Improve Quality of Life

Chemical engineers design processes and materials for alternate energy, biomedical and structural applications, and develop useful products such as food, medicine and fuels.

The Chemical & Materials Engineering Department offers a Bachelor of Science in Chemical Engineering (BSChE), which includes work related to the design, construction and operation of plants for fuels, plastics, fibers, foods and pharmaceuticals.

In addition, a Minor in Materials Engineering and a Master’s in Engineering with Emphasis in Materials (MSEMTE) are also offered.
WE TRAIN WORLD-CLASS WORKFORCE READY ENGINEERS

Applications accepted online through: www.calstate.edu/apply

ONE OF THE BEST ENGINEERING COLLEGES IN THE NATION

- Ranked top 5 best undergraduate engineering program among public universities in the Master’s Category by U.S. News & World Report.

- With more than 45 student clubs, we offer many opportunities for students to hone skills needed to succeed in industry, including communication and teamwork.

- It is estimated that 1 out of 14 engineers in the state of California graduated from Cal Poly Pomona.
