internet.

VII. Course Outline

Describe specifically what will be included in the course content. This should not be a repetition of the course description but an expansion that provides information on specific material to be included in the class, e.g. lecture topics, skills to be taught, etc. This should not be a week-by-week guide unless all instructors are expected to follow that schedule.

Course Outline*

The course covers the architecture and urbanism of the time-periods and geographic locations listed in the tentative schedule below. Topics related to these periods and locations may consist of (but not limited to)

discussions of architectural design techniques as embodiments of cosmology and cultural beliefs in general; architecture and urbanism as the setting for social activities, civic events, and symbolic actions; relationships between architecture and power; relationships between architecture and construction techniques and methods.

Tentative Schedule:

Week 1. Introduction. A History of Art History and a History of Architectural Theory

Week 2. Ancient Mesopotamia

Week 3 - 4. Ancient Egypt

Week 5. Pre-Colombian America

Week 6. Ancient Aegean World

Week 7-8. Ancient Greece

Week 9-10. Ancient Rome

Week 11. Early Christian Architecture

Week 12. Carolingian and Romanesque Architecture

Week 13-14. Gothic Architecture

Week 15. Architecture of Ancient India and Far East

VIII. Instructional Methods

Describe the type(s) of method(s) that are required or recommended for the instruction of this course (lectures, demonstrations, etc.). Include any method that is essential to the course, such as the use of particular tools or software.

Instructional Methods*

Face to face classroom instruction
 In addition to presentations made by faculty and relevant guest lecturers, a variety of audiovisual resources will be used to aid student understanding of diverse architectural forms in their contexts. Class discussions and group presentations, midterm and final examinations, weekly writing assignments and term paper are required to help synthesize student understanding.

IX. Evaluation of Outcomes

Describe the methods to be used to evaluate students' learning, i.e. written exams, term papers, projects, participation, quizzes, attendance, etc.*

Student Assessment

Pop-up quizzes (minimum of 4, graded) will assure that students' acquisition of knowledge is consistent throughout the class.

In class discussions and participation (25-30 minutes per week): Portions of class meeting will be dedicated to small group activities and discussions, with some additional discussions taking place in ARC 3612

Term paper 5-7 pages (meaningful writing assignment, graded): Students will select from a list of topics during week 5 of the class. During week 8 they will be required to turn-in an extended outline of the paper, with the instructor's feedback due during week 10. The final paper (5-7 pages) will be due during the finals week.

Describe the meaningful writing assignments to be included.*

A 5-7 pages-long term paper addressing a topic selected from the list offered by the instructor. Students receive the instructor's feedback to the first draft / extended outline of the paper.

The architectural history or theory courses meet the requirement of a 'meaningful writing component' through written responses to assigned readings, essays in midterm examinations, final examinations an/or periodic quizzes, and through a term paper which hones the student's research, critical thinking and writing skills.

Discuss how these methods may be used to address the course and program outcomes, as appropriate. Include or attach a matrix to align

X. This OPTIONAL Section is for describing Course/Department/College specific requirements.

B. Course Assessment

**Department/
College Required
ECO Information
(Optional)**

Department of Architecture course evaluations are distributed to students at the end of each term.

The Architecture program is periodically evaluated for accreditation by NAAB-National Architecture Accrediting Board. Course is assessed to meet NAAB Accreditation Criteria.
