

# Science by Diverse Scientists: A Cal-Bridge Physics & Astronomy Seminar Series

4-5 pm Pacific, Every other Tuesday on Zoom <https://csusb.zoom.us/j/93725765417>

## SPRING 2021

1/26	Ronnie Shepherd Lawrence Livermore Nat'l Lab	<a href="#">Utilizing short pulse lasers to explore matter at stellar conditions</a>
2/9	<b>JC Holbrook *talk at noon*</b> University of Edinburgh	<a href="#">Cultural Astronomy, Diverse Astronomy</a> Different link: <a href="https://ucmerced.zoom.us/j/84103381304">https://ucmerced.zoom.us/j/84103381304</a>
2/23	Rocio Ng LinkedIn	From STEM Studies to Data Science: How I Leveraged My PhD Into Success in the World of Tech
3/9	Gabriela Gonzalez Louisiana State University	Gravitational Waves and LIGO
3/23	TBA	TBA
4/6	TBA	TBA
4/20	Eleanor Lyke, University of Wyoming, and Becky Flores, Georgia State University	Improving classification and redshift algorithms for quasars and measuring stellar sizes
5/4	TBA	TBA
5/18	Henry Garcia Pixar Animation Studios	From Nanotech to Infinity and Beyond - A physicist's journey into the world of computer animation

A biweekly series throughout 2020-21: [https://www.cpp.edu/calbridge/resources/speaker\\_series.shtml](https://www.cpp.edu/calbridge/resources/speaker_series.shtml)

The California  
State University
