

# Niagara Bottling

October 2021

## Over 500 Customers

Served in the U.S.

On October 7th, OMS featured guest speaker Sun Kwok, Director of Supply Chain Solutions, to speak about career opportunities at Niagara Bottling, which has 40 plants across North America. The company has been family owned and operated since the 1960s and has been growing 16% annually since 2016. It is the number one shipper to retailers like Costco and Walmart. The company features the fastest automated bottling lines in the industry at 40 bottles/minute. Focus on sustainability has reduced PET plastic by 52% and its bottles are made of 50% recycled plastic. The internship will occur during the Summer of 2022 from June to August. The PDP program is also offered, which is 18 to 24 months of training, and offers HQ Track or a Supply Chain Operations Track. During the Q/A session, Kwok emphasizes the ideal candidate must be a team player, adaptable to change, and willing to learn! Recommended technical skills to succeed in this environment are knowledge of Excel, PowerB, and Tableau. Nevertheless, everyone is encouraged to apply. As Mr. Kwok mentions, "You have a 50% chance of being accepted, but 0% chance if you don't apply."
