

Multi-Year Tuition Increase

- CSU Board of Trustees approved a multi-year tuition proposal that will increase tuition by 6% per year for 5 years.
- The tuition increase would begin in Fall 2024.
 - The first increase in 2024-25 would be \$342 for the academic year.
- The tuition increase requires that **1/3** of the systemwide tuition will continue to **be returned to financial aid** in the form of the State University Grant (SUG).

Support to Our Students

- Over 70% of Cal Poly Pomona students receive some form of financial aid.
- Currently, over 65% of undergraduate students at Cal Poly Pomona have their tuition fee fully covered by the Cal Grant, State University Grant, or a waiver. These students will be unaffected by the increase.
- 1,700 Undergraduate students receive an amount from the CA Middle Class Scholarship (MCS), which is equal to 50% or more of the systemwide tuition fee. It is expected that their MCS would also be increased.
- The University will utilize scholarships, including from philanthropic sources, to address student need.
- Many students do not apply for financial aid; it is possible some of these students would have qualified for aid if they had applied.

Our Plans for Engaging Students

- Ensure our students file a financial aid application (FAFSA/CADAA) by the priority filing deadline of April 2, 2024.
- Workshops and tutorials focused on simplifying the financial aid application process.
- Timely delivery of financial aid offers and assisting students and their families in understanding their financial aid package.
- Encourage students to contact the financial aid office for information and guidance on the various types of aid.
- Easy access for submitting financial aid appeals.
- Connecting our students to the many campus resources needed to succeed.
