

MECHANICAL ENGINEERING

Build Technology for a Better Life

Mechanical engineers apply knowledge from energy systems, fluid flow, and machine design to develop artificial organs, hybrid engines, solar panels and more.

The Mechanical Engineering Department offers a **Bachelor of Science in Mechanical Engineering (BSME)**, and a **Master of Science in Mechanical Engineering (MSME)**. A **Minor in Energy Engineering** includes study of all energy sources, energy conversion and transfer systems, efficient energy utilization and environmental implications.
