If you are interested in becoming a Women in Engineering Ambassador send an email to cpp_we@cpp.edu.

Best Regards,
Brooke, Shannen, & Teresa
At the Winter Quarterly Meeting, CPP WE Ambassadors were able to reveal their creative side in a group canvas painting demonstration. As engineers, most ambassadors are used to fixed lines and curves, so this was a great time to bring out their creative lines.

The contrast of the soft, red roses with the black and white lined pattern of the vase reflect a combination of the creative and systematic approaches our ambassadors possess.

Our ambassadors enjoyed getting to know each other, and at the same time relieved some “beginning of the quarter stress”.

On February 27, 2017, 140 middle school girls were invited to our 3rd Annual Introduce a Girl to Engineering event. The purpose of the event is show girls what engineering is and to inspire them to pursue a career in engineering.

With the help of CPP WE Ambassador Volunteers the day went along without a hitch! The event featured four engineering activities with an emphasis on cars. The amazement in getting their activity to work was priceless, and we look forward to next year’s event! Thank you to all the volunteers that helped make this event happen!!
