

Standard Classroom configurations utilize an Extron control panel for projector power and screen placement as well as audio and device input. For more information please visit: <https://www.cpp.edu/it/client-services/classroom-help/index.shtml>

The Control Panel location can vary from room to room either on the instructor station or inside of an equipment rack. The buttons for the different functions also vary from room to room depending on the technologies being used. A basic layout can be referenced below:

Buttons may be labelled differently, placed differently, or not exist on the control panel at all. Additional buttons may also be seen which are used to control screen pausing, pass-through different inputs (VCR, DVD, Aux Video).

Input Labels:

PC	Lectern PC
Laptop	External Laptop (adapter included or can be requested from x4040)
DOC CAM	Document Camera
Aux Video	Wireless Presentation (Solstice)
VCR	VCR (deprecated)
DVD	DVD (deprecated)

External Laptop Input Cable Types
