OCTOBER'S BIT OF ASI WITH ALEJANDRA

presented to academic senate

What are we up to?!

ASI is currently going through a strategic financial planning process focused primarily on the BSC and BRIC but also does involve the rest of campus to an extent. At the financial level, we're looking at:

- The health of ASI's current reserves.
- What is needed for the ongoing upkeep of our facilities, including things like deferred maintenance and ongoing projects.
- What capital improvements we can realistically support in the near and mid term.
- What larger renovations or projects we may need to prepare for over the long term.

ASI x Enterprises

As ASI Student Government, we are working with Enterprises to identify opportunities to lower costs and create greater benefits for students. I am also exploring ways to strengthen our collaboration with the Poly Pantry and expand access to services that support students' basic needs, well-being, and success on campus.

- Identifying areas where campus costs can be lowered
- Exploring ways overproduction can benefit students
- Expanding awareness and access to basic-needs resources
- Finding additional services and programs that support student success

Highlighted Service!

The CPP Poly Pantry is a THE campus resource that helps support students by providing access to free food, basic necessities, and other essential resources. By operating, students who may be experiencing food insecurity or financial challenges, the Poly Pantry helps ensure that students can focus on their education and well-being without having to choose between their basic needs and academic success.

we never turn anyone away! walk - ins will ALWAYS be accepted :)!

Highlighted Service²!

An Additional Budget Request (ABR) asks ASI for funding from the New Programs and Augmentation (NP&A) fund.
se an ABR when your registered Student Club or Council has an approved annual allocation, but that allocation is insufficient for ar eligible conference, competition, program, or event.
An ABR is not guaranteed funding. Every request is reviewed for eligibility, documentation, available NP&A funds, and final approval.
