TITLE OF REFERRAL: MAT 1055-College Algebra (GE Sub-are B4)

BACKGROUND:

The Mathematics and Statistics Department wishes to create a new course, MAT 1055-College Algebra. This course is equivalent to the MAT 1050 course, but the prerequisites and targeted population are different (the course is targeted towards Category III students who require extra support).

RESOURCES CONSULTED:

N/A

DISCUSSION:

This is the addition of a course that is equivalent to a course that is already in the curriculum (and is an approved Area B4 course) but is designed for students that require extra support. The differences are significant enough to merit a new course but the course outline and learning outcomes still align with the Area B4 requirements.

RECOMMENDATION:

The GE Committee unanimously recommends approval of GE-001-212 MAT 1055: College Algebra (GE Sub-area B4).
