Strategic Initiatives for Administrative Affairs

Green Your Space

As Climate Change increases, we as a hub of knowledge and innovation, must take action to help reduce our impacts on the environment. There are so many ways to incorporate sustainable actions in our daily lives to reduce our carbon footprint. Together we can make progress to combat one of the most pressing issues facing us today.

**"You cannot get through a single day without having an impact on the world around you. What you do makes a difference and you have to decide what kind of a difference you want to make."
-Margaret Mead**
