Provost's Report to the Academic Senate

S. Terri Gomez, Ph.D.

Interim Provost & Vice President for Academic Affairs

Wednesday, March 13, 2024

Summer Session 2024

Purpose for Change

- Opportunity for increasing CSU-funded permanent base dollars, by increasing a portion of stateside summer classes (approximately 30%)
- Funding is available from the CSU Compact with the Governor AND from the CSU Reallocation plan.
- We can meet higher FTES targets using summer without adding AY headcount.

Summer Session 2024

New Structure

- All General Education classes offered will be run state-side
- All non-GE courses will continue to run as self-support
- This hybrid model provides the growth that we need this year
- Students can enroll in both GE and non-GE courses
- GE courses will be less expensive for students than non-GE courses
- Students in GE courses will have more financial aid available.

Summer Session 2024

Student Fees

- The Self-support summer fee structure aligns with the state summer fee structure, all rates are 40% higher in self-support.
- Students enrolled in both GE (state) and non-GE (self-support) will pay for each course according to the corresponding fee schedule.
- Students enrolled ONLY in a 6990 or 8990 section to finish their master's thesis, master's project, or doctoral dissertation will pay the graduate Open University rate, a significant discount.
- Mandatory auxiliary fees are the same as past summers.
- All fee information will be available on the web soon.

Summer Session 2024

Summer Faculty

- Summer is extra work for extra pay for all faculty.
- State summer courses do NOT replace academic year workload.
- Faculty teaching both state and self-support offerings will receive separate contracts for state WTU and self-support WTU.
- Enrollment-based compensation will be used for all courses.
- Salary funding for summer will be distinct from academic year budgets.

Summer Session2024

Have More Questions?

Summer 2024 Office Hour

Friday, March 15

12 – 1pm
