

Scholar Graduation Plan

- This plan is intended to help us assess whether you will graduate by your expected graduation date
- Your CSU campus catalog, and possibly your department website, should have information on the major requirements for your major; transfer students should consult the information for the CSU where they intend to transfer
- Consult these resources *before* you begin inputting information into this document
- Please fill out the courses you intend to take each term. There should be enough boxes to fill out for 2 years worth of terms. Make sure you fill out the information completely. **DO NOT total the number of units, the document will do that automatically for you**

Note: We only require course information for major-related courses; for your GEs you can simply enter in the number of units. We understand that electives are dependent on when they are offered; therefore this plan is a best estimate of what you are looking to do to graduate. We expect that this plan likely will change over time.

Name _____

CSU campus _____

Term:			Year:			Term:			Year:		
Units	Course Number	Course Name	Units	Course Number	Course Name	Units	Course Number	Course Name	Units	Course Number	Course Name
GE courses (input units only)			GE courses (input units only)			GE courses (input units only)			GE courses (input units only)
